Eight Inches of Rain Drenches Area; Cotton Crop Faces Critical Period

Trailer Razed By Fire

A house trailer one and one-half miles northeast of Miner was destroyed by fire Sunday night.

Larry Hornback, owner, charged that the fire department took more than a half hour to answer the call, and when firemen arrived they stood and watched it burn.

It was too late for firemen to save anything when they arrived, he conceded.

Hornback also said that whoever answered the call when he phoned to report the fire explained the department could not answer calls outside the city limits.

City Manager W. Raymert Miller said the fire chief L. D. Ramsey authorized the firemen to answer the call. The city answers calls outside the city limits according to the situation, Miller said. The judgment is made by the fire chief.

In this case, the caller said other buildings were threatened, Ramsey said. Other buildings were not threatened and the trailer was too far gone to be saved, the fire chief said.

The trailer was about one half mile north of highway 60 East on the first blacktop road east of the Interstate 55 overpass.

Hornback said he discovered the fire when he smelled smoke while watching television at 7:15 p.m. The fire apparently started in electrical wiring.

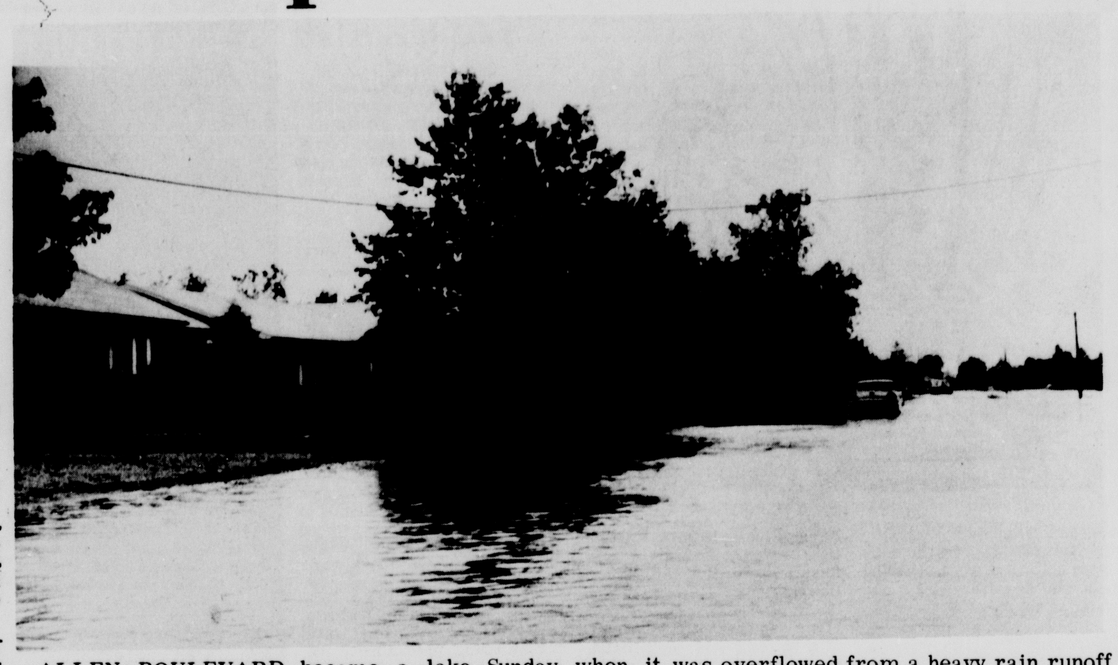

Hornback and his wife fought the fire with a hose.

Firemen extinguished a fire in an exhaust fan above the grill at James Drug Store, 129 East Front, at 10:30 p.m. Saturday. Only the fan motor was damaged by fire.

A fire was reported at 1:15 p.m. Sunday at the Phillip Gossett residence at 114 Reuben. Water from heavy rain seaped under the floor and interfered with the functioning of the furnace. No serious damage was caused.

An automobile owned by W. W. Wilkerson, parked near the Nancy Sweet Shop, highway 61 South, backfired at 5:30 p.m. Sunday and caused a minor fire, firemen reported.

Another car fire was extinguished Saturday night at Scott and Daniel. An automobile owned by J. D. Schaffer apparently caught fire after a backfire, firemen said.

ALLEN BOULEVARD became a lake Sunday when it was overflowed from a heavy rain runoff north of Salcedo road and in the Green Meadows area. The camera is pointed north from Wakefield. The houses at left are those of John Harper and Lawrence Cleek.

LOOKING SOUTH on Allen boulevard when rain water covered the street six to eight inches deep at noon Sunday at the Wakefield street intersection. The homes of Frank Armstrong and David Bailey are on the left.

Prospects for a good cotton crop dimmed with the heavy rainfall that struck the area Saturday and Sunday and left several fields covered with water.

A total of eight inches of rain fell in Sikeston Saturday and Sunday bringing the month's total to 12.25 inches.

Four of the five inches of rain that fell here Sunday came between 4 a.m. and 8 a.m. Rain continued to fall throughout most of the day. Three inches of rain fell Saturday.

No serious damage was reported in the city due to the storm, City Manager W. Raymert Miller said. Washouts occurred on Anderson, Ingram and Compress roads. Surface water remained in several intersections and a few small limbs were downed, he said.

Lightning struck the police radio tower Sunday morning and knocked out service temporarily. The damage has not been completely remedied today, although the radio is operating.

Electrical service was stopped for about 100 farm customers of REA between 6 a.m. and 11 a.m. Sunday, James Stephenson, manager, said. Lightning struck a transformer and oil circuit breakers near Miner and affected about one third of the customers in area near Miner and north, he said.

Another 25 customers near East Prairie were without power for about two hours after a car struck a utility pole three miles northwest of East Prairie on Miller Road Saturday night, Stephenson said.

Missouri Utilities Co. reported that the storm caused only minor problems, with no serious outrages. Three men were working for 12 hours Saturday to restore the damaged lines in Lilbourn caused by the fire that destroyed three downtown businesses, Bill Proffer, manager, said.

Several roads in the area were covered by water, Barney Monroe, maintenance engineer for District 10 of the State Highway Department, reported.

Two places on Route E south of Morehouse had 4 to 5 inches of water standing Sunday. Water was standing on Highway 61 north of Sikeston at the Tanner Road intersection and near the Joel Montgomery residence, he said. Routes 80, 62 and 102 in the area also were covered with water in places, he said.

The next week is critical to

Charles S. Raizen

Industrialist Raizen Dies In East

NEW ROCHELE, N. Y. -- Charles S. Raizen, chairman of the board of the Transogram company, Inc., died Saturday night after a short illness at his home.

He founded the company 52 years ago. Anchor Toy in Sikeston, Mo., founded in 1955, is one of six subsidiaries.

He was present at dedication ceremony of the company here in 1955 and visited Sikeston once each year since.

He was scheduled to visit here next month.

Raizen spoke at the annual Chamber of Commerce banquet in 1956.

Active in civic, Masonic and charity organizations, he founded a charity organization in the East that bears his name.

Surviving are his wife, Mrs. Patricia Raizen; a daughter, Mrs. Lee Fadem, and a son, Ray Raizen, all of New Rochelle.

Services will be in New Rochelle Tuesday.

The Anchor Toy Company in Sikeston will be closed tomorrow, in respect to him.

Three Held in Burglary

HAYTI -- Three young men were apprehended at a road block at Portageville following the burglary of about $100 at Graue Grocery store last night.

The highway patrol said the store owner, Hoot Graue, had returned to his store at 10 p.m. last night and saw two men in the store. One of the burglars threw a crate through a window and jumped out of it as Graue fired a shot at him. The burglar shot back with a .38 calibre pistol and fled, troopers said.

Graue surprised the men after they had broken down a rear door with a sledgehammer.

The front window was shattered by the case of oranges one of the men tossed through it in making his escape.

Graue recognized the pair and notified the highway patrol.

At 10:30 p.m. troopers Randal Bess was investigating an accident north of Hayti on U. S. 61. He had the loud speaker on his patrol car turned on so that he could hear the police while investigating the accident.

He heard the report on the burglary and noticed a car pass by with three youths in it. The radio dispatch gave the names of the two youths recognized by Graue. When the occupants of the car heard their names being broadcast over the police radio, they sped away in their car. Trooper Bess notified Portageville police, who set up a road block.

Apprended were Cecil Moody, 18, Billy Brimhall, 19, and Danny Powers, 18, all of Hayti. Moody and Brimhall, who were the two identified by Graue, have admitted the theft, but Powers denies any knowledge of it.

About $79.50 was found in the car and another $20 was scattered on the store floor.

The three are being held at Pemiscot county jail at Caruthersville. Charges were expected to be filed today.

Rise Predicted For Food Prices

WASHINGTON (AP)—American housewives will be paying two to three per cent more for groceries by this summer, the Agriculture Department predicted today.

The anticipated hike in retail food prices is expected to wipe out a decline of nearly one per cent during the first three months of the year, then advance another one or two per cent on top of that.

For the year as a whole, the department forecasts an average jump of about 1.7 per cent in food costs above last year.

Primarily because of the projected price hikes, consumers are expected to spend about $94.6 billion for food this year compared to $91 billion in 1966.

The forecast for higher retail food prices comes at a time when prices paid farmers for food they produce are down nearly 10 per cent from last summer and seven per cent below last year's average.

Some of the expected increase in retail food prices would reflect anticipated upturns in some farm prices, particularly for meat animals. Somewhat reduced marketings of cattle and hogs are expected as a consequence of some contraction in livestock production under the pressure of prices unsatisfactory to farmers.

The department said current indications point to an increase in both production and marketing of farm commodities this year, with the upturn concentrated in crops.

Because consumer incomes went up while food prices eased off slightly, the department said consumers spent an averags of 17.5 per cent of their income for food during the first quarter of the year, the lowest of record. Last year, the percentage was 18.5.

Items expected to rise later in the year besides meats include eggs, poultry and possibly some dairy products. Items expected to continue near present levels include citrus products, canned fruits, processed vegetables, potatoes and cereal products.

Money Bills In Spotlight

JEFFERSON CITY (AP)—Major money bills will preoccupy the Missouri Legislature this week as the Senate opens debate on them Tuesday.

What happens to them may determine the fate of several other measures, including possible expansion of state participation in the medicaid program.

The limited medicaid bill passed by the Senate comes before the House Social Security Committee Tuesday night. It is expected to consider a substitute that would go beyond Gov. Warren E. Hearnes' original limited recommendations.

It all depends on what happens to the major appropriation bills and whether the revenue estimates of Budget Director John C. Vaughn stand up. He says he is confident they will and there will be money to spare after the governor's bud-

See No. 2 Page 10

14 Treated

Fourteen persons were treated Saturday and Sunday in the Missouri Delta Community hospital emergency room for accidents - ranging from automotive, snake bite and stab wounds.

Ginger Hughes, cut foot on glass while wading; Daryle Wayne Mays, fell off ladder at his home; Ronnie Lynn Standridge, stepped on nail. All were admitted on Saturday.

Admitted on Sunday were Jimmy Dodd, snake bite on hand; James Baker, injured in car accident; Jewell D. Woods, Anniston, injured in car accident; Jesse O. Bonner, treated for stab wound; Larry Dick of East Prairie, injured in fight; Joy Lannum, injured in fall; Stephen Burke, Charleston, injured in fall. Wanda Copeland, treated for dog bite; Eugene Fodge, Helen Fodge and Michael Fodge, Benton, injured in car accident.

Home Rule Again Gets Hearnes Plug

ST. LOUIS (AP)—"Local government is and must remain the central pillar that will sustain our democratic society," Gov. Warren E. Hearnes said today.

The Governor made his remarks in a speech prepared for delivery to the Mayors' Seminar at Washington University.

In discussing the financial problems of municipalities and the state-local government relationships, Hearnes said, "specific attention must be directed toward devising alternatives to the present over

See No. 1 Page 10

Debt Ceiling Request Climbs

WASHINGTON (AP) - Secretary of the Treasury Henry H. Fowler asked Congress today to raise the ceiling on the national debt to $365 billion, up $29 billion from the present ceiling.

Beside asking for one of the biggest single increases in history, Fowler recommended that the new ceiling be made permanent.

At present the permanent ceiling is $285 billion, and various temporary increases have been granted on top of that.

The latest of these expires June 30, at which time, Fowler said, the debt is expected to be about $327 billion.

237 Adults Complete Vocational Training

Bill Sikes, director of the manpower development and training program at the high school, told the Optimist Club at a breakfast meeting today that 237 adults completed the vocational training course in the first year.

"Of this group," said Sikes, "192 are employed. You may look on this program as an expensive federal expense, with a cost of $31 million, but the 63,000 trainees, who completed the course, have a yearly income of $17 million."

There are 250 trainees in the Sikeston program. A total of 1,730 adults have been enrolled from the start of the program. Sikeston is headquarters of one of three programs in Missouri. The others are at St. Louis and Kansas City.

The program is designed to teach a trade. Of those who have completed the instruction, 85 per cent are employed, Sikes said.

The yearly staff payroll is $180,000.

Enrollees in the program are paid $50 per week.

The program provides instructions for 10 vocations. It is provided for school dropouts, unemployed persons and persons forced out of employment because of economic change.

There have been 477 persons in the program since January of 1966. Dropouts number about 16 per cent.

The Sikeston program covers an area of 20 counties.

Bomb Threat Disturbs Hotel Guests in 3 States

By ROBERT M. SHAW

LAS VEGAS, Nev. (AP) — A bomb and a note demanding $75,000 were found in a tower room at the Sahara Hotel-Casino on the Las Vegas strip today after thousands of guests were evacuated from Del Webb hotels in Nevada, California and Arizona.

The Clark County sheriff's office said the bomb was found after a man called the pit, or center of the gambling area, in the Sahara and said the device was set to go off about 5 a.m.

Deputies found the bomb in Room 4014 on the 12th floor of the hotel-casino. It was in a wooden box attached to a wall in a closet.

Officers hooked a rope around it and pulled it down. They dragged it to a service elevator and out the back of the building. There was no explosion.

Inside the box were a series of plastic pipes filled with powder, deputies said. They were unable immediately to identify the type of powder.

Near the device was a page-long single-spaced typewritten note with several grammatical and spelling errors. The note read in part:

"The bomb inside this closet is not movable in any direction and is set to explode exactly five hours from the time you are notified of its presents (sic).

"The bomb can be disarmed, but only by its' (sic) maker and by special instructions.

"Disarming is accomplished by pressing one of the 12 buttons on the top. The remaining buttons will detonate the bomb.

"In addition to this bomb,

Tracking Expert Joins Search

HANNIBAL (AP) - A Missouri state employe skilled in tracking was brought into the search today for three boys who may be lost in a network of caves underlying Hannibal.

The search for Billy Hoag, 11; Joey Hoag, 13, and Craig Dowell, 14, was in its fifth day. The boys were believed to be exploring caves when last seen Wednesday.

Terry Hill of the Missouri Department of Correction was called in from Moberly to join parties pushing an above-ground search. Hill will try to find a footprint or other clue.

Sharon Hatley To Play Piano Part in Concert

Sharon Hatley, daughter of Mr. and Mrs. Atlas Hatley, will play the featured piano part in Don Gillis' "Fields in Summer", with the Sikeston high school band tonight at the high school band shell.

Miss Hatley plays French Horn in the band and horn quartet and is a member of the concert choir and modern chorale. She has also been awarded a band scholarship at Southeast Missouri State College at Cape Girardeau for the coming year. Other incidental soloists will be Linda Werneck, Jan Harper, Judy Murchison, and Mary Anne Bruce.

The annual pop concert will start at 8 p.m.

Sharon Hatley

Weather

CLOUDY

Clear to partly cloudy and mild tonight and Tuesday. Low tonight 45 to 52. High Tuesday low to mid 70s. Precipitation probabilities 10 per cent tonight, 20 Tuesday.

FIVE - DAY FORECAST

Temperatures Tuesday through Saturday will average 2 to 7 degrees below normal. Normal high in the 70s, low in the 50s to near 60. Rainfall in showers and thunderstorms will average from one-quarter to one-half inch.

WEEKENDS HIGH AND LOWS

High and low temperatures for the 24 - hour period ending at 7:30 a.m. Sunday were 66 and 61. Rainfall for the period was 3 inches. For the period ending at 7:30 a.m. today the high was 66; the low was 49 and 5 inches of rain was recorded.

Five Injured in Area Traffic Accidents

Pam Moss, 22, Charleston was injured seriously in a one-car accident on highway 62, one-half mile west of Charleston at 9:10 p.m. Saturday.

Troopers said the car, driven by Judy Montgomery, 21, Poplar Bluff, went out of control on a curve, ran off the road and hit a utility pole. Miss Moss was taken to the Missouri Delta Community hospital.

Two Benton girls were injured in a two-car collision at 4:10 p.m. Sunday on highway 61 in Benton.

The highway patrol said a car driven by Lena Legrand, 51, Benton, pulled out from a side street into the path of a car driven by Harriet Swinger, 18, Benton.

Injured were Miss Swinger, cuts and a bump on the head, and Betty Stuckey, 18, Benton, a passenger in her car, cut lip and mouth. Both were taken to a Cape Girardeau hospital.

Mrs. Legrand was charged with careless and reckless driving and with failure to yield the right of way.

James Baker, 21, Sikeston, sustained cuts and bruises when he fell asleep while driving on highway 62 in Miner Sunday at 1:45 a.m. troopers said.

His car went off the road and overturned. He was taken to the Sikeston hospital.

Jewell Woods, 23, Anniston, the driver, sustained a cut lip and chin in a one-car accident four miles north of East Prairie on a blacktop road at 12:30 a.m. Sunday.

The driver lost control of the car, which went into a ditch and struck a utility pole, troopers said. The driver, who was taken to the Sikeston hospital, was charged with careless and reckless driving.

Snider Outlines Seven-Stage Plan for Building Interstate 55

CAPE GIRARDEAU -- The 67.5 miles of Interstate 55 from Fruitland north to Festus will be constructed in seven stages, Chief Engineer M. J. Snider of the state highway department told the Chamber of Commerce today.

He also said that proposed relocation of Missouri route 74 from Blomeyer east to Interstate 55 in the Cape Girardeau area would depend on whether land is furnished for the new highway without cost to the state.

Snider also discussed the long range state highway needs.

The engineer stressed the word "tentative" in describing the timetable for constructing Interstate 55 citing rising costs, the availability of federal funds and difficulty of obtaining right - of - way as factors which could produce delay.

The timetable recently was advanced by a year.

"It is incorrect to assume that all of the Fruitland - Festus section of Interstate 55 will be completed in 1971," Snider said. "Tentative plans are to have all of the route under contract by that time but completion of the entire segment will not be until after that.

"There will be seven separate projects involved in building the 67.5 miles of Interstate 55 from Fruitland to Festus, and they will be located in four counties -- Cape Girardeau, Perry, Ste. Genevieve and Jefferson," he said.

"These projects have been so scheduled so motorists will be able to utilize each one as it is completed because of their tie - ins with existing state highways.

"The total cost of the 67.5 miles is estimated at $51,052,000, which includes preliminary engineering, right of way acquisition and actual construction.

"Now let's look at the tentative schedule - project by project and county by county -- for building this portion of Interstate 55. I will start on the south and work north with my explanation. Official 1967 Missouri state highway maps have been distributed to you in the event you want to locate the projects for yourselves.

"Cape Girardeau county: There is one project involved in the completion of Interstate 55 in Cape Girardeau County.

"It will extend for 13.1 miles from near Fruitland north to the Cape Girardeau - Perry County line. Right of way for this project now is in the process of being acquired. Our tentative schedule calls for awarding the project to contract for construction in fiscal year 1971, which is the period from July 1, 1970, through June 30, 1971.

"Perry County: Two projects will carry Interstate 55 entirely across Perry County.

The first is 11.1 miles along, extending from the Perry - Cape Girardeau County line north to just north of Missouri Route 51 at Perryville.

The second is 9.3 miles long and goes from north of Mis-

POOR CHARLIE SAYS!

AUTOMATION - PLEASE DON'T BEAT THE STOCKING FRAMES

When machines were first introduced in England in the 18th century, workers often rioted and destroyed the machines, believing they would put them out of work.

In the stocking industry 1,000 stocking frames were destroyed in a single riot, but, by the end of the 19th century, workers employed in the stocking industry multiplied a hundred fold.

There were an estimated 7,900 persons employed in the cotton textile industry in England in 1760 when the spinning machinery was invented. Fear of job loss caused hysteria among the textile workers, and armed force was required to overcome opposition to machine installation. Yet, 27 years later, the number of people employed in the cotton textile industry had risen from 7,900 to 320,000.

Mention of such increases usually stimulates the challenge, "It may be true that the invention of machines resulted in more jobs in the past, but things are different now."

Are they?

Just a few years ago, some commercial airline pilots were worried about the use of the jet airliner in airline service. With the increased size and speed of the jet planes, pilots were predicting that far fewer flights, and fewer pilots, would be needed.

What they did not understand was the very thing that worried them most; the increased speed of the jets. Managers of airlines noticed that their big, new jet airliners completed their trips so much more quickly than the older propellor planes that they often sat idle for many hours of each day. Machinery only earns money when it is in use, so airlines began searching for new ways to keep their new jets flying and earning throughout the day.

Until recently, an airplane carried passengers or freight; it couldn't do both. Now, however, the genius of personal enterprise has produced a means whereby, in less than 20 minutes, passenger seats are removed to make room for freight. Conversely, on 20 minutes notice, the seats can be replaced, and the freight carrier is ready to take on passengers.

With this innovation, airlines put aircraft to greater use, and are adding hundreds of pilots to their payrolls.

The airline industry is not unsual in this regard. The telephone industry is another example of automation. In 1940, the Ohio Bell Telephone Company employed 9,894; in 1960, there were 19,795 on the payroll - one which, starting in 1940, grew from $18.4 million to $113 million in 1960. While payrolls were increasing, the rates charged customers decreased almost 50 percent. The number of their customers tripled and the number of long-distance calls quadrupled: another way of saying each employee's ability to produce increased, a feat that can be accomplished by using faster and better equipment.

But. Isn't it possible that in some businesses the use of machines will reduce the need for employees? And wouldn't this cause increasing unemployment? In some instances, the use of machines will reduce the number of jobs, but will not throw men out of work permanently.

First, the new machines that replaced workmen on a job must be made by someone. New jobs come into existence when men are hired to make new machines. The jobs that are done away with by the machines are at least partly offset by the creation of new jobs in making, selling and repairing the new machines. This is why so much emphasis is being placed on manpower retraining.

The manufacturer who buys new machines does so in order to cut costs and increase profits. To the workman concerned about keeping himself employed, these profits are of utmost importance. There are several ways in which the manufacturer's profits will create more jobs. He may enlarge his production by buying more machines, which would require more workmen to operate the machines and to produce them. Such was the case with the airline industry which ordered more jet airlines.

If the manufacturer who realizes profits from the use of new machines decides not to purchase more, he will likely invest his profits in other ventures - creating more jobs.

If other manufacturers see the great gains made by the manufacturer who installed new machinery, will they buy the same machinery, thus forcing down prices and profit? Wouldn't this cause a reduction in the number of jobs? Except for a couple of things, it could.

Lower prices will affect customers in one or two ways: they will buy more - perhaps increasing jobs; or, the money saved as a result of lower prices can be spent on other things, maintaining the number of jobs or increasing them.

Seen from any standpoint, the fear that machines and automation will throw men out of work permanently is groundless. Automation has been increasing steadily for more than 200 years. If this did cause unemployment, by now there would be no jobs.

The world population today is 6.5 times as large as it was in the early 18th century when machines first came to use. Machines and automation have made possible the production of enough necessities of life to support this increase in population.

In underdeveloped nations with little or no machinery, everyone works hard, and this backbreaking labor barely keeps them alive. The purpose of automation is to increase production; not only has it accomplished this purpose, it has reduced the physical effort required of man.

Multiple sclerosis is called the "great cripler of young adults." It is a long term disease of the brain and spinal cord in which nerve messages are blocked or scrambled. It usually strikes between the ages of 20 and 40. An estimated 500,000 Americans are afflicted with MS and related diseases.

It is a community problem because of its impact on productive young adults. It is estimated that the disease creates a $2 billion annual loss to business. Two out of every three victims of the disease are from the work force. Trained personnel are disabled in their peak years. The business community feels its impact by the loss of buying power of some 2,000,000 people - the patients and their families.

MS also causes a heavy tax burden for business due to the need for public support of MS families who have lost their wage earner and must bear the cost of life-long care.

The National Multiple Sclerosis Society is currently conducting its annual Hope Chest campaign, and it needs our help, yours and mine, private citizens and business corporations, alike. The cause and cure for MS remain unknown. But the Society's research program is delving into the mysteries of MS in leading medical centers both here and abroad Somewhere the answer will be found.

Our community, we are sure, will respond to the appeal by the Scott County Chapter of the Society as we do to all good causes. Saving the future young adults of Sikeston from the misery of multiple sclerosis is a good cause.

Persons over 30 should not drive cars equipped with fully tinted windshields, says Dr. Merrill Allen of the Indiana University Division of Optometry. The tint cuts after-dark visibility of areas illuminated by headlights by 25 per cent, and reduces the possibility of seeing brake lights on other cars by 60 per cent. These effects are especially serious for persons over 30, who usually suffer from worsening vision.

Did you know the Canadians have the distinction of being the people who do the most talking on the telephone? In 1966 they averaged 635.6 conversations per person, as against 620 per person by people in the United States. . . There were 8.1 million telephone calls between the United States and overseas points during the year 1966. Direct overseas dialing on a regular basis between points in the United States and Europe is expected to begin in 1970 . . . Sometime during the year 1966 the world's 200 millionth telephone went into service, with 93.7 million being used in the United States, 14 million in Japan, 10.7 million in Britain, 8.8 million in West Germany, 7.9 in Russia and 7.5 million in Canada.

One cold winter's day a lady midget hobbled into a doctor's office. After waiting her turn for an hour, she finally got in to see the doctor and reported that she was suffering from a severe irritation between the legs.

"Is the pain a constant one?" asked the doctor.

"No," she said, "I notice it mostly when I go out on cold snowy days."

"Well, sit up on this table and let's examine you," said the doctor.

He instructed her to lift her skirt, whereupon he studied the situation, then produced a pair of medical shears from among his instruments. While she waited fearfully, he began snipping.

"Aren't you going to use an anesthetic?" she asked. "That won't be necessary," he reassured her. "All right," he said at last, "get down from the table and try walking now."

She did so, and reported amazed. "Why I feel wonderful. What did you do?" It was simple" said the medic. "I just cut 2 inches off the top of your galoshes."

COMPOUNDING CONFUSION

If nothing else, the two year, $2.5 million study of the food industry conducted by the National Commission on Food Marketing will go down in history as one of the most bewildering investigatory performances ever to appear on the public scene. Many of its conclusions are based on the erroneous premise that there is undue and growing concentration in the food marketing industry and that competition is not an effective regulator.

On these subjects, the minority report of the Commission says, in regard to the ease of entry into the food retailing business, "It is one of the most dramatic features of the industry. Entry into the market is not encumbered by any potential technology, secret know-how, up in 1959 with an investment of $21,000 and wound up 6 years later with 30 stores doing nearly $115 million in annual sales. As to the degree of concentration, the top food chains accounted for 18.4 per cent of total food store sales in 1963, the latest year available, down from 19.3 per cent in 1958.

At a time when there is great need for wide public understanding of the American competitive economic system, the work of the Food Marketing Commission appears to have merely compounded confusion and misunderstanding. As an official of a large food chain store asserts, "We are disappointed at the failure of the Commission to tell us what we think we deserve to hear about our industry. We believe that the record calls for a more favorable continued scrutiny. And so will it ever be because the efficient and responsible performance of our industry is vital to our country."

Washington Merry - Go · Round

By Drew Pearson

WASHINGTON -- It's now learned that the drug industry hired a detective to shadow a senate witness who's testifying today (May 15). The witness is William Haddad, former crack reporter for the New York Post and son - in - law of John Hay Whitney, owner of the now defunct New York Herald Tribune.

Haddad was retained as an investigator by the late Sen. Estes Kefauver into the rigged high prices of drugs and is testifying currently in the probe of Sen. Gaylord Nelson, D-Wis.

Haddad's investigation took him to Latin America, where he uncovered confidential company documents, many with "Destroy This" written across the bottom, proving that an international cartel was deliberately keeping drug prices high.

He also conducted surveys in this country showing that drugs could be bought under their generic names for only a small fraction of the price charged for the identical drugs purchased under their trade names.

These pricing policies have kept vitally needed drugs from the sick and suffering who couldn't afford them.

When Haddad went into business for himself as a political consultant, he was hired by Miami's Mayor Robert High to help run his successful primary campaign for the Democratic gubernatorial nomination.

Suddenly, a detective appeared in town to see Dan Sullivan, head of the Miami Crime Commission. The investigator brought along excerpts from Haddad's FBI charging that he was a Communist and had operated Communist youth camps in St. Petersburg, Fla.

What the excerpts did not say was that these charges came from crank letters, and had been completely disproved.

Actually Haddad, who served as an associate director of both the peace corps and war on poverty program, held the highest clearances in the federal government. And the FBI found there had never been a Communist youth camp in Florida.

Dan Sullivan, however, passed the information to Mayor High, and the detective then called on the mayor himself. During this interview, the private eye confided that he had been hired by a New York detective agency to gather dirt on Haddad. The agency, by an interesting coincidence, had done work for the drug industry.

WHO LIED,

MEANY OR PEARSON?

After this column revealed last February that central intelligence had been pumping money into the AFL - CIO to influence foreign labor unions, President George Meany was questioned on this subject by newspapermen in Florida, where the AFL-CIO executive council was meeting.

"Do you have any knowledge at all of any AFL - CIO affiliates having received funds directly or indirectly from the CIA?" Meany was asked.

"None whatsoever," he replied.

"What about the charge made by Drew Pearson in this morning's paper that two AFL-CIO officials, Jay Lovestone and Irving Brown, have been channeling CIA money to foreign--."

"I think that's about on a par with the stuff that Drew generally writes," Meany interrupted. "Drew is a liar by choice, and you can put that in quotes. The truth is not in him, and I pay no attention to any statement he makes."

Last week, Thomas Braden, former high executive of central intelligence, revealed in detail in the Saturday Evening Post how he had channeled CIA money to both the AFL and CIO.

Walter Reuther promptly admitted he had received money from Braden.

The public can decide for itself, despite Meany's continued denials, who is the liar.

GLEEFUL EV DIRKSEN

An amazing paradox on Capitol Hill is the fact that elder statesman Sen. Ev Dirksen, the Republican leader, is still pushing for a constitutional convention to reverse the supreme court on the reapportionment of state legislatures.

Yet, at the same time, most states which have reapportioned their legislatures are delighted over the supreme court ruling and find state government more responsive and more efficient.

This is particularly so in Dirksen's home state, Illinois, where the Chicago suburbs, hitherto with little representation in the legislature as against downstate rural areas, now have a real voice. Since the suburbs are largely Republican, this should be a plus for the gnarled senior senator from Illinois.

However, he doesn't regard it that way. One explanation may by that Ev still has an ear for the mating call of the Springfield lobbyists. In the days before the Illinois legislature was reapportioned, a handful of lobbyists could control the entire legislature. All they had to do was to subsidize enough downstate rural legislators. Today it's different.

Could it be that Ev is more interested in his lucrative Peoria law firm than in the strength of the Republican party in Springfield?

Note: Never before in the 180 - year history of the United States has a constitutional convention been held. But Dirksen is gleeful over the fact that he is now within two states of getting such a meeting.

TROUBLE WITH NASSER

Secretary of State Rusk has authorized the American Embassy in Yemen to close down if the Yemen government does not honor the diplomatic status of our embassy personnel. Two aid officials have been arrested by the government on charges of sabotage.

Yemeni officials, influenced by the Egyptians who hold the real power in Yemen, have also inspired anti - American demonstrations and insults.

Doc. Duncan Says

Gramp, I got a crow to pick wid you. O.K. shoot.

Them officeholders you been snipin at in the papers belongs to your church.

So what? If a man turns hipocrit and violates his oath and obligation then he deserves more damnation if he wuz raised in your town, county or state, belonged to your church, club, lodge or party.

You see, he's betrayed your confidence. You see, you wouldn't voted fur him if you'd knowed he waz that kind.

* * *

H. L. Hunt Says

IT'S OUR FLAG

Not long ago an American Flag was publicly burned in New York City during a so-called peace march. More recently, a professor at a college in Indiana burned a Flag before his students. Pictures have appeared in newspapers and on television screens showing individuals kicking or otherwise desecrating the United States Flag.

The vast majority of Americans undoubtedly are shocked and saddened, disgusted and angered by these incidents. Most will agree wholeheartedly thst such incidents must not be allowed to continue. The American Flag is the symbol of our Republic. It is deserving of great respect by all who call themselves Americans.

Our nation rightly is proud that the Constitution lays down the right of free speech and free assembly. These are among the rights characterized as inalienable by the Founders of Freedom in the United States. But these rights do not include the right of anyone to desecrate our National Banner.

At present there is, strangely enough, no national law providing punishment for the offense. That lack can be remedied. A number of Congressmen have introduced legislation to protect the Flag. Committee hearings on these bills will be held in the near future. It is to be hoped that the committee will report favorably on a measure to provide fitting punishment for those who desecrate the Stars and Stripes -- and that favorable action by the Whole Congress will follow shortly. Any American has a right to disagree with a government policy. No American has a right to trample upon or otherwise profane the Flag of the United States. HLH.

Inside Labor

By Victor Riesel

Teamsters' Junta Sends Word to Imprisoned Hoffa He's Through; New Convention Will Elect New Leaders.

Washington, D. C.: -- It's the last mile for Jimmy Hoffa. He's had his final excursion, lots of fresh air, a 1,450 mile round-trip auto ride -- and the grapevine's word from a junta of Teamsters' leaders that he is finished as a power in the Teamsters.

Back in prison, he can mend mattresses but not fences. The message was cold and absolute. Even his caretaker government in the Teamsters Brotherhood under Frank (Fitz) Fitzsimmons is finished. It will last only as an administering operation until a special convention is called. The junta is working on that. It will be called within a year.

The old order has changed. And not because "Fitz" fumbled the spread - eagle, intricate trucking negotiations. Those of us who have microscoped the new pact know that it calls for almost 100 per cent more than Hoffa won during the last go round in '64. At that time the general president got a 41.5 cent raise over three years.

Now with a cost of living increase of any size, the agreement can bring as much as 78 cents an hour more - at least by a conservative projection. Of course, most of this will be passed on to the shippers and then to we, the people.

So Fitz has delivered as the Acting General President. At his side were many of the Teamsters vice presidents--but not the "egg - head" Harold Gibbons who, as recently as two weeks ago, was publicly defending his former chief.

There were reports that the junta told off "Fitz" during the recent high command session in Chicago. Not so. They told off Hoffa. They quietly told Fitz that they had told their regional and local people to start going through regional council leaders and local union officials -- and not to lift a phone and call national headquarters for a muscled hand and a swift call from the national President. Those days are over.

But it was Hoffa, not Fitz who was the target. The acting president truly is the junta's prisoner. They can remove him when they wish. But not yet. There's a power vacuum in the national marble palace. However, there is no need yet for an empty chair. For the moment, it was important to let Hoffa know he must stop dreaming of running the union from prison or of ever returning to it.

There are enough anti - Hoffa votes now on the General Executive Board to call a special convention. It's all spelled out in the new construction which few have bothered to read. Article 9, Section 8 states that a special convention may be called when two - thirds of the board deem it necessary. Well, they now deem it vital. The board can set the rules for the special convention -- which "shall have the power to change any provision of the Constitution except the provision dealing with the terms of office for officers . . . and the provision dealing with salaries and expenses of officers."

This simply means that the special convention can do anything regardless of what the constitution says except change the length of the terms of national officers from five years and the salaries, for example, of the president ($100,000 annually) and the secretary-treasurer ($75,000).

Thus two - thirds of the board -- nine members by a legal count now that Hoffa is in for the duration -- can revamp the entire Teamsters structure and elect new officers.

But who shall they be? Who are in the three - man junta which now is the governing force? Insiders say they are the quiet man, Einar Mohn, head of the Western Conference; Murray (Dusty) Miller of Dallas and Tom Flynn of Washington.

Insiders say that Mohn, a member of the California Board of Regents, can have the presidency if he wants it. And Tom Flynn can step into the secretary - treasuryship now occupied by the teertering octogenarian, Johnny English.

It's now a matter of the 60-year - old Mohn -- who actually ran the Teamsters under Dave Beck -- deciding whether he wants to move back to this churning capital he dislikes.

On his decision hangs national and international history and headlines. Mohn is acceptable to George Meany and the rest of the AFL - CIO's high command. So is Meany's old friend, Tom Flynn, head of the Eastern Conference. Meany has conferred with both men over the years. This means that the Teamsters' 1.8 million members could well be inside the AFL - CIO by the federation's December 1967 convention in Florida, but certainly by the 1969 biennial convention if Mohn and Flynn become the Teamsters' leadership team. That would make a powerful coalition of virtually 16 million members. What difference then to the federation if Walter Reuther pulls out.

Return of the massive prodigal would give the AFL-CIO enormous organizing strength and considerable funds for national and world- wide action.

Soon, indeed, Hoffa will be just a forgotten serial number. The rumble of new labor history will obliterate his last mile.

Miss Suzanne Bowling

Miss Suzanne Bowling to Wed David Reeves July 15

Mrs. Aladine Bowling announces the engagement and forthcoming marriage of her daughter, Suzanne, to David Reeves, son of Mr. and Mrs. Marshall Reeves of Charleston.

Miss Bowling, a 1961 graduate of Sikeston high school, obtained a bachelor of science degree in education from Memphis State University, in 1965. She is teaching first grade at Lee Hunter elementary school.

Reeves is a 1963 graduate of Charleston high school and attended Southeast Missouri State College in Cape Girardeau. He is associated in business with his father in Charleston.

Plans are being made for a July 15 wedding.

Prayer Is Response to God; Submission to Will

By GEORGE W. CORNELL
AP Religion Writer

A refugee child, placed in an American foster home, had her first experience with prayer. As the story goes, she described the family devotions as "talking to someone who isn't there."

Obviously, it seemed to her a strange procedure, and even among the religiously versed, there have been recurring questions about the ways and workings of prayer.

"Teach us to pray," the apostles asked Jesus in the beginnings of Christianity.

And believers ever since have approached the discipline of personal prayer variously —in confidence or uncertainty, in regularity or hardly at all, as an intimate compass to life, or a mere external formality.

Nowadays "prayer for many is like a foreign land," says the Rev. Dr. Robert McAfee Brown, a Presbyterian theologian. "When we go there, we go as tourists. Like most tourists, we feel uncomfortable and out of place."

Catholic philosopher Michael Novak, writing in the weekly, Commonwealth, says it is astonishing "how many Christians no longer pray," as if God no longer was available in private devotions.

Novak says that one of the troubles is that many Christians "have scarcely progressed beyond the habits of childhood" in regard to prayer.

They "think that prayer means asking for things, for good weather, to find lost objects, to obtain peace of mind, to make an important sale. The mode is 'gimme'. The implicit world view is magical."

But as he and many Christian scholars emphasize, prayer basically involves an attitude of responsiveness to God, of concentration on openness to His will, whatever it may be, which is what a person needs, even though he doesn't know it.

"Prayer is response to God," says the Rev. Dr. John B. Coburn, dean of the Episcopal Theological Seminary, Cambridge, Mass.

It is all right, he says, "to begin by asking God to help us in any way we see fit," but in genuinely receptive prayer, "we end by asking God to help us as He sees fit, and to meet our needs, not as we see them, but as He sees them."

That was the example set by the Virgin Mary at the annunciation, "Thy will be done," and by Christ before His crucifixion, "Not My will, but Thine, be done."

Ultimately, "You are using God when you pray for your own ends," writes noted Protestant theologian Reinhold Niebuhr.

Prayer, he adds, should not be for "trivial ends" but for "integrity, courage, wisdom."

Through the ages, church scholars have often pictured the totality of living, and sensitivity to it, as a continuous prayer, or effort to attune onself to full reality." Pray without ceasing," St. Paul advised.

As Martin Luther, the 16th Century Protestant reformer put it, "Faith is nothing but pure prayer."

Catholic Novak says that for the adult Christian, prayer is "fundamentally an orientation of the will" in search for reconciliation with the "real world" of dynamic change in which God's will is an unknown "X".

It is, he adds, an "attitude of radical openness" to that ever unfolding reality.

"The effect of prayer is not that it binds God to something," he adds. "God is not our servant boy, to be summoned and given orders. The effect of prayer is to change ourselves.

"It is to make us more alert to the subtle nuances of human relations, to the actual course of daily events around us, to the possibilities for creativity and brotherhood to which we might have been blind.

"The reason for praying is to become more realistic, more open, more discerning. Reality makes many demands upon us; the purpose of prayer is to open our eyes and ears to the fullness of the real world in which we live."

There are various types of prayer — adoration of God, thanksgiving, confession of wrongs, intercession for others, petito for guidance, and all of them intertwine to some extent in most prayers.

Dr. Coburn, in a book, "Prayer and Personal Religion," offers some specific suggestions for developing a mature personal prayer life. Most of the practical methods also have been commended by other Christians in history.

Among them:

Pray each day at the same time.

Have a regular place of prayer.

The posture you assume, standing, kneeling, sitting, or lying down, makes no difference, except as it aids your own concentration.

Prepare for prayer with a brief period of devotional reading.

Pray as long as you need or want to — no longer.

Pray whether you "feel like it" or not.

The Rev. Dr. Daniel D. Williams of Union Theological Seminary, says that in prayer, "God himself ventures with us into a future where His decisions take account of our actions.

"It is not a question that prayer will change God's mind or His intention. That is surely a naive view of the matter. Rather it is the discovery in prayer that the soul and God are joined in personal freedom and God has given us the dignity of decision."

Meal Planning Helps Insure Balanced Diet

By Mrs. Mattie E. Aslin
Extension Home Economist
University Extension Center

KENNETT - The Neighborhood Service Center Aides in New Madrid, Pemiscot, and Dunklin counties have been studying meal planning, comparison of brand labels of canned fruits, meats, and fish in a series of three classes. The recommended daily dietary allowances for individuals in protein, calcium, iron, vitamin A, and ascorbic acid (vitamin C) were referred to in checking diets. Forty-eight aides and Head-Start cooks attended the sessions last week.

The aides studied the preparation of deep-yellow and dark-green vegetables. These two classes of vegetables rate high in carotenes precursors of vitamin A. This vitamin may be stored in the body. The carotenes are converted into vitamin A.

Citrus fruits, tomatoes, fresh strawberries, and cabbage are among the many foods valuable for their content of ascorbic acid or better known as vitamin C. Fresh green cabbage and bell peppers contain considerable amounts of vitamin C.

The way the food is prepared depends on the retention of all food nutrients. Serving the food immediately after preparation; whether it is a raw vegetable or cooked one will mean more retension of vitamin C. Using a small amount of water and rapid cooking of vegetables are other principles to be observed.

The dark-green leafy vegetables are notable sources of iron, and calcium. These minerals are not uniformly distributed in the different parts of the plant. Calcium in the outside green leaves of the plant is three to five times higher than in the pale inner part of lettuce. Leaf lettuce has more vitamin A value than the varieties that have pale-green heads. Carrots are a rich source of vitamin A or carotene.

The aides found in checking the No. 72 "Nutritive Values of Foods" that many of the in season summer foods as cantalope, watermelon, strawberries, and sweet potatoes yield appreciable amount of vitamin C.

Liver, unlike muscle meat, is an excellent source of vitamin C and vitamin A. The lean meats and glandular organs supply iron for hemoglobin which is often found low in the disadvantaged family's diet.

Dry beans and peas are good sources of vitamin B and fair sources of protein. When these foods are used as main dishes; it is important to also serve some animal protein in the meals in form of cheese, milk beverage or perhaps a milk dessert.

Piano Pupils Present Recital

Mrs. Helen Loud Jones presented her piano pupils in a recital Sunday at the First Methodist church.

Pupils participating were Fred Baugher, Becky Barnes, Harry Campbell, Janie Campbell, La Rue Campbell, Delores Coots, Cyndy Cox, Leslie Cox, Donald Davidson, Marsha Dement, Susan Dement.

Paula Doyle, Nancy Forbis, Linda Hale, Robyn Hale, Julie Harbin, Jan Hitt, Elizabeth Horner, John Horner, Patricia Huff, Mike Jacob, Tom Jacob, Ann Launius, Dennis Sprague, Jami Ward and Russell Wissman.

Saturday the pupils had a rehearsal at the library and then went home with Mrs. Jones for a picnic lunch.

Mrs. Jones will close her class for the summer and will leave Friday for Paris, France, where she will meet her son and family and they will tour France, Spain and Portugal before returning to the states in July.

Keith Landers Marks Fifth Birthday

Keith Landers celebrated his fifth birthday at the Kiddieland nursery school Tuesday. He is the son of Mr. and Mrs. Bob Landers, 812 Agnes St.

The birthday cake was orange and topped with candles, Keith's name and age. He blew out candles while his playmates sang "Happy Birthday." Favors were balloons and candy.

Attending were his brother, Kevin, Tommy Wood, Douglas Schindelar, Karen Malone, Greg Stanberry, Russell and Paul Murphy, Cindy Martin, Cindy Lawrence, Paula and Sandra Reid.

Mickey Wagoner, Gary and Carol Clayton, Timmie Fodge, Tammy Davis, Lavonne Ann Downey, Charlita Gilbertson, Allen Berry and Chip and Dewayne Taylor.

Gentrys to Mark 60th Anniversary

CHARLESTON -- Mr. and Mrs. James R. Gentry will observe their 60th wedding anniversary Tuesday.

Both are in poor health, and ask that they not have visitors to observe the occasion.

Mr. and Mrs. Gentry were both born in Indiana -- he in 1878, and she, the former Bertha Shell, in 1883. They have five children, Mrs. Curtis O'Neal, Harry, Sheldon, Roland, and Gerald Gentry.

Representative Basil L. Whitener of North Carolina tells of the hotel clerk who was losing his patience. "Look," he said, "I've told you a dozen times, we have no rooms. We're full."

"If President Johnson came," the man persisted, "you'd have room for him, wouldn't you?"

"Why, of course," the clerk admitted.

"Then let me have his room. He's not coming."

USE THE DAILY STANDARD CLASSIFIED ADS

MRS. W. B. RAGSDALE of Charleston, seated, is the only living charter member of Chapter CV of the PEO sisterhood. Her mother, Mrs. E. P. Deal, shown in photograph Mrs. Ragsdale is holding, was also a chapter member. Mrs. Ragsdale's daughter, Mrs. Frank Bihr, standing right, and granddaughter, Miss Dorothy Bihr, are also members of the chapter. The PEO chapter celebrated its 50th anniversary May 5.

ANOTHER THREE generation PEO family in Charleston is Mrs. John Deal, seated; her daughter, Mrs. Harvey Drake, standing right, and Mrs. Deal's granddaughter, Mrs. William McNeary.

Miss Judy Garner Is Bride of Billy Brashers

FERGUSON -- Mr. and Mrs. Keith Garner of 59 North Harvey, announce the marriage of their daughter, the former Miss Judy Garner, to Army Private Billy M. Brashers, who is stationed in South Vietnam. Pvt. Brashers is the son of Mr. and Mrs. Billy Brashers Jr., of South Street, Charleston.

The wedding was solemnized April 22 at the Ferguson Baptist church.

For her wedding the bride chose a street - length white crepe sheath dress with long sleeves and wore a fingertip veil of illusion. Her bouquet was a nosegay of white roses with white satin streamers. She was given in marriage by her father.

Her maid of honor was Miss Judy Williams, a cousin of the bridgroom. Pvt. Brashers' only attendant was his brother, Terry.

The mother of the bride wore a blue two - piece dress with white accessories and a blue carnation corsage. The groom's mother wore a dark brown lace dress with a corsage of yellow carnations.

After a reception in the church basement, the newlyweds left for a four - day trip before Pvt. Brashers left for Vietnam.

The new Mrs. Brashers is employed by the law firm of Alexander and Alexander in St. Louis. A 1966 graduate of McCluer high school, she is living with her parents while her husband is stationed overseas.

Pvt. Brashers is a 1965 graduate of Charleston high school, and attended Southeast Missouri State College, Cape Girardeau for one year before enlisting in the army.

My wife has a funny way of getting even with the telephone company. She uses my car to knock down its poles.

James Sherman.

Miss Burkett Is Engaged

CHARLESTON - Mr. and Mrs. Ira Burkett announce the engagement of their daughter, Miss Brenda Kay Burkett to Harvey Lee Cooper Jr., son of Mr. and Mrs. Cooper of Pine Bluff, Ark.

Miss Burkett will be graduated from Charleston high school with the class of 1967. Cooper, a 1966 graduate of Charleston high school, is in the navy. He left Saturday for Lakehurst, N.J., for 19 weeks of training.

Plans are being made for an October wedding.

Judith Wilfong Will Marry Frank Rayburn

ADVANCE - Mr. and Mrs. Lloyd Wilfong have announced the engagement of their daughter, Miss Judith Ann Wilfong, to Frank M. Rayburn Jr., son of Mr. and Mrs. Frank M. Rayburn, Cape Girardeau.

Miss Wilfong, a 1966 graduate of Advance high school, is employed by the First National Bank of Cape Girardeau.

Rayburn, a 1961 graduate of Central high school at Cape Girardeau, attended Southeast Missouri State College there for two years. He is employed by Howard's Athletic Goods Co., there.

Wedding plans are being made for July 29.

Circle Observe Spiritual Birthdays

The JOY and Lewis - Inman circles of the Woman's Missionary Society of the Tanner Street Church of God met Thursday night with Mrs. Jack Lopp.

The business meeting was conducted by the president, Mrs. Horace Byrd. Mrs. Andy Hill gave the opening prayer.

Officers gave their reports. Mrs. O. C. Lewis and Mrs. Mac McGahey, who attended the Southeast Missouri district tally in Lutesville and the state rally in St. James, reported.

The proposed budget for 1967 - 68 was presented and accepted.

Mrs. Lewis and Mrs. Merl Keefer gave the program on "Beauty in the Home" and "What Is a Home."

The highlight of the meeting was the observance of spiritual birthdays. Mrs. Gene Johnson was in charge. An offering was collected. This offering is an item in the national society budget and is given by members as a response to God in thanksgiving for their experiences in religion and other spiritual blessings.

Others present were Mrs. Bill Porter, Mrs. Bill Pruitt, Mrs. Ava Allen, Mrs. Paul Joe Witt, Mrs. Donald Lewis, Mrs. Tom Sims, Mrs. Lloyd Treece, Mrs. Kenneth Bailey and Mrs. Calera Lopp.

LOCAL BRIEFS

T/Sgt. and Mrs. Billy E. Johnson and Kim arrived last week from Gunter air force base, Ala., to spend two weeks with her mother, Mrs. Addie Champion, and his parents, Mr. and Mrs. Roy Johnson.

Miss Carol Miller

Miss Martha Bess

Miss Bess, Miss Miller Honored at College

COLUMBIA - Two Sikeston residents, Miss Martha Bess, daughter of Mr. and Mrs. William W. Bess, 202 West Wakefield, and Miss Carol Ann Miller, daughter of Mr. and Mrs. Beatty P. Miller, 706 Courtney Dr., have been named to the dean's list for outstanding academic achievement during the spring semester at Christian College, two-year college for women.

Miss Bess, a first-year student at Christian, and Miss Miller, a second-year student, were honored at the college's semi-annual honors assembly Thursday. Students must have a grade average of B or higher in all academic course work to be included on the dean's list.

In addition to being honored for her scholastic achievements, Miss Miller, editor of the college newspaper, was honored for her newspaper work. During Journalism Week at the University of Missouri, Miss Miller received awards for "best editorial" and "best editorial writer" for class D (small junior colleges) newspapers in Missouri.

Miss Miller was employed as feature editor of the Sikeston Daily Standard last summer.

Sue Coburn Plans Vows With Larry Wallace

ELGIN, Ill. -- The engagement of Constance Sue Coburn to Larry James Wallace, son of Mr. and Mrs. Lonnie Wallace of Charleston, Mo., is announced by her parents, Mr. and Mrs. R. G. Coburn. The wedding date set is June 2.

Miss Coburn, a sophomore at Lindenwood College in St. Charles, is employed as a medical records secretary. Wallace is a senior at the University of Missouri at Rolla.

The wedding will be solemnized at the Episcopal Church in Elgin.

NO FRILL TIME

A vice-president of one of the larger advertising agencies has told merchants that when the going gets tough, cut out the direct mail, the billboards, radio and TV. These are the frills of a business while newspaper advertising is the necessity.

BIRTHS

SCHOTT

Mr. and Mrs. Leo Schott of Oran are the parents of a son born Friday in the Missouri Delta Community hospital.

MARTIN

Mr. and Mrs. Vernon Martin are the parents of a daughter born Friday in the Missouri Delta Community hospital.

THE EXECUTIVE STAFF AND EMPLOYEES OF ANCHOR TOY CORPORATION EXPRESS THEIR DEEPEST SYMPATHY TO THE FAMILY OF MR. CHARLES S. RAIZEN, FOUNDER AND CHAIRMAN OF THE BOARD, WHO PASSED AWAY ON MAY 13, 1967.

AS A TOKEN OF RESPECT, THE OFFICE AND PLANT OF THE COMPANY WILL BE CLOSED ON TUESDAY, MAY 16, 1967.

Sox Push Wins to 10

Associated Press Sports Writer

Mickey Mantle, whose 10-day ordeal has ended with a loud crash, is breathing easy again.

Eddie Stanky, whose 10-game joyride goes on without a wallop, is holding his breath.

"I'm glad it's over . . . it's a relief," Mantle said Sunday after blasting the 500th home run of his illustrious major league career to lift the New York Yankees past the Baltimore Orioles 6-5.

"I have never seen a club go this far on pitching alone," Manager Stanky said after his light-hitting Chicago White Sox ran their winning string to 10 games and swept into the American League lead with 4-2 and 3-1 victories over the California Angels.

Mantle, who hit his 499th homer on May 3 at Minnesota, struggled through seven homerless games before unloading No. 500 against Stu Miller in the seventh inning Sunday and becoming the sixth player in history to reach the half - century mark.

"It's like winning the last game of a World Series," said the 17-year New York veteran, whose drive into the right field seats at Yankee Stadium admitted him to the exclusive circle that also includes Babe Ruth, Willie Mays, Jimmy Foxx, Ted Williams and Mel Ott.

Reminded by newsmen that the next milestone is Ott's career mark of 511 homers, Mantle shook his head. "511?" he snorted. "You mean you guys are going to start that now?"

"My next goal is 11," Stanky was saying in Chicago after Gary Peters completed the White Sox' sweep by tossing the eighth one-hitter in the majors this spring.

The double victory, coupled with Boston's 8-5, 13-9 doubleheader sweep over Detroit, sent the White Sox into first place — 1½ games ahead of the Tigers.

Elsewhere in the American League, Kansas City topped Minnesota 4-2 and Cleveland edged Washington 2-1 in a rain-curtailed five-inning game.

Mantle's homer gave New York a 6-4 lead after Joe Pepitone's two-run pinch-hit blast in the sixth wiped out a 4-3 deficit.

The Orioles closed the gap in the eighth when Mantle, still dazed by the roaring ovation given him by 18,872 Stadium fans, dropped a throw at first base and then fired wildly past the plate, enabling Frank Robinson to score.

"I was in a fog," he said. "It sure would have been pretty tough to hit the homer, then make an error that lost the game."

Peters stymied the Angels after yielding a second-inning homer by ex-teammate Bill Skowron. It was the left-hander's fourth straight victory after an opening loss.

Tommy John and reliever Bob Locker combined for a five-hitter in the first game and Ken Berry's third hit — a two-run single in the seventh — gave the White Sox their winning margin.

The Chicago pitching staff has given up only 13 runs during the 10-game streak.

"There have been times when the pitchers carry you for four or five games," Stanky said. "But then the team will come up with some hitting to keep the streak alive. It's been all pitching for us."

Rico Petrocelli, who drove in five runs, and Carl Yastrzemski each rapped two homers in leading the Red Sox to their sweep over Detroit.

The two clubs set an American League record of 28 extra base hits in the doubleheader, with Boston accounting for 16. Willie Horton hit two homers in the nightcap for Detroit, which had won seven in a row.

Kansas City struck for four runs in the first inning — two on Mike Hershberger's double — and took their third straight from the Twins behind the strong pitching of Chuck Dobson and Jack Aker.

Cleveland's Sonny Siebert pitched a two-hitter, setting the Senators down in order until the fifth, when Frank Howard homered and Dick Nen beat out an infield single. Joe Azcue homered for the Indians, who swept the three - game set.

MARIO ANDRETTI, of Nazareth, Pa., driving a Brawner - Ford, qualified for the Indianapolis 500-Mile Race with a tremendous 10-mile run of 168.982 miles an hour. A record crowd of 200,000 persons saw rookie speedway driver Ralph Liguori (above), of Tampa, Fla., lose control of his car, hit a wall, knocking off a wheel, and walk away unhurt.

Reds Ride Teen-Ager's 1-0 Shutout to Twinbill Sweep

By HAL BOCK

Life gets easier all the time for young Gary Nolan, who was battling high school hitters in Oroville, Calif. a year ago.

Now, all he has to worry about are Willie Mays, Roberto Clemente and the rest of the National League.

"I was hit harder in high school than I have been so far this year," grinned Nolan after his five-hitter had blanked Philadelphia 1-0 and given Cincinnati a sweep of Sunday's doubleheader.

The Reds won the opener 2-1 on Vada Pinson's eighth-inning homer and the four-hit pitching of Jim Maloney and Ted Abernathy.

Nolan is the precocious 18-year-old right-hander who came to the Cincinnati camp as a non-roster player and won a regular job. He is 3-1 with a 2.12 earned run average and the poise of a man twice his age.

"I don't get nervous because when I came to the Reds I felt I could pitch big league ball," Nolan said.

"I love what I've seen of him," said Dave Bristol, the Reds' manager. "No kicking, no tugging, no pulling. He just goes to work and puts the ball over with something on it."

Nolan had plenty on it against the Phillies. He struck out eight and now has fanned 48 in 46 2-3 innings. The shutout was his first in organized ball.

The youngster's confidence may come from the fact that he was the Reds' first choice in the free agent draft last June. A $65,000 bonus never hurt anybody's confidence.

Nolan was 7-3 with 163 strikeouts in 104 innings at Sioux Falls of the Northern League after signing last year. He was still on the Sioux Falls roster this spring but not for long.

In other National League games Sunday, San Francisco swept a doubleheader from Houston 11 - 6 and 4-3, Chicago split with Los Angeles, losing 2-1 in 10 innings before winning 6-3 in 11, New York dropped St. Louis 3-1, and Pittsburgh whipped Atlanta 5-2.

Consecutive first inning doubles by Pete Rose and Tony Perez gave Nolan the only run he needed against the Phillies in the second game.

Maloney worked into the ninth of the opener but had to leave when his right shoulder became sore. Abernathy got the last two outs.

The Giants unloaded 16 hits in the first game against the Astros with Jim Hart driving in four runs, three of them on a homer. Hart, Tito Fuentes and Norm Siebern had three hits apiece in the attack.

Ollie Brown's two-out, two-run homer in the ninth inning gave the Giants the second game. Houston rookie Don Wilson was leading 3-0 on a two-hitter in the eighth inning before San Francisco knocked him out with a two-run rally. Then Brown's first pitch shot off Claude Raymond won it in the ninth.

Willie Davis delivered a run-scoring single with two out in the 10th inning of the opener, lifting the Dodgers past the Cubs. Don Drysdale, 2-3, who drove in the first Los Angeles run with an eighth-inning single, was the winner.

Army-bound Ken Holtzman copped his fourth straight in the second game and ignited the three-run rally that won it in the 11th with a single. Ron Fairly cracked a two-run homer for the Dodgers.

The Mets ended Bob Gibson's nine-game winning streak against them as Jack Fisher beat the Cardinals. Jerry Buchek, traded by St. Louis to New York just before the season started, homered in the fourth, starting the three-run rally that won it for the Mets.

Roberto Clemente smashed a single, double and triple, scored twice and drove in another run as the Pirates downed the Braves. Bill Mazeroski drove in Clemente twice with singles and Donn Clendenon homered for Pittsburgh.

Final Big 8 Grid Drills Sparkle

By THE ASSOCIATED PRESS

It was an outstanding final day of Big Eight spring football for veterans like end John Zook of Kansas, halfback Les Webster of Iowa State and quarterbacks Bob Warmack of Oklahoma and Bill Nossek of Kansas State.

At least three freshmen emerged with excellent performances which may put them high in the picture next fall in their sophomore seasons. They were end Larry Boyce of K-State, quarterback Bob Cutburth of Oklahoma State and cornerback Pat Hutchens of Kansas.

Webster rushed for 127 yards on 27 carries, including touchdowns on dazzling 49 and 14-yard runs, leading the Reds to a 52-10 victory.

Warmack's 23-yard touchdown pass to wingback Eddie Hinton on the game's final play gave the Whites a 19-16 victory at Oklahoma. Hinton outscrambled three men for the ball. Warmack hit 12 of 18 for 178.

Nossek, tutored by Len Dawson of the Kansas City Chiefs, hit 20 of 26 passes for 311 yards but his Purple team had a battle before beating the Whites 28-24 before 5,000 at Manhattan.

Zook had seven solo tackles and eight assists, Hutchens eight solo and four assists to lead the Kansas defense, which outscored the Jayhawk offense under coach Pepper Rodgers' scoring system in three 20-minute games at Kansas.

The 186-pound Boyce, who didn't start at defensive end for the Whites, was voted the game's best defensive player. Nossek won the honor on offense.

Cutburth, a 6-door-1, 200-pounder, threw 44 and 56-yard TD bombs, scored a TD from the 5, kicked two extra points and ran for a two-pointer in leading the Orange team past the favored Whites, 22-8, before 4,000 at Stillwater.

OSU coach Phil Cutchin, watching from the pressbox, allowed that Cutburth's performance made him a fall contender at quarterback.

At Kansas, quarterback Bob Douglass hit 15 of 29 passes for 235 yards, his back-up man Jim Ettinger 12 of 19 for 135 and halfback Thermus Butler ripped 108 on 14 trips, one a skillful 70-yard TD.

Split end John Jackson got loose for a 67-yard TD from Douglass.

The offense won the first game 24-22, the defense the second 27-15 and the third was a 16-16 tie. So it was 1-1-1 in games but the defense led 65-55 in total points.

"I'm a big play man," Rodgers said, "but I also enjoyed the defense stopping them just short of the winning point on the final play."

Vince Gibson, K-State coach, liked his squad's over-all play.

"I think we showed the fans we can execute a passing game," Gibson said. "And I was pleased with the defense."

Star Cager, Sister Die in Auto Mishap

MADISONVILLE, Ky. (AP) — Dwight Smith, 21, Western Kentucky University basketball star, and his sister, Sheryl Kay Smith, 18, were killed Sunday afternoon when their car hit rain-slicked roads near here and plunged into a water-filled ditch.

Smith's brother Greg, another key player on the Western team, was injured, treated in a hospital, and released.

Hopkins County Deputy Coroner Harold Bandy said the car submerged in water, and speculated that both may have drowned before they could escape.

The three were returning to Western Kentucky University after a Mothers Day visit to their Princeton, Ky., home. The two brothers were guests of honor at a banquet Saturday night sponsored by a Methodist church.

Smith was a senior, had been drafted by both the American and National Basketball associations, and was to have graduated this year.

The two made up one of Kentucky's best known brother combinations in college basketba..

They were top players on the Western team which won the Ohio Valley Conference title and went to the NCAA tournament the last two years.

Smith ranked ninth among all-time scoring leaders at Western and seventh among three-year players.

In three varsity season at Western, Smith averaged 14.6 points and 10.9 rebounds. Basketball Coach Johnnie Oldham constantly referred to him as the greatest rebounding guard in the nation.

Sheryl Kay was a freshman at Western. Greg is a junior.

Knudson Nips Nicklaus and Beard for $20,000 Purse

NEW ORLEANS (AP)— George Knudson, like Frank Beard, will always have fond memories of the 15th hole at Lakewood County Club.

Knudson, an ex-caddy from Canada, used a shot "I didn't know I had in my bag" Sunday at 15 and went on to capture the $20,000 first-prize money in the $100,000 Greater New Orleans Open Golf Tourney.

He beat Jack Nicklaus by a shot, keeping the Ohio strongboy from his first official victory on the PGA national tour this year and whetting Nicklaus' appetite for this week's Colonial National Invitational in Fort Worth, Tex.

Nicklaus made no excuses, save for a wry comment about landing in a bunker "where it looked like about 30 people had been walking in it."

'Well, on to next week," he said as he picked up his $12,000 check for second place.

Knudson, 29, was the only player in this year's tourney to get a birdie on the 530 yard par 5 hole. Beard, who finished third this year, won the tourney last year with an eagle on the same hole.

Nicklaus hit what "I thought was a good putt" from three feet on the same hole for a birdie, "but it hit the bottom of the hole and came out."

Nicklaus and Knudson began the final round over the wind-swept course, with its 7,020-yards playing short because of sun-baked fairways, tied for the lead. Beard was two shots back.

Knudson wound up with a 70, two under par, for a 72-hole score of 277. Nicklaus' final round was 70. So was Beard's.

Bob Charles, Billy Casper, Tommy Bolt, Gardiner Dickinson and South African rookie Cobie LeGrange all deadlocked for fourth earning $3,820 each.

Casper and LeGrange had closing round 67s.

Casper won the All America Gold Cup and the $5,000 cash for first that goes with it. The award goes to the golfer with the lowest combined scores for this tourney, the Masters, PGA and U.S. Open.

Arnold Palmer had a 10-stroke lead in the competition for the cup coming into this tourney, but decided to skip New Orleans and spurned the extra dough.

Deering Turns in Top Area Showing in State Meet

COLUMBIA - Deering's Delta C-7 Chargers turned in southeast Missouri's strongest showing in class M and S state high school track and field competition Friday and Saturday at Memorial stadium.

Winners of the class M district crown the previous weekend at Cape Girardeau, the Deering squad collected 11 points for a sixth place finish in the class M state meet.

Dexter and Southland each scored two points to round out Southeast Missouri scoring in class M competition. Advance scored one-half point for the district's only dent in the class S scoring column.

Principia took the class M championship with 23 points to oust defending champion Brentwood, which copped runnerup honors with 18. John Burroughs of St. Louis was third with 15, Cameron fourth with 13 1/2, Jasper fifth with 12 and Delta sixth with 11. Lockwood notched the class S crown with 21 points and a two-point margin over Fair Grove.

Roosevelt Thomas placed second in both the broad jump and 180-yard low hurdles to lead the Deering team's scoring. Alonzo Hurt placed third in the high jump for the Chargers' remaining three points. Andy Taylor put Dexter into the scoring column with a fourth place finish in the low hurdles. Stan Vaughn posted Southland's points with a fourth in the 440-yard dash. Steve Daniel tied for fith in the high jump to pick up Advance's half point.

The class L state meet is scheduled Saturday on the same field.

WEEKEND FIGHTS

Son Captures Racing Record From Father

DARLINGTON, S.C. (AP) - Lee Petty's NASCAR record of 54 victories in a career was surpassed in the Rebel 400 stock car race at Darlington Saturday, but Petty doesn't appear concerned about the situation.

The important thing, from the retired Petty's viewpoint, is that another Petty - son Richard - snapped the old mark.

Richard piloted his 1967 Plymouth to victory No. 55 despite a six - car crackup shortly after the green racing flag was waved, and also despite a hard - charging David Pearson in a new Holman - Moody Ford.

Petty, from Randleman, N.C., averaged 125.671 miles per hour for the one-lap triumph although there were five caution flags for a total of 31 laps. The Randleman Rocket led 266 of the 291 lap race over the mile and three - eights banked track.

Since retiring from race driving in 1961, the elder Petty has turned to producing topnotch cars for his son, as attested by the fact that Richard has gotten the checkered flag more times than any other NASCAR driver in history.

PUBLIC NOTICES

THE CITY OF SIKESTON, MISSOURI
Resolution

A resolution declaring the necessity for the construction of 1 1/2" hotmix asphaltic pavement on 6" soil cement base with concrete curb and gutter on Lee Street from Jaycee Street east approximately 700 feet, 28 feet wide, in the City of Sikeston, Missouri; stating the nature of the improvement; the estimated cost and providing that payment for all of the improvement shall be made by special tax bills levied and assessed against the abutting property. Be it resolved by the Council of the City of Sikeston, State of Missouri, as follows: SECTION 1: That the Council of the City of Sikeston, Missouri, deems and declares the construction of said Street necessary to the welfare and improvement of the City of Sikeston. SECTION 2: That the nature and scope of the improvement shall consist of furnishing all cost, including labor, materials and transportation necessary for the complete construction of the improvement. SECTION 3: That the estimated cost of the improvement is $4.50 per lineal foot of abutting property, to be charged against the lots and tracts of land abutting the improvement. SECTION 4: That pavement for all of the improvement shall be made by special tax bills evidencing special assessments against the abutting property in the manner specified by the statutes of the State of Missouri and the ordinances of the City of Sikeston, Missouri, because in the opinion of the City Council the General Revenue fund of the City of Sikeston is not in a condition to warrant an expenditure therefrom to pay for the improvement. SECTION 5: That any work performed on construction of the improvement shall be in compliance with the provisions of the prevailing wage laws of the State of Missouri, such prevailing wage rates having been established by the Industrial Commission of Missouri. SECTION 6: That the City Clerk is hereby authorized and directed to furnish a copy of this Resolution to a daily newspaper of general circulation in the City of Sikeston, so that it shall be published for seven consecutive insertions. Read the first, second and third times and passed and approved this 1st day of May, 1967. Approved: Kendall Sikes, Mayor; Attest: John W. Vaughn, City Clerk.

SECTION 6: That the City Clerk is hereby authorized and directed to furnish a copy of this Resolution to a daily newspaper of general circulation in the City of Sikeston, so that it shall be published for seven consecutive insertions. Read the first, second and third times and passed and approved this 1st day of May, 1967. Approved: Kendall Sikes Mayor; Attest: John W. Vaughn, City Clerk.

THE CITY OF SIKESTON MISSOURI
Resolution

A resolution declaring the necessity for the construction of 2" hotmix asphaltic surface on 7" soil cement base, 24 feet wide, on Ingram Road from Ables Road north to existing pavement in accordance with plans and specifications in the City of Sikeston, Missouri; stating the nature of the improvement; the estimated cost and providing that payment for all of the improvement shall be made by special tax bills levied and assessed against the abutting property. Be it resolved by the Council of the City of Sikeston, State of Missouri, as follows: SECTION 1: That the Council of the City of Sikeston, Missouri, deems and declares the construction of said Street necessary to the welfare and improvement of the City of Sikeston. SECTION 2: That the nature and scope of the improvement shall consist of furnishing all cost, including labor, materials and transportation necessary for the complete construction of the improvement. SECTION 3: That the estimated cost of the improvement is $2.75 per lineal foot of abutting property, to be charged against the lots and tracts of land abutting the improvement. SECTION 4: That payment for all of the improvement shall be made by special tax bills evidencing special assessments against the abutting property in the manner specified by the statutes of the State of Missouri and the ordinances of the City of Sikeston, Missouri, because in the opinion of the City Council the General Revenue fund of the City of Sikeston is not in a condition to warrant an expenditure therefrom to pay for the improvement. SECTION 5: That any work performed on construction of the improvement shall be in compliance with the provisions of the prevailing wage laws of the State of Missouri, such prevailing wage rates having been established by the Industrial Commission of Missouri. SECTION 6: That the City Clerk is hereby authorized and directed to furnish a copy of this Resolution to a daily newspaper of general circulation in the City of Sikeston, so that it shall be published for seven consecutive insertions. Read the first, second and third times and passed and approved this 1st day of May, 1967, Approved: Kendall Sikes Mayor; Attest: John W. Vaughn, City Clerk.

NOTICE OF SPECIAL ELECTION

WHEREAS, by ordinance duly enacted by the City of Sikeston, Missouri, and approved by the Mayor of said city on the 11th day of May, 1967, a franchise was granted to Associated Natural Gas Company, a corporation, to construct, maintain and operate a natural gas distribution system in the City of Sikeston, Missouri, subject to the approval of the majority of the qualified voters residing in the corporate limits of said City; and,

WHEREAS, the Mayor of said city was authorized and directed to issue a call and proclamation of such special election, to be held on the 13th day of June, 1967:

IT IS THEREFORE PROCLAIMED AND NOTICE IS HEREBY GIVEN to the voters of the City of Sikeston, Missouri, that a special election will be held in said City of Sikeston, Missouri, on the 13th day of June, 1967, for the approval of or disapproval of said franchise to Associated Natural Gas Company, a corporation, its successors and assigns, by Ordinance No. 3222, which Ordinance was duly enacted by the City Council of the City of Sikeston, Missouri, and approved by the Mayor of said City, on the 11th day of May, 1967, and which Ordinance is, in words and figures, as follows:

ORDINANCE NO. 3222

"AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF SIKESTON, MISSOURI, GRANTING TO THE ASSOCIATED NATURAL GAS COMPANY, A CORPORATION, ITS SUCCESSORS AND ASSIGNS, THE RIGHT AND PRIVILEGE AND FRANCHISE TO LAY GAS MAINS ALONG, UNDER AND THROUGH THE STREETS, AVENUES, ALLEYS, ROADS, AND HIGHWAYS AND OTHER PUBLIC PLACES OF THE CITY, FOR THE PURPOSE OF DISTRIBUTING AND SELLING GAS TO THE INHABITANTS OF SAID CITY AND TO OTHERS, AND ALSO THE RIGHT TO LAY PIPELINES IN, TO, THROUGH AND UNDER THE STREETS, ALLEYS, AVENUES, ROADS, HIGHWAYS AND OTHER PUBLIC PLACES AND GROUNDS OF THE CITY FOR THE PURPOSE OF CONVEYING GAS THROUGH AND IN SAID CITY FOR DISTRIBUTION AND SALE OF GAS TO THE INHABITANTS OF SAID CITY, AND TO OTHERS, FOR DOMESTIC, COMMERCIAL AND INDUSTRIAL PURPOSES, SUBJECT TO THE ITEMS HEREINAFTER PROVIDED."

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF SIKESTON, MISSOURI, AS FOLLOWS:

Section 1: That the City of Sikeston, Missouri, subject to the terms, conditions and stipulations mentioned in this Ordinance, hereby grants a franchise to Associated Natural Gas Company, a corporation organized and existing pursuant to the laws of the State of Delaware, Grantee, and to its successors, lessees, and assigns the right to lay, construct, equip, operate, repair and maintain a system of gas mains, pipes, conduits, and feeders for the purpose of supplying and distributing natural and/or artificial gas for light, fuel, power, and heat and for any other purpose, to the residents or inhabitants of the said City, and further, the right to lay, construct, operate and maintain a system of works and comprising buildings, machinery, gas mains, pipelines, pipe conduits, manholes, underground conduits, appurtenances and appliances of every kind and character necessary and proper in the conduct of said gas business within the corporate limits of the City as they now exist, or may hereafter be extended, for the purpose of distributing and selling gas to said City and to the residents or inhabitants thereof, and to others, and for the purpose of conveying, conducting or distributing gas from such system to any point beyond said City Limits.

Section 2: The Grantee herein is expressly given the right and permit to use the streets, avenues, roads, highways, alleys, sidewalks and other public places, as now laid out, or hereafter to be established, for the purpose of laying gas mains, pipelines, conduits and feeders, and the necessary attachments, fixtures, connections, buildings, structures and appurtenances for the purpose of conveying or conducting gas from any point within the said City or to any point beyond the City Limits of the said City or to any point, through and beyond the City Limits of said City, and to operate and maintain a system of pipelines, pipes, conduits, feeders and the necessary attachments, connections, buildings, structures, fixtures and appurtenances for the distribution of gas within said City to serve the said City and the residents and inhabitants thereof, and others; provided, however, that where alleys are accessible for laying mains and pipes, the City shall have the right to require that the mains and pipes shall be laid in the alleys instead of the streets, and plans for laying mains must be submitted to the City Manager or specially, appointed representatives before final designation is made.

Section 3: In the opening and refilling of all openings made by the Grantee, it shall relay the pavement and do all other work necessary to complete restoration of the streets, sidewalks or grounds to the condition equally as good as when disturbed.

Section 4: No fees or charges of any kind shall be imposed upon the Grantee or upon any successors, or upon any consumer of gas for the breaking or opening of any highway, street, road, avenue, alley, or other public places, or for the laying of any main, service pipe or other connections therein.

Nothing in this franchise shall be construed in such manner as to in any manner abridge the right of the City to pass and enforce the necessary police regulations for the purpose of protecting the citizens of said City and their property and the property of the Grantee.

Grantee shall at all times keep and display the necessary danger signals and proper guards around all excavations and obstructions, and shall as soon as practicable restore all openings on the highway, road, street, avenue, alley and other public places to condition equally as good as before said openings or obstructions were made.

Section 5: The Grantee shall do no injury to any highway, road, street, avenue, alley, lane, bridge, stream or water course, park or public place, nor in any manner disturb or interfere unnecessarily with electric lines, nor with any public or private sewer or drainage system, or water lines, now or hereafter laid or constructed by said City or by any authorized person or corporation, but no electric conduits or sewer or water pipes shall be so laid as to interfere unnecessarily with any gas main or pipes which shall have been laid prior to the time of laying such electric conduits, sewer or water pipes. The Grantee shall fully indemnify and save harmless the City from any and all claims for damages for which said City shall or might be made or become liable by reason of the granting of this franchise, or any negligence or carelessness on the part of said Grantee, or because of any act or omission of the Grantee in the construction and operation of its system of mains and pipes.

Section 6: The Grantee shall supply gas under the terms and conditions herein specified to all applicants not in arrears for any bills for gas, service, pipes, appliances, or other things, owning or occupying premises on or abutting the streets, avenues, or other public places in which such gas mains or conduits are laid.

The Grantee shall have the right to require a written agreement with all applicants for natural gas. The rate or rates to be charged for gas, the minimum monthly bill, the meter connection, moving or other charge, the amount of the immediate deposit, the terms and conditions under which gas is to be served the individual applicant, and other things shall be determined by such agreement. Such agreements are to conform with the state laws and regulations governing same.

The Grantee shall have the right to make and enforce as a part of the conditions under which it will supply gas for heat, power, light, fuel or other purposes as herein provided, all needful rules and regulations not inconsistent with law and the provisions of this franchise.

The rates charged and the Rules and Regulations under which service is to be supplied, for domestic, commercial and industrial consumption of gas shall be reasonable and as may be approved by the Public Service Commission of Missouri or the Commission or Regulatory Body then having jurisdiction over the rates of Grantee.

Section 7: The Grantee shall make, own and maintain all necessary connections with its mains, lay pipe to curb line, or to point on or near property line where no curb line has been determined, and may at its option install a service cock and box. Grantee will also designate location of, set and own the meter, but all other piping, connections and appliances for the purpose of utilizing gas shall be furnished and installed by the house owner, or consumer, at his risk and expenses.

Section 8: The Grantee shall furnish promptly to the proper authorities any and all information which may be requested by them in regard to the size, location or depths of any of the pipes, mains, conduits or service pipes, in any form whatsoever and any other information in regard to its occupation of roads, highways, streets, avenues or public grounds of said City, which they may demand. Whenever the word "Grantee" occurs in this Ordinance, it shall mean and it shall be understood to be the ASSOCIATED NATURAL GAS COMPANY, its successors, lessees, or assigns, and whenever the words "authorities" or "proper authorities" occur in this franchise they shall mean and shall be understood to mean the authorized officer or officers, committee or board representing the City of Sikeston, Missouri, or Grantor.

Section 9: All rights, privileges and authority granted by this Ordinance shall, upon its acceptance by Grantee in the manner hereinafter provided, be and remain in full force and effect for and during the term of ten years from and after its passage and approval; provided, this Franchise and all rights and privileges herein provided shall be extended for two (2) successive periods of five (5) years each, unless the municipality by notice given to the Company and by Ordinance duly enacted and approved at least six (6) months before the end of such term of ten (10) years, or before the end of the first extended term of five (5) years, as the case may be, shall declare such termination effective.

Section 10: Grantee shall file its written acceptance of this franchise Ordinance within sixty (60) days after its passage, and thereafter shall make proper application with the necessary and proper regulatory bodies for the necessary and proper permits to operate said gas system. Grantee shall, within twelve (12) months after procuring all of the necessary certificates of convenience and necessity and all other proper permits, both from the State of Missouri and the Federal Government, begin actual construction of laying gas lines for the distribution of gas in said City. All delays, however, occasioned by strikes, weather, riots, floods, war and acts of God shall be excepted from the performance period herein.

The City Council of Grantor may from time to time extend the periods provided in this Section.

Section 11: Grantee shall pay, and in consideration of the granting of this franchise agrees to pay, to the City as a franchise tax and compensation for the rights and privileges enjoyed hereunder, a sum equal to five (5%) per cent of its gross annual revenue from the sale of natural gas in said municipality, excluding any revenue derived from service to the municipality or any revenue from industrial consumers.

It is understood and agreed that the computations of the per cent of the revenue as above provided shall be computed on the basis of the revenue from January 1, through December 31, of each year prior to the year in which the payment shall be made.

The Company shall pay the City on or before the tenth day of each month the amount of the payments arrived at in the manner herein provided at the rate of 1/12 of such annual amount.

Such payments shall be in lieu of all other franchise, licenses or occupation taxes which may be levied or attempted to be levied by said City for said gas business. Upon request of the City, Grantee shall make available for examination by duly authorized representatives the necessary records to determine the payments made hereunder.

Section 12: Said Grantee shall have the full right and power to assign to any other person or persons, co-partnership, firm or corporation, any and all rights conferred upon it by the terms of this Ordinance, after it has installed, erected and built a gas distribution system; provided, that a mortgage or trust deed or judicial sales made thereunder or under tax sales or the transfer of this franchise to a subsidiary, shall not be deemed an assignment within the meaning of this Section. Any assignee of the rights of the Grantee herein, by accepting such assignment, shall thereby become subject to all of the terms, conditions and provisions of this Ordinance; and in the event of any assignment by said Grantee of the rights hereby conferred upon it, such assignment shall be in writing and a duly authenticated copy thereof shall be filed in the Office of the Clerk of said City of Sikeston, Missouri.

Section 13: The Grantee shall maintain sufficient, suitable and adequate pressure of gas in its mains, where the service line to consumer attaches to the Grantee's main or pipeline in a street or alley adjacent to such consumer's property line.

Section 14: If any Section, Paragraph, Subdivision, Clause, Phrase or Provision of this Ordinance shall be adjudged invalid or unconstitutional, the same shall not affect the validity of this Ordinance as a whole, or any part or provisions, other than the part so decided to be invalid or unconstitutional. All Ordinances or parts of Ordinances in conflict with any provision of this Ordinance are hereby repealed.

Section 15: The Grantor shall enact all needful Ordinances, rules and regulations for the protection of the property of the Grantee for the purpose of preserving and securing the Grantee all the rights, privileges, immunities and benefits granted herein.

Read three times and passed the 11th day of May, 1967.

APPROVED: Harry E. Dudley
Acting Mayor

ATTEST: John M. Vaughn
City Clerk

The ballot to be used in said election shall be as follows:

FOR NATURAL GAS FRANCHISE TO THE ASSOCIATED NATURAL GAS COMPANY, A CORPORATION..... YES ☐

Seven Wonders of The World

THE TEMPLE OF ARTEMIS AT EPHESUS

Few actual construction details have come down to us about the Artemision -- the Temple of Artemis (Diana) at Ephesus in Asia Minor -- but it is known that the most imposing of the edifices built to her was the fifth one on the same site. It was begun after its predecessor had been destroyed in 356 B.C. by a spitefully set fire, and was completed by the end of that century with the help of Alexander the Great -- who legend says was born that very October night of the fire in 356.

The great Greek sculptor Praxiteles is believed to have created the new 220-ft-wide temple's main altar. The building's porticoed columns were 60 feet high -- all of dazzling white marble elaborately adorned with gold. The interior of the shrine was filled with art treasures.

Since other Greek temples had colonnades just as high and were of equal or greater area, it has been suggested that the Ephesian temple had some distinct element of grandiosity no longer known to us -- perhaps a lofty sculptured parapet of some imposing podium.

After a prosperous history, the Goths destroyed both the temple and Ephesus itself in 262 A. D. Although the city revived, and the cult of Artemis continued in spite of the spread of Christianity, neither ever recovered its former splendor.

Later on the Artemision, plundered and ruined after serving as a quary for local builders, was covered deep with mud by the local river or one of its tributaries. For a thousand years the exact location of the former Fourth Wonder of the World remained unknown -- until uncovered by British excavations in 1869.

Q&A
on cigarette smoking and heart disease

Q Is smoking a health hazard for women?

A YES. There are fewer statistics on women, because they haven't been smoking as long as men, but according to present evidence, women smokers have increased risk of lung cancer and heart disease over women who do not smoke.

No. 3 in a series of 12 questions and answers about smoking and health — published by this newspaper in cooperation with your Heart Association

AN ESTIMATED 250,000 marchers participated in a parade in New York City in a "Support Our Boys in Vietnam" demonstration. A vast majority of the marchers, made up of labor unions, veterans' organizations, Masons and Medal of Honor winners, carried American flags in support of our 442,000 American service men in Vietnam.

Muny Opera 1967 Season

ST. LOUIS, MO. -- The 1967 Municipal Opera season - the forty-ninth in the outdoor theater's history of colorful and lively summertime musical entertainment - will open June 5 and will include ten spectacular productions plus a unique special attraction, the Royal Ballet of London.

Glittering casts have been assembled for each of the regular ten productions, chosen from the brightest stars of Broadway, Hollywood, and television. Lavish scenery, stunning costumes, brilliant singing and dancing by Municipal Opera's own choruses, and a full 50-piece orchestra will again be highlights of all productions.

Of the ten shows in the regular repertory, four have never before been seen at Municipal Opera, and three of these are brand new to the St. Louis area. The four newcomers are: "Funny Girl," the musical biography of Ziegfeld star Fanny Brice, with song hits "People" and "Don't Rain on My Parade." "Funny Girl" came to St. Louis last season as part of a national tour.

"On a Clear Day You Can See Forever," the melodic tale of psychiatry and reincarnation by Alan Jay Lerner (author of "My Fair Lady") and Burton Lane (composer of "Finian's Rainbow").

"It's a Bird . . . It's a Plane . . . It's Superman," the comic strip come to life about the Man of Steel and his unending fight against evil.

"Do I Hear a Waltz?" Richard Rodgers' moving romance about an American secretary's moment of love and happiness while she is a tourist in Venice.

Favorites from previous seasons in the repertory include:

"West Side Story," Leonard Bernstein's haunting drama of star-crossed young lovers in the concrete jungles of New York.

"Wish You Were Here," a light - hearted story of summer flirtations and romances at a Catskills Mountains summer resort.

"The New Moon," Sigmund Romberg's classic operetta that tells of romance and intrigue in French New Orleans in the 1790's.

"The Unsinkable Molly Brown," the rollicking tale of an Irish tomboy who goes West and joins international society after her husband strikes it rich in a silver mine.

"Gypsy," the musical biography of Gypsy Rose Lee and her ambitious mother, who was determined to make her daughter the biggest star of burlesque.

"The King and I," Rodgers' and Hammerstein's masterpiece about the prim English schoolteacher who goes to Siam to instruct the dozens of children of the all - powerful king.

Among the stars who will be featured in the Municipal Opera season are Anna Maria Alberghetti, in "West Side Story"; James Darren, Arlene Fontana, Lou Wills, and Karin Wolfe, in "Wish You Were Here"; Dorothy Collins, Enzo Stuarti, and Monique Van Vooren, in "Do I Hear a Waltz?"; Bob Holiday, Charles Nelson Reilly, Karen Morrow, and Richard France, in "Superman"; Bruce Yarnell, Margot Moser, and William Lewis, in "The New Moon."

Also Kaye Stevens and Yarnell in "The Unsinkable Molly Brown"; Marilyn Michaels, Danny Carrol, Molly Picon, and Norwood Smith, in "Funny Girl"; Van Johnson and Linda Lavin, in "On a Clear Day"; Jane Morgan and Jessica Walter, in "Gypsy"; and Ann Blyth, Pernell Roberts, and Jean Sanders, in "The King and I."

By special arrangement with impresario S. Hurok and the British government, the Royal Ballet of London will extend its brief North American tour to appear at Municipal Opera from August 1 through 6. The company - the most famous dance organization in the world - has never before performed on an outdoor theater stage.

The company of 175 will fly to St. Louis directly from Vancouver, Canada to present a repertory of three full - length ballets: "Swan Lake," on August 1 and 2; "Giselle," on August 3 and 4; and "Romeo and Juliet," on August 5 and 6.

The dates for the remainder of the Municipal Opera season are: June 5 - 18 (14 nights), "West Side Story"; June 19-25, "Wish You Were Here"; June 26 - July 2, "Do I Hear a Waltz?"; June 3- 9 "Superman"; July 10-16, "The New Moon"; July 17 - 23, "The Unsinkable Molly Brown"; July 24 - 30, "Funny Girl"; August 7 - 13, "On a Clear Day You Can see Forever"; August 14 - 20, "Gypsy"; and August 21-September 3, "The King and I."

State Fair Grounds Put In Shape

SEDALIA -- Several projects are now under way to recondition and repair facilities at the Missouri State fair grounds for the 1967 fair, Wilbert Askew, secretary, said today. Fair dates this year are August 19-27.

The old grandstand, built in 1906, is now being razed to make way for new seating facilities that will seat about 13,000 persons. Temporary seating arrangements have been made for this year and concessions formerly housed in the grandstand will be relocated. The new grandstand is scheduled to be completed in time for the 1968 fair.

Askew noted that the one-mile dirt race track, considered one of the best in the country, is being completely overhauled. "We're reconditioning the track with new subsoils and dirt. It's the first time in ten years that the track has been completely overhauled," Askew said.

Work on the race track also includes alterations to the southeast corner which for years has been a "safety hazard" to race drivers, Askew noted. He explained that the steep incline on the inside curve will be filled, terraced and new grass will be planted to make a safer track for drivers.

Other chores underway include those of a housekeeping nature. Grass in many areas of the fair grounds has been cut and plants are being pruned as well as a general clean-up of the grounds and buildings.

The dairy barn is being completely repainted inside with white walls and ceilings and red, white and blue ceiling beams. Three additional painters have begun work on this project, according to Askew.

The swine pavilion judging arena is being partially rebuilt because of dry rot, Askew said. The building is being refurnished with new wood beams in many areas to strengthen the over - all structure, he said.

With workers buzzing and the summer months fast approaching, Askew is confident that this year's fair will be the best one yet.

The Inner Circle

By Brigadier Christine E. McMillan (R)

Deep in the heart of "Darkest Africa," David Livingstone wrote in his diary: "I read that Jesus came and said, 'Lo, I am with you alway.' It is the word of a gentleman, and that's an end to it. I will not cross the river furtively by night as I had intended. . ." No furtive crossing for him, he could do all things.

You and I have known others like Livingstone whose absolute faith in Christ has transcended doubt, fear and weakness. Staking their lives upon His word, the word of a gentleman, as Livingstone said, they live hour by hour in a deep, inner awareness of His presence.

Why is this strengthening, enabling experience known to some Christians and not to others? Is there an inner circle, a select community in which Christ is present and available and from which some are, for some reason, excluded?

It is true that in a very real sense there exists an aristocracy of the spirit, an inner circle of the friends of Jesus, but this is by no means a closed circle, nor is its membership limited.

The invitation to its fellowship becomes ours at conversion. Whether we are able to accept the invitation depends on us. For we cannot live in His presence nor share His love and the communion of His spirit if we do no know Him.

This failure to grow in knowledge of Him and in grace of spirit comes sometimes because we have not been fully instructed by those to whom our spiritual care is committed. Perhaps they have overstressed the importance of doing rather than being, forgetting that we must be still in order to know.

So we become extremely active in the service of the Kingdom, teaching in the Sunday-school, singing in the choir, joining fellowships and circles, playing in the band.

The trouble is that all this activity should be but the fruit of a dedicated spirit, making its work an offering to God because of gratitude and love. In other words, work for work's sake brings no spiritual rewards nor growth.

Others live in the delusion that the full, rich flowering of the spirit's life in Christ comes direct from God as a gift, which they must only accept to enjoy. Again and again they kneel before the altar to receive a blessing -- a blessing that will give them at once, and for all time, grace and contingency of life. No wonder they are disappointed.

They forget that grace and strength has only been promised for the hour of need, and then in unlimited abundance-- "As thy day so shall thy strength be." What is asked of us is a total commitment of the whole being to Christ forever. What follows is His acceptance of that commitment and our day by day cultivation of the presence of Christ by submitting our lives to His guidance.

In each life it is of vital importance that a part of every day be set apart for quiet, uninterrupted communion with Him. It is helpful to take each day a different aspect of Christ's life, thinking one day of Him as the Good Shepherd, and of all that His love and care mean. Kneeling before Him you may thank Him for the fact that He sought and found you, and gave His life for you. Another time you might think of Him as the Bread of Life, the Water of Life, the Light of the World; you may remember His humility, His tenderness, His compassion.

Then your heart will be still before Him, for you will find that you have no words with which to express your love and gratitude. You will see no vision nor hear any voice, but in the stillness and peace will take the plade of worry, doubt and fear. You will rise from your knees and go back into the life of every day knowing that He is with you, as He said.

ROCK 'N ROLL CAN DEAFEN

The noise level at teen-age rock 'n roll establishments is high enough to cause temporary, and possibly permanent, ear damage.

This observation was made at the recent annual meeting of the California Medical Association by Drs. Charles Lebo and John Garrett of the Presbyterian Medical Center and University of California Medical School in San Francisco.

With a sound engineer, the two physicians made acoustical recordings at two San Francisco rock 'n roll discotheques. They found that the sound level of the music ranged between 90 and 105 decibels, with peaks up to 120 decibels, equivalent to the noise of a jet engine. California industries must provide protection for employees if the noise level is above 85 decibels.

Teen - agers stay in these places for about four hours, long enough to produce temporary hearing losses, the physicians said. They cautioned that "repetitive exposure to such noise levels is likely to produce progressive, cumulative and permanent inner ear damage."

Dr. Garrett said he wore no ear protection and was unable to hear his watch tick for three hours after his exposure to a long period of rock 'n roll.

ABORTION CUT SHARPLY

One of the happy consequences of establishing a successful family planning clinic is that the plague of illegal abortions drops sharply. This observation was made by Drs. Donald P. Swartz, director of obstetrics and gynecology at New York's Hospital and Samuel M. Wishik, professor of maternal and child health and associate dean of the Grade School of Public Health at the University of Pittsburgh.

Dr. Swartz reported that illegal abortions have dropped by a whopping 50 per cent in his hospital in the four years since a family planning clinic was established in 1962. Dr. Wishik confirmed that reports from various sections of this country and abroad show there is a steady drop in abortion if contraceptives are readily available.

When women are given a choice of contraceptives, and when cost is no barrier, close to 60 percent of them select the pill, Dr. Swartz said. Next in popularity in his hospital is the intrauterine device (IUD), chosen by 30 percent.

The physicians made these observations at a recent meeting of the American College of Obstetricians and Gynecologists.

SKIN CARE GUIDE FOR LADY FAIR

Is it true that permanent waving is not successful during pregnancy? Is elecgrolysis for the removal of unwanted hair safe? Can white lipstick cause harm?

These and a variety of other questions pertaining to skin and hair care and to cosmetics are answered in an authoritative, simply written guide, THE LOOK YOU LIKE, prepared by the American Medical Association's Committee on Cutaneous Health and Cosmetics.

It can be purchased in the U. S. for $1.70 from the American Medical Association, 535 N. Dearborn Street, Chicago, Il. 60610. It would be a splendid little gift for teenagers and for women tired of guessing about skin creams, hair dyes, acne and the like. P. S. The answer to the first question is 'no,' to the second, yes if done by a trained person, and to the third, 'no.'

Homeward bound, my neighbor was telling me about the harrowing day he had had. "What you need is a tranquilizer," I suggested.

"I had one," he replied. "But now she's president of the PTA."

Mrs. Harold Moore

YOUTH EMPLOYMENT

Would you hire a boy or girl of high-school age for part-time work during the summer months?

Employment during the summer can help these high school people help themselves and allow them to supplement the income of their families.

Even though the job you have may require only a few hours work, the extra money can help these students meet their school expenses next September when the new school term begins.

The Neighborhood Service Center will endeavor to be a liaison between citizens who have a job to be done and a willing high school student.

Persons interested in employing a high school boy or girl for part-time work call your local Neighborhood Service Center in New Madrid County.

High School Students wishing to work during the summer, please contact your local Neighborhood Service Center and sign up.

IF YOU WERE THE JUDGE

By Jack Strass L. L. D.

THE CASE OF THE PUNISHING DRAFT BOARD

A group of students converted their college yell into an anti-Vietnam war whoop. Missing many opportunities to keep quiet, they paraded up and down streets loudly protesting the morality and propriety of the government's involvment in the Asian conflict. They were so vehement in their protests, in fact, that the harried dean of the college couldn't have had his hands fuller if he had been milking a cow. What's more, they disrupted the entire community.

The result? The local draft board took action. It revoked all student deferments and reclassified the male protestors 1-A.

"By carrying on in such an outrageous manner," they were told, "you're injuring the nation and the war effort. With a preferred classification, you should have preferred to keep quiet."

"If Patrick Henry kept quiet," retorted a student, "we might still be in the hands of the Red Coats. As American citizens, it's not only our right, but it's our duty to protest when the government's policy is unjust and wrong."

Intent upon regaining their 1-S classification, the students took the revocation to court.

IF YOU WERE THE JUDGE, would you back-up the action of the draft board?

This is how the judge ruled: No! The judge held that the Universal Military Training & Service Act does not empower local draft boards to punish registrants for engaging in anti-Vietnam war protests. Their right to protest, noted the judge, is their privilege under the First Amendment.

(Based upon a 1967 U.S. Court of Appeals Decision)

TODAYS LEGAL POINTER:

If you feel compelled to sign a contract without prior review by your attorney, insert the notation by your signature "Subject to the approval of my attorney." While the notation may afford you some protection, all agreements should be reviewed by your attorney before you sign them no matter how insignificant you may consider them.

Looking Back Over The Years

50 Years Ago
May 15, 1817

Aulton Cravens and Jeff Sutton will open a cash grocery store in the room two doors west of Schorle Bros. bakery in the morning. They will sell on a close margin for cash.

Nell Yanson has been very ill this week.

Mr. and Mrs. W. E. Derris are now at home in their bungalow on William street.

Miss Emma Roush assumed the duties of bookkeeper at the H. & H. Grocery Monday morning.

40 Years Ago
May 15, 1927

Miss Evelyn Sutton of Galesburg, Ill., returned to her home in Sikeston Friday of last week. Miss Sutton has been employed in Galesburg the past several months.

Henry Meldrum Post No. 114, American Legion, has been cited from National Headquarters at Indianapolis for assisting in the drive to establish a public library and for contributing and assisting to relieve distress resulting from local flood conditions.

R. A. Laughlin and Senor Gomez have resigned from the Highway Department to join F. B. Newton in Buenos Aires, Argentina. Dave King has resigned to seek a different climate for the health of both he and Mrs. King. T.A. Wilson has been advanced and designated as office engineer.

Malone Theatre, May 17, Colleen Moore in "Orchids and Ermine."

30 Years Ago
May 15, 1937

Oran -- The pupils of the high school spent Saturday at Lake Killarney.

Sikeston golfers defeated Hayti in the opening match game of the season on the Gwin Henry course at Hayti Sunday afternoon by a score of 37 to 13. Orville Lumsden equalled the course record by shooting a 67, three strokes under par, to take medal honors.

Mrs. J. C. Kelly died at her home, five miles north of Bloomfield, Monday afternoon, from the effects of a paralytic stroke. Survivors include J.M. Kelly, Vernon Kelly and Theodore Kelly of Sikeston.

Malone Theatre, today, "It Happened Out West" with Paul Kelly and Judith Allen. Tomorrow, "Internes Can't Take Money" with Joel McCrea and Barbara Stanwyck.

20 Years Ago
May 15, 1947

Miss Mary Gray, daughter of Mr. and Mrs. John Gray, will leave June 1 for Memphis, Tenn., where she has enrolled in the Baptist Memorial Hospital in that city for nurses training.

Mr. and Mrs. G. Moore Greer have sold their home, 505 North Ranney, to Dr. and Mrs. E. J. Nienstedt. Mr. and Mrs. Greer expect to build something temporary on the Greer Estate, west of Sikeston on Highway 60, and will reside in same until a permanent home will be built.

Malone Theatre, tomorrow, "Razor's Edge" with Tyrone Power and Gene Tierney. Rex Theatre, "Lady on a Train" with Deanna Durbin and Ralph Bellamy.

Hospital notes. Mr. and Mrs. Vernon Puckett of New Madrid are parents of a son born Tuesday.

Mr. and Mrs. R. L. Jackson of Morehouse are parents of a daughter born Wednesday.

ANN LANDERS

Answers Your Questions

Dear Ann Landers: I know you are originally from Sioux City, Iowa. Will you please prevent another Sioux City girl from doing something which is utterly ridiculous? I do not know the young lady personally but I am enclosing a clipping from the Dubuque Telegraph-Herald.

The girl I am worried about is Miss Iowa. As you can see from the clipping, Miss Iowa plans to be married to a young man who is studying for the ministry. Now the next part is what worries me. She said, and I quote: "Singing is my major talent. My fiance and I are going to sing 'Because' before the ceremony, we will sing 'The Wedding Prayer' during the ceremony and 'The Lord's Prayer' after we are pronounced man and wife -- before we kiss."

Maybe Miss Iowa didn't read those letters in your column from the goofs who sang at their own weddings. I hate to see this lovely girl do something dumb. Please tell her not to. -- A SISTER IOWAN.

Dear Sister Iowan: The girl did not write me, and I would not be so presumptuous as to tell her anything.

What I said about people singing at their own weddings still goes, but this is a matter of personal opinion. If Miss Iowa wants to call hogs at her wedding -- and if she can get a clergyman who will allow it -- it's perfectly all right with me.

Dear Ann Landers: About the letter from Irving's wife -- the woman who complained because her husband drops by his mother's house every morning on his way to work, and telephones her every night before he goes to sleep: Please tell her she should be thankful it is only his mother.

My husband has had another woman on the side for four years. I always used to get up and fix him a nice breakfast. When he started to see this woman he told me I should stay in bed and sleep. I suspected something was going on and I was right. He calls her every night from the downstairs phone after he thinks I have fallen asleep. The poor sap must believe I am deaf, dumb and blind.

I am not asking for advice. The mother of five children doesn't have any choice, but it might help women who are married to mama's boys to know that a mama's boy is rarely a cheater. They have a lot to be thankful for. -- SECOND BEST

Dear Best: You are right -- a mama's boy is rarely a cheater, and while no one gets the opportunity to choose his particular brand of trouble, your letter might be a comfort to Irving's wife and to others who share her problem. Thanks for writing.

Dear Ann Landers: Recently someone wrote and asked why an eight-year-old boy who has everything a youngster could ask for would go into the purse of a woman visitor and steal $5. Now I'd like to ask another question. Why would a 57-year-old woman who is a respected member of the community, and a church worker at that, write dirty words on the walls of public restrooms with her lipstick?

I was shocked when I caught her doing this and I put the question to her. She replied, "I do it for fun."

Will you please explain to me what kind of fun is this, Ann Landers? I am baffled. -- R.A.P.

Dear R.A.P.: Few things produce a better clue to a person's mental health than what they consider "fun." This woman is out of her tree.

Want to say "no" to drinking without your buddies putting you down? Get cued in. Write for "Booze and You -- For Teen-Agers Only," by Ann Landers. Send 35 cents in coin and a long, self-addressed, stamped envelope with your request.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper, enclosing a self-addressed, stamped envelope.

The Prayer

From The Upper Room

Peter was still thinking deeply about the vision when the Spirit said to him, "Three men are here looking for you. Get up and go downstairs. Go with them without any misgiving, for I myself have sent them." (Acts 10:19-21, Phillips)

PRAYER: O heavenly, Father, teach us to be sensitive to the Spirit's leading today. Help us to do Thy will in all things. We pray in the name of Christ, who died upon the cross to open the doors of heaven for sinners everywhere. Amen.

Five Bullets Kill Man

SPRINGFIELD, AP - Richard Rieland, 32, died Friday night of bullet wounds suffered the night before near a tavern west of Springfield.

County prosecutor Jack Yocum said the assault and intent to kill charge filed Friday against Rex Boykin, 39, would be changed to homicide.

Yocum also said an inquest into the death would be held early next week.

Rieland was struck by five bullets from a .22 caliber revolver.

When I stopped for gas at a country service station in Maine, an out-of-state car pulled up in front of me. Four or five kids piled out and raced for the rest rooms, hooting and shouting. A man got out, told the attendant to "fill 'er up," and then stood quietly contemplating the scenery. His wife remained in the back seat. The attendant nodded in the direction of a slack rear tire, and said, "She looks a little low."

Still taking in the view, the man sighed. "Yeah, I know," he said. "But she'll perk up as soon as we unload the kids at her mother's."

Paul H. Greeley, Jr.

"YOU CAN'T LOSE WITH U.S. SAVINGS BONDS," says Mrs. Ramona Deitemeyer, Mrs. America 1956. "They are truly the seeds for an ample tomorrow. Bonds have paid for 17 years' college for our children; they can help you, too." Now regular Bond buyers can also buy higher-paying Freedom Shares through Payroll Savings or Bond-A-Month Plans.

SCOTT-NEW MADRID-MISSISSIPPI ELECTRIC COOPERATIVE

SURROUNDED BY OFFICERS of the new Scottish Rite class, Edwin Mueller, center, Webster Groves, chairman of the candidates committee, who joined Scotish Rite in 1914 before most were born, reminisces with the men. From left, William F. Handy, Jr., University City, president; W. Earl Andrews, New Madrid, vice - president; William E. Gutebier, Bellefontaine Neighbors, secretary; the Rev. George A. Hammon, pastor of the First Baptist Church of Festus - Crystal City, orator, and Billy L. Brigance, Kennett, treasurer, seated on sofa arm.

Largest Scottish Rite Since 1924 Enrolled

ST. LOUIS -- The largest Scottish Rite class since 1924, approximately 500 men, was enrolled in the organization in ceremonies at Scottish Rite cathedral.

Officials of the rite stated that it was not only the largest class in 43 years, but was one of the youngest classes in point of individual ages. Membership is now at a new peak in the St. Louis Valley of 15,000 with a total of 26,000 for the state.

It was also announced that for the first time the Scottish Rite will hold another membership reunion in June.

J. Thomas Crunk, Kennett, set a new record by enrolling 57 new members followed by Virgil H. P. Baldwin, Marston, who placed 20 applications, and Irving Jaffee, St. Louis, 10.

Walter C. Ploeser, deputy in Missouri for the supreme council, congratulated the membership of the rite "for this truly outstanding success in bringing fine new men into the Scottish Rite.

"This is in addition to being one of the largest classes, one of the most representative classes in recent years," he added.

The class elected the following officers:

President, William F. Handy, Jr., University City; vice president, W. Earl Andrews, New Madrid; secretary; William E. Gutebier, Bellefontaine Neighbors; treasurer, Billy L. Brigance, Kennett, and orator, the Rev. George A. Hammon, Crystal City.

To join Scottish Rite a man must be a Master Mason of the Ancient Free and Accepted Order of Freemasonry. There are 117,000 members in Missouri.

Scottish Rite, which had its birth in the European Enlightenment of the 18th Century, was first organized in the United States at Charleston, South Carolina, as one of the related Bodies of Freemasonry.

In addition to adhering to the principles of Freemasonry, Scottish Rite is dedicated to the preservation of the American Constitution, patriotism, law and order, support of the American system of free public schools, and separation of church and state.

Letters to the Editor

Dear Editor:

I witnessed the most beautiful sight in Sikeston the other morning. I took my two children, Angelia and Jimmy, to school. I sat in my car and watched the children play. I saw a boy raise the American flag. Another boy took a whistle and blew it, and all the children on the playground stopped what they were doing and put their hands over their hearts.

My heart was blessed all day. I just thought of all the hustle and bustle in the world, and I thanked God for people like Mr. Mays and all the fine teachers at Airport School for taking time to teach my children and other children to respect the flag. It will be something that they will never forget throughout their lives.

Thanks,
Mrs. James C. Crowson

TO THE EDITOR:

How do you like knowing that as a private citizen, your vote doesn't really count in the election of the President? Unless you live in one of the 11 states that have the big political machines and consequently control the majority of the electoral votes, your vote doesn't count. The areas most affected are the small towns and suburbs. And these are the very citizens we, as a great Republic, cannot afford to lose for they are the backbone of our nation. The Electoral College system needs to be reformed. The direct vote plan would abolish it; the Congressional District plan would preserve it and our integrity as a great Republican. The time is "now" for this reform measure; 1968 may be too late. One of our most important basic freedoms must be preserved.

Miss Hillis Honored with Bridal Shower

MOREHOUSE -- Miss Sue Hillis, who will become the bride of Dwayne Mills, June 2, was honored with a bridal shower, May 5, by the Kings Daughters class at the First Baptist church.

The color theme was carried out in the bride's colors of white and blue. The gift table was decorated in blue with white wedding bells; the refreshment table was centered with a bride doll. Punch and cake were served by Mrs. Judy Hux and Miss Patti Taylor.

Attending or sending gifts were: Dale Sexton, Kenneth Sexton, Viva Sexton, Mrs. Bertha Savage, Mrs. Doris Jackson and Regina, Mrs. Opal Harris, Mrs. Judi Hux, Mrs. B. G. Hillis, Mrs. Evelyn Taylor and Judy and Patti, Mrs. Bernice Bryant and Susie, Mrs. Martha Clark, Mrs. Niva Breeden and Jane, Mr. and Mrs. Joe Donnor.

Mrs. Jean Westerfield, Mrs. Emma Bohannon and Donna, Mrs. Bernita Marshall, Mrs. Wanda Dill, Mrs. Elzie Smith of Dexter, Mrs. Arvella McFarling, Mrs. Jim Sexton, the Rev. and Mrs. Glen Bohannon, Vela Cummins, J.E. Ray, Mrs. Ed Orr and Barbara.

Mrs. N. G. Crumpecker, Mr. and Mrs. Ray Marshall, Sr., Mrs. Georgia Henning, Vennie Daniel, Mrs. Margaret Hewitt, Mrs. Tinnon and Sheila, Mrs. Mildred Todd, Mrs. Eva Laminact, Norm, Jean and Bret Sanders of Poplar Bluff.

Mrs. Austin Manes, Mr. and Mrs. Eddie Hillis of Cape Girardeau, Nell Owens, Maxine Hale, Mr. and Mrs. A.V. Mills and Mr. and Mrs. Kenneth Mills, all of Vanduser, Mr. and Mrs. Wade McArthur and Mr. and Ernest Oliver of Adkins, Ark., G. G. Hills, Mrs. L. I. Denton of East Prairie, Miss Jane Tinnon, Mrs. Reba Tinnon and Miss Linda Bohannon.

A Youth For Christ meeting was held at Benton, May 6. Attending from Morehouse were: Donna Bohannon, Regina Jackson, Janie Breeden, Linda Neal, Sharon Breeden, Peggy Orr, Sandy Twitty, Carlene Winkle, Danny Sutton, Steve Westerfield, and Kelly Westerfield. The adult leaders were Mr. and Mrs. Bill Westefield and Mrs. Lloyd Jackson.

DU QUOIN FAIR SHOW FEATURES INTERNATIONAL TALENT

Although the Eddy Arnold Show, billed as the Du Quoin State Fair's nightly attraction Aug. 28 through Sept. 3, stars that all-American entertainer, Eddy's guest star list features brilliant acts familiar to several continents.

Arnold, who has become a popular personality in even the more sophisticated clubs here and abroad, likes plenty of variety among his career colleagues, having hobnobbed professionally with such internationals as The Rolling Stones and Petula Clark.

On the special Du Quoin show, one of the top international groups appearing with him is The Tokyo Happy Coats, five Japanese sisters who dress in the traditional Nipponese "happy coat" costumes. They not only sing and dance everything from the "monkey" to rhumba but also parlay rock'n roll to Latin and Jazz rhythms on a multitude of instruments.

Roger Ray, one of the most popular comedians ever to appear at Du Quoin, will be back for his third time, winging in over international waters from the Continent and London's Palladium. Presently, Bob Hope, Rosemary Clooney and George Kirby are the only other top-flight single acts who have been offered return engagement contracts in the Fair's 44-year history.

Another internationally famous act on the Eddy Arnold Show is The Agostinos, hailed from Milano to Montreal as one of the greatest comedy - acrobatic teams ever to match boy and girl, and from Broadway come Hal Sands' dancing Manhattan Rockets after a year's absence from Du Quoin's enormous grandstand theatre.

Also featured is the man the stars call entertainment business' greatest "showbacker," Lou Breese, who will appear with his famous recording orchestra.

For ticket information, write or call Du Quoin State Fair ticket office, Du Quoin, Ill. Ticket windows are now open Mon. through Friday from 9 a.m. until 5 p.m.

Armed Forces

FT. EUSTIS, Va. (AHTNC) -- Private Johnnie R. Lane, 24, son of Mr. and Mrs. Leo Lane, Route 1, Parma, Mo., completed an airframe repair course at the Army Transportation School, Ft. Eustis, Va., May 9.

During the eight - week course, he was trained in the maintenance and repair of sheet metal surfaces and plastic sections of Army aircraft.

His wife, Norma, lives at 1251 Burwood, La Habra, Calif.

FT. WOLTERS, TEX. (AHTNC) -- Second Lieutenant Glen J. Stine, 29, son of Richard L. Stine, Route 1, Lilbourn, Mo., completed a 16 - week helicopter pilot course at the Army Primary Helicopter School, Ft. Wolters, Tex., April 28.

During the course, he was trained to fly Army helicopters and learned to use them in tactical maneuvers.

He will next undergo advanced flight training at the Army Aviation School, Ft. Rucker, Ala.

His wife, Jo, lives at 2005 E. Main, Gatesville, Tex.

I was helping my husband survey some remote mining claims adjacent to Colorado's White River National Forest. There we became quite fond of a grizzled herder who tended a flock of sheep, and we often shared his coffee. One day we tried to sound out our nomadic friend's opinions on things political, but he clearly was not concerned. In such a setting, his attitude was understandable. "I guess even the Great Society can't touch us up here," I said contentedly.

"Well, now, I ain't too sure about that, ma'am," drawled the herder. "Only yesterday I seen some tracks down by the crick."

ELECTRIC AIR CONDITIONING
Big fans may move the air and help a bit on a hot, humid day, but an electric air conditioner
- moves cool air through your home
- removes excess humidity
- filters the air to get rid of annoying pollens
- lets you rest better, relax more when it's sweltering outdoors

With an electric air conditioner, you get the correct balance of cooling dehumidification and air filtration—all so important to comfortable summer living.
Don't wait for the really hot days to get here. Visit your favorite dealer today to see about comfort-conditioning your house now with an

Today In U. S. History

By THE ASSOCIATED PRESS

Today is Monday, May 15, the 135th day of 1967. There are 230 days left in the year.

Today's highlight in history:

On this date in 1940, the Netherlands formally capitulated to Nazi invaders.

On this date:

In 1571, the Tartars burned Moscow.

In 1767, the ruler of Genoa sold the island of Corsica to France.

In 1773, the Austrian statesman, Metternich, was born.

In 1862, Congress established the Department of Agriculture.

In 1918, the first regular air mail service was started — between New York, Philadelphia and Washington.

In 1943, American bombers pounded the German naval base at Emden.

Ten years ago—Britain detonated its first atomic bomb and became the world's third nuclear power.

Five years ago — President John F. Kennedy ordered 4,000 more American troops to Thailand to back up his diplomatic efforts to save the independence of neighboring Laos.

One year ago — Pope Paul said he was greatly displeased because Poland did not permit a visit by him.

The favorite costume of a Detroit mother-to-be was a green maternity blouse over green slacks. She hadn't realized how often she'd worn it until her TV-minded six-year-old, seeing her approaching, called out, "Here comes the Jolly Green Giant!"

Mark Beltaire.

Newcomer's Feat
Hardly Noticed

INDIANAPOLIS, Ind. (AP) - On any other day Wally Dallenbach might have been an auto racing sensation.

It was last Saturday, the opening day of qualifications for the Memorial Day 500-mile race, and a crowd upwards of 200,000 was waiting and watching for speeds by such drivers as Mario Andretti, Parnelli Jones, Jimmy Clark - big names in the sport.

So when Dallenbach became the day's third qualifier at a speed of 163.540 miles per hour, the fastest officially for any newcomer around the ancient 21/2-mile Indianapolis Motor Speedway, his effort went almost unnoticed.

But the four-lap, 10-mile stint in his turbocharged Offenhauser earned him the outside spot in the fifth row for the May 30 event, and when he had finished he went to the garage area and telephoned his wife in East Brunswick, N.J.

"She said she was praying for me and I guess her prayers were answered," said the 30-year-old Dallenbach.

Hospital Notes

Patients Admitted to the Missouri Delta Community hospital 5-13-67:
Curtis J. Allen, Sikeston

reliance on the property tax and to revision of the present assessment methods."

He said state constitutions "must be amended to provide local government with adequate fiscal power." He included tax and debt limitation freedom and increased bonding powers as ways to reach that goal.

"It is unnecessarily time-consuming," the Governor said, "for a legislator from Springfield or St. Joseph to be required to spend time in determining the size of a pension to be received by a retired St. Louis policeman.

"Local public officials are also much better equipped to decide how to use parking fee revenue, what types of intergovernmental agreements to enter into, and how to expand tax monies."

Many other things now handled in the legislature "could be more efficiently and expeditously handled at the local level" he said.

Another goal mentioned by Hearnes was the creation of a State Department of Community Affairs.

"The ultimate function of this new department will be to provide a new vehicle to enable state government to work cooperatively with federal and local governments to research, plan, and propose ways to resolve problems such as transportation, housing, renewal, poverty, crime and pollution.

"I assure you," the Governor concluded, "every effort will be made by state government to assist local government to remain a viable instrument in our political structure."

get is fully financed.

A number of efforts are expected to be made on the Senate floor to restore cuts made by the Senate Appropriations Committee. It approved a total budget of $1,082,000,000 - about million less than the governor recommended and about $23.7 million less than the House approved.

Major cuts were made in the mental health field and in capital improvements for the University of Missouri.

Sen. Albert M. Spradling, D-Cape Girardeau, is hopeful he can get the mental health reductions restored and Sen. A. Basey Vanlandingham, D-Columbia, is primed for a fight to get back $7,650,000 for a multi-purpose auditorium at Columbia.

House committees also have scheduled hearings on a number of other important bills, including the $2.6 million state property tax repealer, annual safety inspection of motor vehicles and abolition of open range, on which a fight is expected.

Tuesday the Senate Judiciary Committee will hear proponents of a constitutional amendment that would allow parochial and private school students to ride public school buses, an issue that always produces a highly emotional battle.

Both houses planned to resume work at 2 p.m.

souri Route 51 north to the Perry Ste. Genevieve County line.

"Right of way for both of these projects tentatively is scheduled to be obtained in the 1970 fiscal year, which covers the period from July 1, 1969, through June 30, 1970.

"Contracts for building both of these projects are scheduled tentatively to be awarded for fiscal 1971.

"Ste. Genevieve County: It also will require two projects to extend Interstate 55 completely across Ste. Genevieve County.

"The first project will extend 14.6 miles from the Ste. Genevieve - Perry County line north to Route 0, southeast of Bloomsdale. Right of way for this work is scheduled to be acquired during the 1970 fiscal year and a contract for constructing the project is planned in fiscal year 1971.

"The other project in Ste. Genevieve County is 10.3 miles long and extends from Route 0 north to the Ste. Genevieve - Jefferson County line. The department's tentative schedule calls for acquiring the right of way for this project in fiscal year 1969, which is the period from July 1, 1968, through June 30, 1969. The contract for construction is planned in fiscal year 1970.

"Jefferson County: Two projects also will be needed to complete Interstate 55 in Jefferson County.

"The first is 4.5 miles long, extending north from the Jefferson-Ste. Genevieve county line.

"The second will pick up at the north end of that project and go 4.6 miles north to U.S. Route 67 south of Festus.

"Right of way for both of these projects tentatively is scheduled to be acquired in fiscal year 1969. Construction contracts for both jobs are planned to be awarded in fiscal year 1970.

"Originally the interstate system was to be finished in 1972, but indications now are that it will be about 1975 before it is completed."

He turned to discussion of Missouri route 74:

"Missouri Route 74 presently extends from Missouri Route 25 at Dutchtown east to Interstate 55," he said. "The distance is five miles.

"Because of industrial development now occurring or planned west of the Scott City interchange, local authorities asked that consideration be given to relocating Missouri Route 74 south of its present location in order to serve the industrial area. The request was to locate the highway south of the Diversion Channel, with its eastern terminus with Interstate 55 being at the Scott City interchange.

"The state highway commission would consider this relocation. But it would be necessary that right of way for the new road be provided by local people without cost to the state. In addition, present Missouri route 74 would have to be taken over by local authorities after the new road was built.

"Local people earlier had said that the necessary right of way would be provided to the state. Now, however, there seems to be some reluctance to furnish the land for the highway.

"I know there has been some controversy over the proposed access provisions and design which the department feels are necessary for the road. But that is not the only problem at present concerning the status of the Route 74 project.

"One problem which will have to be solved before the road ever could be built centers around the furnishing of the right of way by local people at no cost to the state. The matter still is under discussion, but no agreement has been reached. Until there is agreement on this point, then nothing further can be accomplished on the project."

In discussing the long range study of Missouri highway needs Snider said that by 1985 the state would have an estimated 118,358 miles of roads, streets and highways about five per cent more than now. This would include 1,119 miles of interstate.

He said that total monetary needs for all types of thoroughfares would be $5.6 billion between now and 1985.

"This means a deficit of $3.3 billion in meeting the highway transportation needs," he said.

Snider said that the study presented a road building challenge which must be accepted to reduce death on the highways and prevent the state from being "mired down in a sea of traffic congestion."

#4

Cont. from Page 1

the outcome of the cotton crop extension agents in the area reported today. If high temperatures set in and the water drains off, in the next few days, some of the cotton crop will be salvaged and farmers will be able to plant in time for a harvest.

Even with the most favorable weather in the next few days much of the crop is expected to be damaged by the rain.

Glen Patton, University of Missouri extension agent for Mississippi county, said it will take several days of sunshine to relieve the situation. For all practical purposes it will be too late for planting more cotton, he said.

There is no way to make a complete assessment of the possibilities yet, he added. About six inches of rain fell during the weekend over the county, he said.

About two thirds of the cotton crop in Mississippi county has been planted. Corn stands are looking good except where too much water is standing, Patton said.

Bert Robbins, extension agent for New Madrid county, said today that spotted hail damage was caused in the north and west parts of the county during the weekend.

Cotton is in a critical stage, he said. The amount of water that fell is the real problem. It is backed up along the main channels and will cause serious losses in the cotton crop, if it stands very long.

Corn and wheat, which had been looking good in the county, also will be adversely affected if the water stands too long, Robbins said.

Tom Brown, Stoddard county agent, said apparently about the same amount of rainfall recorded in Sikeston fell in Stoddard county.

In addition to the critical state of cotton, the highly perishable strawberry crop probably will suffer serious loss, he said.

No estimate was available to the amount of the cotton crop now planted. A good bit remains to be planted, Brown said.

there are two others located in either the Mint, Sahara Tahoe, one of the Kings Inns or Townhouses of Fresno, San Francisco of Phoenix or the Mountain Shadows of Scottsdale.

"You'll never know the exact location of the other two bombs until 6 o'clock tomorrow morning when they explode."

The note was written sometime Sunday night, deputies theorized.

Guests — more than 2,000 in Nevada alone -- were evacuated from the establishments. No panic was reported and no other bomb was found.

The FBI was called in to aid in the search and evacuation. Agents began an immediate investigation into the identity of the anonymous caller.

Officers said the caller telephoned a second time while the search and evacuation were under way to tell them of another note near the Sahara building.

strange thing about our customers ... most of them drive new cars hmmm...

It's really not hard to understand. We have consistently low bank rates; prompt credit approval. And our repayment plans are individualized. That means you have a choice of schedules for paying us back . . .we'll go along with your budget.

Besides, First National has a certain flair about making a loan. We figure that even when you're borrowing money, instead of putting it in a savings plan or checking account, you're still doing us a favor. Because we can't prosper unless we serve you. . .not just satisfactorily, but spectacularly. So we go overboard on being hospitable; warm; courteous.

AUTO LOANS

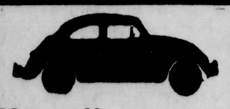

Join our list of strange auto-loan customers. You can usually tell them by the smiles on their faces. . .and the great cars they drive.

Eight Inches of Rain Drenches Area; Cotton Crop Faces Critical Period

Trailer Razed By Fire

A house trailer one and one-half miles northeast of Miner was destroyed by fire Sunday night.

Larry Hornback, owner, charged that the fire department took more than a half hour to answer the call, and when firemen arrived they stood and watched it burn.

It was too late for firemen to save anything when they arrived, he conceded.

Hornback also said that whoever answered the call when he phoned to report the fire explained the department could not answer calls outside the city limits.

City Manager W. Raymert Miller said the fire chief L. D. Ramsey authorized the firemen to answer the call. The city answers calls outside the city limits according to the situation, Miller said. The judgment is made by the fire chief.

In this case, the caller said other buildings were threatened, Ramsey said. Other buildings were not threatened and the trailer was too far gone to be saved, the fire chief said.

The trailer was about one half mile north of highway 60 East on the first blacktop road east of the Interstate 55 overpass.

Hornback said he discovered the fire when he smelled smoke while watching television at 7:15 p.m. The fire apparently started in electrical wiring.

Hornback and his wife fought the fire with a hose.

Firemen extinguished a fire in an exhaust fan above the grill at James Drug Store, 129 East Front, at 10:30 p.m. Saturday. Only the fan motor was damaged by fire.

A fire was reported at 1:15 p.m. Sunday at the Phillip Gossett residence at 114 Reuben. Water from heavy rain seaped under the floor and interfered with the functioning of the furnace. No serious damage was caused.

An automobile owned by W. W. Wilkerson, parked near the Nancy Sweet Shop, highway 61 South, backfired at 5:30 p.m. Sunday and caused a minor fire, firemen reported.

Another car fire was extinguished Saturday night at Scott and Daniel. An automobile owned by J. D. Schaffer apparently caught fire after a backfire, firemen said.

ALLEN BOULEVARD became a lake Sunday when it was overflowed from a heavy rain runoff north of Salcedo road and in the Green Meadows area. The camera is pointed north from Wakefield. The houses at left are those of John Harper and Lawrence Cleek.

LOOKING SOUTH on Allen boulevard when rain water covered the street six to eight inches deep at noon Sunday at the Wakefield street intersection. The homes of Frank Armstrong and David Bailey are on the left.

Prospects for a good cotton crop dimmed with the heavy rainfall that struck the area Saturday and Sunday and left several fields covered with water.

A total of eight inches of rain fell in Sikeston Saturday and Sunday bringing the month's total to 12.25 inches.

Four of the five inches of rain that fell here Sunday came between 4 a.m. and 8 a.m. Rain continued to fall throughout most of the day. Three inches of rain fell Saturday.

No serious damage was reported in the city due to the storm, City Manager W. Raymert Miller said. Washouts occurred on Anderson, Ingram and Compress roads. Surface water remained in several intersections and a few small limbs were downed, he said.

Lightning struck the police radio tower Sunday morning and knocked out service temporarily. The damage has not been completely remedied today, although the radio is operating.

Electrical service was stopped for about 100 farm customers of REA between 6 a.m. and 11 a.m. Sunday, James Stephenson, manager, said. Lightning struck a transformer and oil circuit breakers near Miner and affected about one third of the customers in area near Miner and north, he said.

Another 25 customers near East Prairie were without power for about two hours after a car struck a utility pole three miles northwest of East Prairie on Miller Road Saturday night, Stephenson said.

Missouri Utilities Co. reported that the storm caused only minor problems, with no serious outrages. Three men were working for 12 hours Saturday to restore the damaged lines in Lilbourn caused by the fire that destroyed three downtown businesses, Bill Proffer, manager, said.

Several roads in the area were covered by water, Barney Monroe, maintenance engineer for District 10 of the State Highway Department, reported.

Two places on Route E south of Morehouse had 4 to 5 inches of water standing Sunday. Water was standing on Highway 61 north of Sikeston at the Tanner Road intersection and near the Joel Montgomery residence, he said. Routes 80, 62 and 102 in the area also were covered with water in places, he said.

The next week is critical to

Charles S. Raizen

Industrialist Raizen Dies In East

NEW ROCHELE, N. Y. -- Charles S. Raizen, chairman of the board of the Transogram company, Inc., died Saturday night after a short illness at his home.

He founded the company 52 years ago. Anchor Toy in Sikeston, Mo., founded in 1955, is one of six subsidiaries.

He was present at dedication ceremony of the company here in 1955 and visited Sikeston once each year since.

He was scheduled to visit here next month.

Raizen spoke at the annual Chamber of Commerce banquet in 1956.

Active in civic, Masonic and charity organizations, he founded a charity organization in the East that bears his name.

Surviving are his wife, Mrs. Patricia Raizen; a daughter, Mrs. Lee Fadem, and a son, Ray Raizen, all of New Rochelle.

Services will be in New Rochelle Tuesday.

The Anchor Toy Company in Sikeston will be closed tomorrow, in respect to him.

Three Held in Burglary

HAYTI -- Three young men were apprehended at a road block at Portageville following the burglary of about $100 at Graue Grocery store last night.

The highway patrol said the store owner, Hoot Graue, had returned to his store at 10 p.m. last night and saw two men in the store. One of the burglars threw a crate through a window and jumped out of it as Graue fired a shot at him. The burglar shot back with a .38 calibre pistol and fled, troopers said.

Graue surprised the men after they had broken down a rear door with a sledgehammer.

The front window was shattered by the case of oranges one of the men tossed through it in making his escape.

Graue recognized the pair and notified the highway patrol.

At 10:30 p.m. troopers Randal Bess was investigating an accident north of Hayti on U. S. 61. He had the loud speaker on his patrol car turned on so that he could hear the police while investigating the accident.

He heard the report on the burglary and noticed a car pass by with three youths in it. The radio dispatch gave the names of the two youths recognized by Graue. When the occupants of the car heard their names being broadcast over the police radio, they sped away in their car. Trooper Bess notified Portageville police, who set up a road block.

Apprended were Cecil Moody, 18, Billy Brimhall, 19, and Danny Powers, 18, all of Hayti. Moody and Brimhall, who were the two identified by Graue, have admitted the theft, but Powers denies any knowledge of it.

About $79.50 was found in the car and another $20 was scattered on the store floor.

The three are being held at Pemiscot county jail at Caruthersville. Charges were expected to be filed today.

14 Treated

Fourteen persons were treated Saturday and Sunday in the Missouri Delta Community hospital emergency room for accidents - ranging from automotive, snake bite and stab wounds.

Ginger Hughes, cut foot on glass while wading; Daryle Wayne Mays, fell off ladder at his home; Ronnie Lynn Standridge, stepped on nail. All were admitted on Saturday.

Admitted on Sunday were Jimmy Dodd, snake bite on hand; James Baker, injured in car accident; Jewell D. Woods, Anniston, injured in car accident; Jesse O. Bonner, treated for stab wound; Larry Dick of East Prairie, injured in fight; Joy Lannum, injured in fall; Stephen Burke, Charleston, injured in fall. Wanda Copeland, treated for dog bite; Eugene Fodge, Helen Fodge and Michael Fodge, Benton, injured in car accident.

Rise Predicted For Food Prices

WASHINGTON (AP)—American housewives will be paying two to three per cent more for groceries by this summer, the Agriculture Department predicted today.

The anticipated hike in retail food prices is expected to wipe out a decline of nearly one per cent during the first three months of the year, then advance another one or two per cent on top of that.

For the year as a whole, the department forecasts an average jump of about 1.7 per cent in food costs above last year.

Primarily because of the projected price hikes, consumers are expected to spend about $94.6 billion for food this year compared to $91 billion in 1966.

The forecast for higher retail food prices comes at a time when prices paid farmers for food they produce are down nearly 10 per cent from last summer and seven per cent below last year's average.

Some of the expected increase in retail food prices would reflect anticipated upturns in some farm prices, particularly for meat animals. Somewhat reduced marketings of cattle and hogs are expected as a consequence of some contraction in livestock production under the pressure of prices unsatisfactory to farmers.

The department said current indications point to an increase in both production and marketing of farm commodities this year, with the upturn concentrated in crops.

Because consumer incomes went up while food prices eased off slightly, the department said consumers spent an averags of 17.5 per cent of their income for food during the first quarter of the year, the lowest of record. Last year, the percentage was 18.5.

Items expected to rise later in the year besides meats include eggs, poultry and possibly some dairy products. Items expected to continue near present levels include citrus products, canned fruits, processed vegetables, potatoes and cereal products.

Money Bills In Spotlight

JEFFERSON CITY (AP)—Major money bills will preoccupy the Missouri Legislature this week as the Senate opens debate on them Tuesday.

What happens to them may determine the fate of several other measures, including possible expansion of state participation in the medicaid program.

The limited medicaid bill passed by the Senate comes before the House Social Security Committee Tuesday night. It is expected to consider a substitute that would go beyond Gov. Warren E. Hearnes' original limited recommendations.

It all depends on what happens to the major appropriation bills and whether the revenue estimates of Budget Director John C. Vaughn stand up. He says he is confident they will and there will be money to spare after the governor's bud-

See No. 2 Page 10

Tracking Expert Joins Search

HANNIBAL (AP) - A Missouri state employe skilled in tracking was brought into the search today for three boys who may be lost in a network of caves underlying Hannibal.

The search for Billy Hoag, 11; Joey Hoag, 13, and Craig Dowell, 14, was in its fifth day. The boys were believed to be exploring caves when last seen Wednesday.

Terry Hill of the Missouri Department of Correction was called in from Moberly to join parties pushing an above-ground search. Hill will try to find a footprint or other clue.

Sharon Hatley To Play Piano Part in Concert

Sharon Hatley, daughter of Mr. and Mrs. Atlas Hatley, will play the featured piano part in Don Gillis' "Fields in Summer", with the Sikeston high school band tonight at the high school band shell.

Miss Hatley plays French Horn in the band and horn quartet and is a member of the concert choir and modern chorale. She has also been awarded a band scholarship at Southeast Missouri State College at Cape Girardeau for the coming year. Other incidental soloists will be Linda Werneck, Jan Harper, Judy Murchison, and Mary Anne Bruce.

The annual pop concert will start at 8 p.m.

Sharon Hatley

Home Rule Again Gets Hearnes Plug

ST. LOUIS (AP)—"Local government is and must remain the central pillar that will sustain our democratic society," Gov. Warren E. Hearnes said today.

The Governor made his remarks in a speech prepared for delivery to the Mayors' Seminar at Washington University.

In discussing the financial problems of municipalities and the state-local government relationships, Hearnes said, "specific attention must be directed toward devising alternatives to the present over

See No. 1 Page 10

Debt Ceiling Request Climbs

WASHINGTON (AP) - Secretary of the Treasury Henry H. Fowler asked Congress today to raise the ceiling on the national debt to $365 billion, up $29 billion from the present ceiling.

Beside asking for one of the biggest single increases in history, Fowler recommended that the new ceiling be made permanent.

At present the permanent ceiling is $285 billion, and various temporary increases have been granted on top of that.

The latest of these expires June 30, at which time, Fowler said, the debt is expected to be about $327 billion.

237 Adults Complete Vocational Training

Bill Sikes, director of the manpower development and training program at the high school, told the Optimist Club at a breakfast meeting today that 237 adults completed the vocational training course in the first year.

"Of this group," said Sikes, "192 are employed. You may look on this program as an expensive federal expense, with a cost of $31 million, but the 63,000 trainees, who completed the course, have a yearly income of $17 million."

There are 250 trainees in the Sikeston program. A total of 1,730 adults have been enrolled from the start of the program. Sikeston is headquarters of one of three programs in Missouri. The others are at St. Louis and Kansas City.

The program is designed to teach a trade. Of those who have completed the instruction, 85 per cent are employed, Sikes said.

The yearly staff payroll is $180,000.

Enrollees in the program are paid $50 per week.

The program provides instructions for 10 vocations. It is provided for school dropouts, unemployed persons and persons forced out of employment because of economic change.

There have been 477 persons in the program since January of 1966. Dropouts number about 16 per cent.

The Sikeston program covers an area of 20 counties.

Bomb Threat Disturbs Hotel Guests in 3 States

By ROBERT M. SHAW

LAS VEGAS, Nev. (AP) — A bomb and a note demanding $75,000 were found in a tower room at the Sahara Hotel-Casino on the Las Vegas strip today after thousands of guests were evacuated from Del Webb hotels in Nevada, California and Arizona.

The Clark County sheriff's office said the bomb was found after a man called the pit, or center of the gambling area, in the Sahara and said the device was set to go off about 5 a.m.

Deputies found the bomb in Room 4014 on the 12th floor of the hotel-casino. It was in a wooden box attached to a wall in a closet.

Officers hooked a rope around it and pulled it down. They dragged it to a service elevator and out the back of the building. There was no explosion.

Inside the box were a series of plastic pipes filled with powder, deputies said. They were unable immediately to identify the type of powder.

Near the device was a page-long single-spaced typewritten note with several grammatical and spelling errors. The note read in part:

"The bomb inside this closet is not movable in any direction and is set to explode exactly five hours from the time you are notified of its presents (sic).

"The bomb can be disarmed, but only by its' (sic) maker and by special instructions.

"Disarming is accomplished by pressing one of the 12 buttons on the top. The remaining buttons will detonate the bomb.

"In addition to this bomb,

See No. 5 Page 10

Five Injured in Area Traffic Accidents

Pam Moss, 22, Charleston was injured seriously in a one-car accident on highway 62, one-half mile west of Charleston at 9:10 p.m. Saturday.

Troopers said the car, driven by Judy Montgomery, 21, Poplar Bluff, went out of control on a curve, ran off the road and hit a utility pole. Miss Moss was taken to the Missouri Delta Community hospital.

Two Benton girls were injured in a two-car collision at 4:10 p.m. Sunday on highway 61 in Benton.

The highway patrol said a car driven by Lena Legrand, 51, Benton, pulled out from a side street into the path of a car driven by Harriet Swinger, 18, Benton.

Injured were Miss Swinger, cuts and a bump on the head, and Betty Stuckey, 18, Benton, a passenger in her car, cut lip and mouth. Both were taken to a Cape Girardeau hospital.

Mrs. Legrand was charged with careless and reckless driving and with failure to yield the right of way.

James Baker, 21, Sikeston, sustained cuts and bruises when he fell asleep while driving on highway 62 in Miner Sunday at 1:45 a.m. troopers said.

His car went off the road and overturned. He was taken to the Sikeston hospital.

Jewell Woods, 23, Anniston, the driver, sustained a cut lip and chin in a one-car accident four miles north of East Prairie on a blacktop road at 12:30 a.m. Sunday.

The driver lost control of the car, which went into a ditch and struck a utility pole, troopers said. The driver, who was taken to the Sikeston hospital, was charged with careless and reckless driving.

Snider Outlines Seven-Stage Plan for Building Interstate 55

CAPE GIRARDEAU -- The 67.5 miles of Interstate 55 from Fruitland north to Festus will be constructed in seven stages, Chief Engineer M. J. Snider of the state highway department told the Chamber of Commerce today.

He also said that proposed relocation of Missouri route 74 from Blomeyer east to Interstate 55 in the Cape Girardeau area would depend on whether land is furnished for the new highway without cost to the state.

Snider also discussed the long range state highway needs. The engineer stressed the word "tentative" in describing the timetable for constructing Interstate 55 citing rising costs, the availability of federal funds and difficulty of obtaining right - of - way as factors which could produce delay.

The timetable recently was advanced by a year.

"It is incorrect to assume that all of the Fruitland - Festus section of Interstate 55 will be completed in 1971," Snider said. "Tentative plans are to have all of the route under contract by that time but completion of the entire segment will not be until after that.

"There will be seven separate projects involved in building the 67.5 miles of Interstate 55 from Fruitland to Festus, and they will be located in four counties -- Cape Girardeau, Perry, Ste. Genevieve and Jefferson," he said.

"These projects have been so scheduled so motorists will be able to utilize each one as it is completed because of their tie - ins with existing state highways.

"The total cost of the 67.5 miles is estimated at $51,-052,000, which includes preliminary engineering, right of way acquisition and actual construction.

"Now let's look at the tentative schedule - project by project and county by county -- for building this portion of Interstate 55. I will start on the south and work north with my explanation. Official 1967 Missouri state highway maps have been distributed to you in the event you want to locate the projects for yourselves.

"Cape Girardeau county: There is one project involved in the completion of Interstate 55 in Cape Girardeau County.

"It will extend for 13.1 miles from near Fruitland north to the Cape Girardeau - Perry County line. Right of way for this project now is in the process of being acquired. Our tentative schedule calls for awarding the project to contract for construction in fiscal year 1971, which is the period from July 1, 1970, through June 30, 1971.

"Perry County: Two projects will carry Interstate 55 entirely across Perry County.

The first is 11.1 miles along, extending from the Perry - Cape Girardeau County line north to just north of Missouri Route 51 at Perryville.

The second is 9.3 miles long and goes from north of Mis-

Eight Inches of Rain Drenches Area; Cotton Crop Faces Critical Period

Trailer Razed By Fire

A house trailer one and one-half miles northeast of Miner was destroyed by fire Sunday night.

Larry Hornback, owner, charged that the fire department took more than a half hour to answer the call, and when firemen arrived they stood and watched it burn.

It was too late for firemen to save anything when they arrived, he conceded.

Hornback also said that whoever answered the call when he phoned to report the fire explained the department could not answer calls outside the city limits.

City Manager W. Raymert Miller said the fire chief L. D. Ramsey authorized the firemen to answer the call. The city answers calls outside the city limits according to the situation, Miller said. The judgment is made by the fire chief.

In this case, the caller said other buildings were threatened, Ramsey said. Other buildings were not threatened and the trailer was too far gone to be saved, the fire chief said.

The trailer was about one half mile north of highway 60 East on the first blacktop road east of the Interstate 55 overpass.

Hornback said he discovered the fire when he smelled smoke while watching television at 7:15 p.m. The fire apparently started in electrical wiring.

Hornback and his wife fought the fire with a hose.

Firemen extinguished a fire in an exhaust fan above the grill at James Drug Store, 129 East Front, at 10:30 p.m. Saturday. Only the fan motor was damaged by fire.

A fire was reported at 1:15 p.m. Sunday at the Phillip Gossett residence at 114 Reuben. Water from heavy rain seaped under the floor and interfered with the functioning of the furnace. No serious damage was caused.

An automobile owned by W. W. Wilkerson, parked near the Nancy Sweet Shop, highway 61 South, backfired at 5:30 p.m. Sunday and caused a minor fire, firemen reported.

Another car fire was extinguished Saturday night at Scott and Daniel. An automobile owned by J. D. Schaffer apparently caught fire after a backfire, firemen said.

ALLEN BOULEVARD became a lake Sunday when it was overflowed from a heavy rain runoff north of Salcedo road and in the Green Meadows area. The camera is pointed north from Wakefield. The houses at left are those of John Harper and Lawrence Cleek.

LOOKING SOUTH on Allen boulevard when rain water covered the street six to eight inches deep at noon Sunday at the Wakefield street intersection. The homes of Frank Armstrong and David Bailey are on the left.

Prospects for a good cotton crop dimmed with the heavy rainfall that struck the area Saturday and Sunday and left several fields covered with water.

A total of eight inches of rain fell in Sikeston Saturday and Sunday bringing the month's total to 12.25 inches.

Four of the five inches of rain that fell here Sunday came between 4 a.m. and 8 a.m. Rain continued to fall throughout most of the day. Three inches of rain fell Saturday.

No serious damage was reported in the city due to the storm, City Manager W. Raymert Miller said. Washouts occurred on Anderson, Ingram and Compress roads. Surface water remained in several intersections and a few small limbs were downed, he said.

Lightning struck the police radio tower Sunday morning and knocked out service temporarily. The damage has not been completely remedied today, although the radio is operating.

Electrical service was stopped for about 100 farm customers of REA between 6 a.m. and 11 a.m. Sunday, James Stephenson, manager, said. Lightning struck a transformer and oil circuit breakers near Miner and affected about one third of the customers in area near Miner and north, he said.

Another 25 customers near East Prairie were without power for about two hours after a car struck a utility pole three miles northwest of East Prairie on Miller Road Saturday night, Stephenson said.

Missouri Utilities Co. reported that the storm caused only minor problems, with no serious outrages. Three men were working for 12 hours Saturday to restore the damaged lines in Lilbourn caused by the fire that destroyed three downtown businesses, Bill Proffer, manager, said.

Several roads in the area were covered by water, Barney Monroe, maintenance engineer for District 10 of the State Highway Department, reported.

Two places on Route E south of Morehouse had 4 to 5 inches of water standing Sunday. Water was standing on Highway 61 north of Sikeston at the Tanner Road intersection and near the Joel Montgomery residence, he said. Routes 80, 62 and 102 in the area also were covered with water in places, he said.

The next week is critical to

Charles S. Raizen

Industrialist Raizen Dies In East

NEW ROCHELE, N. Y. — Charles S. Raizen, chairman of the board of the Transogram company, Inc., died Saturday night after a short illness at his home.

He founded the company 52 years ago. Anchor Toy in Sikeston, Mo., founded in 1955, is one of six subsidiaries.

He was present at dedication ceremony of the company here in 1955 and visited Sikeston once each year since.

He was scheduled to visit here next month.

Raizen spoke at the annual Chamber of Commerce banquet in 1956.

Active in civic, Masonic and charity organizations, he founded a charity organization in the East that bears his name.

Surviving are his wife, Mrs. Patricia Raizen; a daughter, Mrs. Lee Fadem, and a son, Ray Raizen, all of New Rochelle.

Services will be in New Rochelle Tuesday.

The Anchor Toy Company in Sikeston will be closed tomorrow, in respect to him.

Three Held in Burglary

HAYTI — Three young men were apprehended at a road block at Portageville following the burglary of about $100 at Graue Grocery store last night.

The highway patrol said the store owner, Hoot Graue, had returned to his store at 10 p.m. last night and saw two men in the store. One of the burglars threw a crate through a window and jumped out of it as Graue fired a shot at him. The burglar shot back with a .38 calibre pistol and fled, troopers said.

Graue surprised the men after they had broken down a rear door with a sledgehammer.

The front window was shattered by the case of oranges one of the men tossed through it in making his escape.

Graue recognized the pair and notified the highway patrol.

At 10:30 p.m. troopers Randal Bess was investigating an accident north of Hayti on U. S. 61. He had the loud speaker on his patrol car turned on so that he could hear the police while investigating the accident.

He heard the report on the burglary and noticed a car pass by with three youths in it. The radio dispatch gave the names of the two youths recognized by Graue. When the occupants of the car heard their names being broadcast over the police radio, they sped away in their car. Trooper Bess notified Portageville police, who set up a road block.

Apprended were Cecil Moody, 18, Billy Brimhall, 19, and Danny Powers, 18, all of Hayti. Moody and Brimhall, who were the two identified by Graue, have admitted the theft, but Powers denies any knowledge of it.

About $79.50 was found in the car and another $20 was scattered on the store floor.

The three are being held at Pemiscot county jail at Caruthersville. Charges were expected to be filed today.

14 Treated

Fourteen persons were treated Saturday and Sunday in the Missouri Delta Community hospital emergency room for accidents - ranging from automotive, snake bite and stab wounds.

Ginger Hughes, cut foot on glass while wading; Daryle Wayne Mays, fell off ladder at his home; Ronnie Lynn Standridge, stepped on nail. All were admitted on Saturday.

Admitted on Sunday were Jimmy Dodd, snake bite on hand; James Baker, injured in car accident; Jewell D. Woods, Anniston, injured in car accident; Jesse O. Bonner, treated for stab wound; Larry Dick of East Prairie, injured in fight; Joy Lannum, injured in fall; Stephen Burke, Charleston, injured in fall. Wanda Copeland, treated for dog bite; Eugene Fodge, Helen Fodge and Michael Fodge, Benton, injured in car accident.

Rise Predicted For Food Prices

WASHINGTON (AP)—American housewives will be paying two to three per cent more for groceries by this summer, the Agriculture Department predicted today.

The anticipated hike in retail food prices is expected to wipe out a decline of nearly one per cent during the first three months of the year, then advance another one or two per cent on top of that.

For the year as a whole, the department forecasts an average jump of about 1.7 per cent in food costs above last year.

Primarily because of the projected price hikes, consumers are expected to spend about $94.6 billion for food this year compared to $91 billion in 1966.

The forecast for higher retail food prices comes at a time when prices paid farmers for food they produce are down nearly 10 per cent from last summer and seven per cent below last year's average.

Some of the expected increase in retail food prices would reflect anticipated upturns in some farm prices, particularly for meat animals. Somewhat reduced marketings of cattle and hogs are expected as a consequence of some contraction in livestock production under the pressure of prices unsatisfactory to farmers.

The department said current indications point to an increase in both production and marketing of farm commodities this year, with the upturn concentrated in crops.

Because consumer incomes went up while food prices eased off slightly, the department said consumers spent an averags of 17.5 per cent of their income for food during the first quarter of the year, the lowest of record. Last year, the percentage was 18.5.

Items expected to rise later in the year besides meats include eggs, poultry and possibly some dairy products. Items expected to continue near present levels include citrus products, canned fruits, processed vegetables, potatoes and cereal products.

Money Bills In Spotlight

JEFFERSON CITY (AP)—Major money bills will preoccupy the Missouri Legislature this week as the Senate opens debate on them Tuesday.

What happens to them may determine the fate of several other measures, including possible expansion of state participation in the medicaid program.

The limited medicaid bill passed by the Senate comes before the House Social Security Committee Tuesday night. It is expected to consider a substitute that would go beyond Gov. Warren E. Hearnes' original limited recommendations.

It all depends on what happens to the major appropriation bills and whether the revenue estimates of Budget Director John C. Vaughn stand up. He says he is confident they will and there will be money to spare after the governor's bud-

See No. 2 Page 10

Home Rule Again Gets Hearnes Plug

ST. LOUIS (AP)—"Local government is and must remain the central pillar that will sustain our democratic society," Gov. Warren E. Hearnes said today.

The Governor made his remarks in a speech prepared for delivery to the Mayors' Seminar at Washington University.

In discussing the financial problems of municipalities and the state-local government relationships, Hearnes said, "specific attention must be directed toward devising alternatives to the present over

See No. 1 Page 10

Debt Ceiling Request Climbs

WASHINGTON (AP) - Secretary of the Treasury Henry H. Fowler asked Congress today to raise the ceiling on the national debt to $365 billion, up $29 billion from the present ceiling.

Beside asking for one of the biggest single increases in history, Fowler recommended that the new ceiling be made permanent.

At present the permanent ceiling is $285 billion, and various temporary increases have been granted on top of that.

The latest of these expires June 30, at which time, Fowler said, the debt is expected to be about $327 billion.

237 Adults Complete Vocational Training

Bill Sikes, director of the manpower development and training program at the high school, told the Optimist Club at a breakfast meeting today that 237 adults completed the vocational training course in the first year.

"Of this group," said Sikes, "192 are employed. You may look on this program as an expensive federal expense, with a cost of $31 million, but the 63,000 trainees, who completed the course, have a yearly income of $17 million."

There are 250 trainees in the Sikeston program. A total of 1,730 adults have been enrolled from the start of the program. Sikeston is headquarters of one of three programs in Missouri. The others are at St. Louis and Kansas City.

The program is designed to teach a trade. Of those who have completed the instruction, 85 per cent are employed, Sikes said.

The yearly staff payroll is $180,000.

Enrollees in the program are paid $50 per week.

The program provides instructions for 10 vocations. It is provided for school dropouts, unemployed persons and persons forced out of employment because of economic change.

There have been 477 persons in the program since January of 1966. Dropouts number about 16 per cent.

The Sikeston program covers an area of 20 counties.

Bomb Threat Disturbs Hotel Guests in 3 States

By ROBERT M. SHAW

LAS VEGAS, Nev. (AP) — A bomb and a note demanding $75,000 were found in a tower room at the Sahara Hotel-Casino on the Las Vegas strip today after thousands of guests were evacuated from Del Webb hotels in Nevada, California and Arizona.

The Clark County sheriff's office said the bomb was found after a man called the pit, or center of the gambling area, in the Sahara and said the device was set to go off about 5 a.m.

Deputies found the bomb in Room 4014 on the 12th floor of the hotel-casino. It was in a wooden box attached to a wall in a closet.

Officers hooked a rope around it and pulled it down. They dragged it to a service elevator and out the back of the building. There was no explosion.

Inside the box were a series of plastic pipes filled with powder, deputies said. They were unable immediately to identify the type of powder.

Near the device was a page-long single-spaced typewritten note with several grammatical and spelling errors. The note read in part:

"The bomb inside this closet is not movable in any direction and is set to explode exactly five hours from the time you are notified of its presents (sic).

"The bomb can be disarmed, but only by its' (sic) maker and by special instructions.

"Disarming is accomplished by pressing one of the 12 buttons on the top. The remaining buttons will detonate the bomb.

"In addition to this bomb,

Tracking Expert Joins Search

HANNIBAL (AP) - A Missouri state employe skilled in tracking was brought into the search today for three boys who may be lost in a network of caves underlying Hannibal.

The search for Billy Hoag, 11; Joey Hoag, 13, and Craig Dowell, 14, was in its fifth day. The boys were believed to be exploring caves when last seen Wednesday.

Terry Hill of the Missouri Department of Correction was called in from Moberly to join parties pushing an above-ground search. Hill will try to find a footprint or other clue.

Sharon Hatley To Play Piano Part in Concert

Sharon Hatley, daughter of Mr. and Mrs. Atlas Hatley, will play the featured piano part in Don Gillis' "Fields in Summer", with the Sikeston high school band tonight at the high school band shell.

Miss Hatley plays French Horn in the band and horn quartet and is a member of the concert choir and modern chorale. She has also been awarded a band scholarship at Southeast Missouri State College at Cape Girardeau for the coming year. Other incidental soloists will be Linda Werneck, Jan Harper, Judy Murchison, and Mary Anne Bruce.

The annual pop concert will start at 8 p.m.

Sharon Hatley

Five Injured in Area Traffic Accidents

Pam Moss, 22, Charleston was injured seriously in a one-car accident on highway 62, one-half mile west of Charleston at 9:10 p.m. Saturday.

Troopers said the car, driven by Judy Montgomery, 21, Poplar Bluff, went out of control on a curve, ran off the road and hit a utility pole. Miss Moss was taken to the Missouri Delta Community hospital.

Two Benton girls were injured in a two-car collision at 4:10 p.m. Sunday on highway 61 in Benton.

The highway patrol said a car driven by Lena Legrand, 51, Benton, pulled out from a side street into the path of a car driven by Harriet Swinger, 18, Benton.

Injured were Miss Swinger, cuts and a bump on the head, and Betty Stuckey, 18, Benton, a passenger in her car, cut lip and mouth. Both were taken to a Cape Girardeau hospital.

Mrs. Legrand was charged with careless and reckless driving and with failure to yield the right of way.

James Baker, 21, Sikeston, sustained cuts and bruises when he fell asleep while driving on highway 62 in Miner Sunday at 1:45 a.m. troopers said.

His car went off the road and overturned. He was taken to the Sikeston hospital.

Jewell Woods, 23, Anniston, the driver, sustained a cut lip and chin in a one-car accident four miles north of East Prairie on a blacktop road at 12:30 a.m. Sunday.

The driver lost control of the car, which went into a ditch and struck a utility pole, troopers said. The driver, who was taken to the Sikeston hospital, was charged with careless and reckless driving.

Snider Outlines Seven-Stage Plan for Building Interstate 55

CAPE GIRARDEAU -- The 67.5 miles of Interstate 55 from Fruitland north to Festus will be constructed in seven stages, Chief Engineer M. J. Snider of the state highway department told the Chamber of Commerce today.

He also said that proposed relocation of Missouri route 74 from Blomeyer east to Interstate 55 in the Cape Girardeau area would depend on whether land is furnished for the new highway without cost to the state.

Snider also discussed the long range state highway needs.

The engineer stressed the word "tentative" in describing the timetable for constructing Interstate 55 citing rising costs, the availability of federal funds and difficulty of obtaining right - of - way as factors which could produce delay.

The timetable recently was advanced by a year.

"It is incorrect to assume that all of the Fruitland - Festus section of Interstate 55 will be completed in 1971," Snider said. "Tentative plans are to have all of the route under contract by that time but completion of the entire segment will not be until after that.

"There will be seven separate projects involved in building the 67.5 miles of Interstate 55 from Fruitland to Festus, and they will be located in four counties -- Cape Girardeau, Perry, Ste. Genevieve and Jefferson," he said.

"These projects have been so scheduled so motorists will be able to utilize each one as it is completed because of their tie - ins with existing state highways.

"The total cost of the 67.5 miles is estimated at $51,052,000, which includes preliminary engineering, right of way acquisition and actual construction.

"Now let's look at the tentative schedule - project by project and county by county -- for building this portion of Interstate 55. I will start on the south and work north with my explanation. Official 1967 Missouri state highway maps have been distributed to you in the event you want to locate the projects for yourselves.

"Cape Girardeau county: There is one project involved in the completion of Interstate 55 in Cape Girardeau County.

"It will extend for 13.1 miles from near Fruitland north to the Cape Girardeau - Perry County line. Right of way for this project now is in the process of being acquired. Our tentative schedule calls for awarding the project to contract for construction in fiscal year 1971, which is the period from July 1, 1970, through June 30, 1971.

"Perry County: Two projects will carry Interstate 55 entirely across Perry County.

The first is 11.1 miles along, extending from the Perry - Cape Girardeau County line north to just north of Missouri Route 51 at Perryville.

The second is 9.3 miles long and goes from north of Mis-

POOR CHARLIE SAYS!

AUTOMATION - PLEASE DON'T BEAT THE STOCKING FRAMES

When machines were first introduced in England in the 18th century, workers often rioted and destroyed the machines, believing they would put them out of work.

In the stocking industry 1,000 stocking frames were destroyed in a single riot, but, by the end of the 19th century, workers employed in the stocking industry multiplied a hundred fold.

There were an estimated 7,900 persons employed in the cotton textile industry in England in 1760 when the spinning machinery was invented. Fear of job loss caused hysteria among the textile workers, and armed force was required to overcome opposition to machine installation. Yet, 27 years later, the number of people employed in the cotton textile industry had risen from 7,900 to 320,000.

Mention of such increases usually stimulates the challenge, "It may be true that the invention of machines resulted in more jobs in the past, but things are different now."

Are they?

Just a few years ago, some commercial airline pilots were worried about the use of the jet airliner in airline service. With the increased size and speed of the jet planes, pilots were predicting that far fewer flights, and fewer pilots, would be needed.

What they did not understand was the very thing that worried them most; the increased speed of the jets. Managers of airlines noticed that their big, new jet airliners completed their trips so much more quickly than the older propellor planes that they often sat idle for many hours of each day. Machinery only earns money when it is in use, so airlines began searching for new ways to keep their new jets flying and earning throughout the day.

Until recently, an airplane carried passengers or freight; it couldn't do both. Now, however, the genius of personal enterprise has produced a means whereby, in less than 20 minutes, passenger seats are removed to make room for freight. Conversely, on 20 minutes notice, the seats can be replaced, and the freight carrier is ready to take on passengers.

With this innovation, airlines put aircraft to greater use, and are adding hundreds of pilots to their payrolls.

The airline industry is not unsual in this regard. The telephone industry is another example of automation. In 1940, the Ohio Bell Telephone Company employed 9,894; in 1960, there were 19,795 on the payroll - one which, starting in 1940, grew from $18.4 million to $113 million in 1960. While payrolls were increasing, the rates charged customers decreased almost 50 percent. The number of their customers tripled and the number of long-distance calls quadrupled: another way of saying each employee's ability to produce increased, a feat that can be accomplished by using faster and better equipment.

But. Isn't it possible that in some businesses the use of machines will reduce the need for employees? And wouldn't this cause increasing unemployment? In some instances, the use of machines will reduce the number of jobs, but will not throw men out of work permanently.

First, the new machines that replaced workmen on a job must be made by someone. New jobs come into existence when men are hired to make new machines. The jobs that are done away with by the machines are at least partly offset by the creation of new jobs in making, selling and repairing the new machines. This is why so much emphasis is being placed on manpower retraining.

The manufacturer who buys new machines does so in order to cut costs and increase profits. To the workman concerned about keeping himself employed, these profits are of utmost importance. There are several ways in which the manufacturer's profits will create more jobs. He may enlarge his production by buying more machines, which would require more workmen to operate the machines and to produce them. Such was the case with the airline industry which ordered more jet airlines.

If the manufacturer who realizes profits from the use of new machines decides not to purchase more, he will likely invest his profits in other ventures - creating more jobs.

If other manufacturers see the great gains made by the manufacturer who installed new machinery, will they buy the same machinery, thus forcing down prices and profit? Wouldn't this cause a reduction in the number of jobs? Except for a couple of things, it could.

Lower prices will affect customers in one or two ways: they will buy more - perhaps increasing jobs; or, the money saved as a result of lower prices can be spent on other things, maintaining the number of jobs or increasing them.

Seen from any standpoint, the fear that machines and automation will throw men out of work permanently is groundless. Automation has been increasing steadily for more than 200 years. If this did cause unemployment, by now there would be no jobs.

The world population today is 6.5 times as large as it was in the early 18th century when machines first came to use. Machines and automation have made possible the production of enough necessities of life to support this increase in population.

In underdeveloped nations with little or no machinery, everyone works hard, and this backbreaking labor barely keeps them alive. The purpose of automation is to increase production; not only has it accomplished this purpose, it has reduced the physical effort required of man.

Multiple sclerosis is called the "great crippler of young adults." It is a long term disease of the brain and spinal cord in which nerve messages are blocked or scrambled. It usually strikes between the ages of 20 and 40. An estimated 500,000 Americans are afflicted with MS and related diseases.

It is a community problem because of its impact on productive young adults. It is estimated that the disease creates a $2 billion annual loss to business. Two out of every three victims of the disease are from the work force. Trained personnel are disabled in their peak years. The business community feels its impact by the loss of buying power of some 2,000,000 people - the patients and their families.

MS also causes a heavy tax burden for business due to the need for public support of MS families who have lost their wage earner and must bear the cost of life-long care.

The National Multiple Sclerosis Society is currently conducting its annual Hope Chest campaign, and it needs our help, yours and mine, private citizens and business corporations, alike. The cause and cure for MS remain unknown. But the Society's research program is delving into the mysteries of MS in leading medical centers both here and abroad Somewhere the answer will be found.

Our community, we are sure, will respond to the appeal by the Scott County Chapter of the Society as we do to all good causes. Saving the future young adults of Sikeston from the misery of multiple sclerosis is a good cause.

Persons over 30 should not drive cars equipped with fully tinted windshields, says Dr. Merrill Allen of the Indiana University Division of Optometry. The tint cuts after-dark visibility of areas illuminated by headlights by 25 per cent, and reduces the possibility of seeing brake lights on other cars by 60 per cent. These effects are especially serious for persons over 30, who usually suffer from worsening vision.

One cold winter's day a lady midget hobbled into a doctor's office. After waiting her turn for an hour, she finally got in to see the doctor and reported that she was suffering from a severe irritation between the legs.

"Is the pain a constant one?" asked the doctor.

"No," she said, "I notice it mostly when I go out on cold snowy days."

"Well, sit up on this table and let's examine you," said the doctor.

He instructed her to lift her skirt, whereupon he studied the situation, then produced a pair of medical shears from among his instruments. While she waited fearfully, he began snipping.

"Aren't you going to use an anesthetic?" she asked. "That won't be necessary," he reassured her. "All right," he said at last, "get down from the table and try walking now."

She did so, and reported amazed. "Why I feel wonderful. What did you do?" It was simple" said the medic. "I just cut 2 inches off the top of your galoshes."

* * *

COMPOUNDING CONFUSION

If nothing else, the two year, $2.5 million study of the food industry conducted by the National Commission on Food Marketing will go down in history as one of the most bewildering investigatory performances ever to appear on the public scene. Many of its conclusions are based on the erroneous premise that there is undue and growing concentration in the food marketing industry and that competition is not an effective regulator.

On these subjects, the minority report of the Commission says, in regard to the ease of entry into the food retailing business, "It is one of the most dramatic features of the industry. Entry into the market is not encumbered by any potential technology, secret know-how, up in 1959 with an investment of $21,000 and wound up 6 years later with 30 stores doing nearly $115 million in annual sales. As to the degree of concentration, the top food chains accounted for 18.4 per cent of total food store sales in 1963, the latest year available, down from 19.3 per cent in 1958.

At a time when there is great need for wide public understanding of the American competitive economic system, the work of the Food Marketing Commission appears to have merely compounded confusion and misunderstanding. As an official of a large food chain store asserts, "We are disappointed at the failure of the Commission to tell us what we think we deserve to hear about our industry. We believe that the record calls for a more favorable continued scrutiny. And so will it ever be because the efficient and responsible performance of our industry is vital to our country."

Hal Boyle

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

One of history's greatest real estate bargains was the purchase of Alaska from Russia by the United States 100 years ago. The price -- $7.2 million -- amounted to two cents an acre.

Too much sleep can leave you tired. It has been found that people who sleep nine or more hours a night have less energy than those who spend few hours in the sack.

Despite all the jokes about matrimony there is a big rush to the altar in the United States. Two-thirds of the women and more than a third of the men are married by the age of 21.

If you're powerfully thirsty, you can't fare better anywhere than Canada. Our northern neighbor - Uncle Sam's greatest customer — has about one-third of the world's supply of fresh water.

Windows broken by vandals cost the New York City school system more than a million dollars every year. The solution? A new safety glass so strong that it can stand pounding by a baseball bat without shattering.

If someone asked you to name the five most important metals in the world on a tonnage basis —and heaven only knows you can be asked anything these days —what would be your reply? The correct answer would be iron, copper, aluminum, zinc and lead, according to the National Geographic Society.

Quotable notables: "I tell you, you will serve only your God, because man is too noble to serve anyone but God.---Stefan Cardinal Wyszynski of Poland.

Although this is the most vehicle-using nation on earth, 50 per cent of Americans have some form of foot trouble, podiatrists say.

Smoke a pack of cigarettes a day? That means you take between 60,000 and 100,000 puffs a year. My, doesn't that leave you breathless?

The hiccup is one of man's oldest afflictions. In the Middle East it was pictured on ancient clay and stone tablets.

It was Will Rogers who observed, "One-third of the people in the United States promote while the other two-thirds provide."

Washington Merry - Go · Round

By Drew Pearson

WASHINGTON -- It's now learned that the drug industry hired a detective to shadow a senate witness who's testifying today (May 15). The witness is William Haddad, former crack reporter for the New York Post and son - in - law of John Hay Whitney, owner of the now defunct New York Herald Tribune.

Haddad was retained as an investigator by the late Sen. Estes Kefauver into the rigged high prices of drugs and is testifying currently in the probe of Sen. Gaylord Nelson, D-Wis.

Haddad's investigation took him to Latin America, where he uncovered confidential company documents, many with "Destroy This" written across the bottom, proving that an international cartel was deliberately keeping drug prices high.

He also conducted surveys in this country showing that drugs could be bought under their generic names for only a small fraction of the price charged for the identical drugs purchased under their trade names.

These pricing policies have kept vitally needed drugs from the sick and suffering who couldn't afford them.

When Haddad went into business for himself as a political consultant, he was hired by Miami's Mayor Robert High to help run his successful primary campaign for the Democratic gubernatorial nomination.

Suddenly, a detective appeared in town to see Dan Sullivan, head of the Miami Crime Commission. The investigator brought along excerpts from Haddad's FBI charging that he was a Communist and had operated Communist youth camps in St. Petersburg, Fla.

What the excerpts did not say was that these charges came from crank letters, and had been completely disproved.

Actually Haddad, who served as an associate director of both the peace corps and war on poverty program, held the highest clearances in the federal government. And the FBI found there had never been a Communist youth camp in Florida.

Dan Sullivan, however, passed the information to Mayor High, and the detective then called on the mayor himself. During this interview, the private eye confided that he had been hired by a New York detective agency to gather dirt on Haddad. The agency, by an interesting coincidence, had done work for the drug industry.

WHO LIED,

MEANY OR PEARSON?

After this column revealed last February that central intelligence had been pumping money into the AFL - CIO to influence foreign labor unions, President George Meany was questioned on this subject by newspapermen in Florida, where the AFL-CIO executive council was meeting.

"Do you have any knowledge at all of any AFL - CIO affiliates having received funds directly or indirectly from the CIA?" Meany was asked.

"None whatsoever," he replied.

"What about the charge made by Drew Pearson in this morning's paper that two AFL-CIO officials, Jay Lovestone and Irving Brown, have been channeling CIA money to foreign--."

"I think that's about on a par with the stuff that Drew generally writes," Meany interrupted. "Drew is a liar by choice, and you can put that in quotes. The truth is not in him, and I pay no attention to any statement he makes."

Last week, Thomas Braden, former high executive of central intelligence, revealed in detail in the Saturday Evening Post how he had channeled CIA money to both the AFL and CIO.

Walter Reuther promptly admitted he had received money from Braden.

The public can decide for itself, despite Meany's continued denials, who is the liar.

GLEEFUL EV DIRKSEN

An amazing paradox on Capitol Hill is the fact that elder statesman Sen. Ev Dirksen, the Republican leader, is still pushing for a constitutional convention to reverse the supreme court on the reapportionment of state legislatures.

Yet, at the same time, most states which have reapportioned their legislatures are delighted over the supreme court ruling and find state government more responsive and more efficient.

This is particularly so in Dirksen's home state, Illinois, where the Chicago suburbs, hitherto with little representation in the legislature as against downstate rural areas, now have a real voice. Since the suburbs are largely Republican, this should be a plus for the gnarled senior senator from Illinois.

However, he doesn't regard it that way. One explanation may by that Ev still has an ear for the mating call of the Springfield lobbyists. In the days before the Illinois legislature was reapportioned, a handful of lobbyists could control the entire legislature. All they had to do was to subsidize enough downstate rural legislators. Today it's different.

Could it be that Ev is more interested in his lucrative Peoria law firm than in the strength of the Republican party in Springfield?

Note: Never before in the 180 - year history of the United States has a constitutional convention been held. But Dirksen is gleeful over the fact that he is now within two states of getting such a meeting.

TROUBLE WITH NASSER

Secretary of State Rusk has authorized the American Embassy in Yemen to close down--if the Yemen government does not honor the diplomatic status of our embassy personnel. Two aid officials have been arrested by the government on charges of sabotage.

Yemeni officials, influenced by the Egyptians who hold the real power in Yemen, have also inspired anti - American demonstrations and insults.

H. L. Hunt Says

IT'S OUR FLAG

Not long ago an American Flag was publicly burned in New York City during a so-called peace march. More recently, a professor at a college in Indiana burned a Flag before his students. Pictures have appeared in newspapers and on television screens showing individuals kicking or otherwise desecrating the United States Flag.

The vast majority of Americans undoubtedly are shocked and saddened, disgusted and angered by these incidents. Most will agree wholeheartedly thst such incidents must not be allowed to continue. The American Flag is the symbol of our Republic. It is deserving of great respect by all who call themselves Americans.

Our nation rightly is proud that the Constitution lays down the right of free speech and free assembly. These are among the rights characterized as inalienable by the Founders of Freedom in the United States. But these rights do not include the right of anyone to desecrate our National Banner.

At present there is, strangely enough, no national law providing punishment for the offense. That lack can be remedied. A number of Congressmen have introduced legislation to protect the Flag. Committee hearings on these bills will be held in the near future. It is to be hoped that the committee will report favorably on a measure to provide fitting punishment for those who desecrate the Stars and Stripes -- and that favorable action by the Whole Congress will follow shortly. Any American has a right to disagree with a government policy. No American has a right to trample upon or otherwise profane the Flag of the United States. HLH.

Doc. Duncan Says

Gramp, I got a crow to pick wid you. O.K. shoot.

Them officeholders you been snipin at in the papers belongs to your church.

So what? If a man turns hipocrit and violates his oath and obligation then he deserves more damnation if he wuz raised in your town, county or state, belonged to your church, club, lodge or party.

You see, he's betrayed your confidence. You see, you wouldn't voted fur him if you'd knowed he waz that kind.

Inside Labor

By Victor Riesel

Teamsters' Junta Sends Word to Imprisoned Hoffa He's Through; New Convention Will Elect New Leaders.

Washington, D. C.: -- It's the last mile for Jimmy Hoffa. He's had his final excursion, lots of fresh air, a 1,450 mile round-trip auto ride -- and the grapevine's word from a junta of Teamsters' leaders that he is finished as a power in the Teamsters.

Back in prison, he can mend mattresses but not fences. The message was cold and absolute. Even his caretaker government in the Teamsters Brotherhood under Frank (Fitz) Fitzsimmons is finished. It will last only as an administering operation until a special convention is called. The junta is working on that. It will be called within a year.

The old order has changed. And not because "Fitz" fumbled the spread - eagle, intricate trucking negotiations. Those of us who have microscoped the new pact know that it calls for almost 100 per cent more than Hoffa won during the last go round in '64. At that time the general president got a 41.5 cent raise over three years.

Now with a cost of living increase of any size, the agreement can bring as much as 78 cents an hour more - at least by a conservative projection. Of course, most of this will be passed on to the shippers and then to we, the people.

So Fitz has delivered as the Acting General President. At his side were many of the Teamsters vice presidents--- but not the "egg - head" Harold Gibbons who, as recently as two weeks ago, was publicly defending his former chief.

There were reports that the junta told off "Fitz" during the recent high command session in Chicago. Not so. They told off Hoffa. They quietly told Fitz that they had told their regional and local people to start going through regional council leaders and local union officials -- and not to lift a phone and call national headquarters for a muscled hand and a swift call from the national President. Those days are over.

But it was Hoffa, not Fitz who was the target. The acting president truly is the junta's prisoner. They can remove him when they wish. But not yet. There's a power vacuum in the national marble palace. However, there is no need yet for an empty chair. For the moment, it was important to let Hoffa know he must stop dreaming of running the union from prison or of ever returning to it.

There are enough anti - Hoffa votes now on the General Executive Board to call a special convention. It's all spelled out in the new construction which few have bothered to read. Article 9, Section 8 states that a special convention may be called when two - thirds of the board deem it necessary. Well, they now deem it vital. The board can set the rules for the special convention -- which "shall have the power to change any provision of the Constitution except the provision dealing with the terms of office for officers . . . and the provision dealing with salaries and expenses of officers."

This simply means that the special convention can do anything regardless of what the constitution says except change the length of the terms of national officers from five years and the salaries, for example, of the president ($100,000 annually) and the secretary-treasurer ($75,000).

Thus two - thirds of the board -- nine members by a legal count now that Hoffa is in for the duration -- can revamp the entire Teamsters structure and elect new officers.

But who shall they be? Who are in the three - man junta which now is the governing force? Insiders say they are the quiet man, Einar Mohn, head of the Western Conference; Murray (Dusty) Miller of Dallas and Tom Flynn of Washington.

Insiders say that Mohn, a member of the California Board of Regents, can have the presidency if he wants it. And Tom Flynn can step into the secretary - treasuryship now occupied by the teertering octogenarian, Johnny English.

It's now a matter of the 60-year - old Mohn -- who actually ran the Teamsters under Dave Beck -- deciding whether he wants to move back to this churning capital he dislikes.

On his decision hangs national and international history and headlines. Mohn is acceptable to George Meany and the rest of the AFL - CIO's high command. So is Meany's old friend, Tom Flynn, head of the Eastern Conference. Meany has conferred with both men over the years. This means that the Teamsters' 1.8 million members could well be inside the AFL - CIO by the federation's December 1967 convention in Florida, but certainly by the 1969 biennial convention if Mohn and Flynn become the Teamsters' leadership team. That would make a powerful coalition of virtually 16 million members. What difference then to the federation if Walter Reuther pulls out.

Return of the massive prodigal would give the AFL-CIO enormous organizing strength and considerable funds for national and world- wide action.

Soon, indeed, Hoffa will be just a forgotten serial number. The rumble of new labor history will obliterate his last mile.

POOR CHARLIE SAYS!

AUTOMATION - PLEASE DON'T BEAT THE STOCKING FRAMES

When machines were first introduced in England in the 18th century, workers often rioted and destroyed the machines, believing they would put them out of work.

In the stocking industry 1,000 stocking frames were destroyed in a single riot, but, by the end of the 19th century, workers employed in the stocking industry multiplied a hundred fold.

There were an estimated 7,900 persons employed in the cotton textile industry in England in 1760 when the spinning machinery was invented. Fear of job loss caused hysteria among the textile workers, and armed force was required to overcome opposition to machine installation. Yet, 27 years later, the number of people employed in the cotton textile industry had risen from 7,900 to 320,000.

Mention of such increases usually stimulates the challenge, "It may be true that the invention of machines resulted in more jobs in the past, but things are different now."

Are they?

Just a few years ago, some commercial airline pilots were worried about the use of the jet airliner in airline service. With the increased size and speed of the jet planes, pilots were predicting that far fewer flights, and fewer pilots, would be needed.

What they did not understand was the very thing that worried them most; the increased speed of the jets. Managers of airlines noticed that their big, new jet airliners completed their trips so much more quickly than the older propellor planes that they often sat idle for many hours of each day. Machinery only earns money when it is in use, so airlines began searching for new ways to keep their new jets flying and earning throughout the day.

Until recently, an airplane carried passengers or freight; it couldn't do both. Now, however, the genius of personal enterprise has produced a means whereby, in less than 20 minutes, passenger seats are removed to make room for freight. Conversely, on 20 minutes notice, the seats can be replaced, and the freight carrier is ready to take on passengers.

With this innovation, airlines put aircraft to greater use, and are adding hundreds of pilots to their payrolls.

The airline industry is not unsual in this regard. The telephone industry is another example of automation. In 1940, the Ohio Bell Telephone Company employed 9,894; in 1960, there were 19,795 on the payroll - one which, starting in 1940, grew from $18.4 million to $113 million in 1960. While payrolls were increasing, the rates charged customers decreased almost 50 percent. The number of their customers tripled and the number of long-distance calls quadrupled: another way of saying each employee's ability to produce increased, a feat that can be accomplished by using faster and better equipment.

But. Isn't it possible that in some businesses the use of machines will reduce the need for employees? And wouldn't this cause increasing unemployment? In some instances, the use of machines will reduce the number of jobs, but will not throw men out of work permanently.

First, the new machines that replaced workmen on a job must be made by someone. New jobs come into existence when men are hired to make new machines. The jobs that are done away with by the machines are at least partly offset by the creation of new jobs in making, selling and repairing the new machines. This is why so much emphasis is being placed on manpower retraining.

The manufacturer who buys new machines does so in order to cut costs and increase profits. To the workman concerned about keeping himself employed, these profits are of utmost importance. There are several ways in which the manufacturer's profits will create more jobs. He may enlarge his production by buying more machines, which would require more workmen to operate the machines and to produce them. Such was the case with the airline industry which ordered more jet airlines.

If the manufacturer who realizes profits from the use of new machines decides not to purchase more, he will likely invest his profits in other ventures - creating more jobs.

If other manufacturers see the great gains made by the manufacturer who installed new machinery, will they buy the same machinery, thus forcing down prices and profit? Wouldn't this cause a reduction in the number of jobs? Except for a couple of things, it could.

Lower prices will affect customers in one or two ways: they will buy more - perhaps increasing jobs; or, the money saved as a result of lower prices can be spent on other things, maintaining the number of jobs or increasing them.

Seen from any standpoint, the fear that machines and automation will throw men out of work permanently is groundless. Automation has been increasing steadily for more than 200 years. If this did cause unemployment, by now there would be no jobs.

The world population today is 6.5 times as large as it was in the early 18th century when machines first came to use. Machines and automation have made possible the production of enough necessities of life to support this increase in population.

In underdeveloped nations with little or no machinery, everyone works hard, and this backbreaking labor barely keeps them alive. The purpose of automation is to increase production; not only has it accomplished this purpose, it has reduced the physical effort required of man.

The Colonel said: "Some people spend so much time telling what they intend to do that they have no time left to do anything else."

* * *

Multiple sclerosis is called the "great crippler of young adults." It is a long term disease of the brain and spinal cord in which nerve messages are blocked or scrambled. It usually strikes between the ages of 20 and 40. An estimated 500,000 Americans are afflicted with MS and related diseases.

It is a community problem because of its impact on productive young adults. It is estimated that the disease creates a $2 billion annual loss to business. Two out of every three victims of the disease are from the work force. Trained personnel are disabled in their peak years. The business community feels its impact by the loss of buying power of some 2,000,000 people - the patients and their families.

MS also causes a heavy tax burden for business due to the need for public support of MS families who have lost their wage earner and must bear the cost of life-long care.

The National Multiple Sclerosis Society is currently conducting its annual Hope Chest campaign, and it needs our help, yours and mine, private citizens and business corporations, alike. The cause and cure for MS remain unknown. But the Society's research program is delving into the mysteries of MS in leading medical centers both here and abroad Somewhere the answer will be found.

Our community, we are sure, will respond to the appeal by the Scott County Chapter of the Society as we do to all good causes. Saving the future young adults of Sikeston from the misery of multiple sclerosis is a good cause.

Washington Merry - Go · Round

By Drew Pearson

WASHINGTON -- It's now learned that the drug industry hired a detective to shadow a senate witness who's testifying today (May 15). The witness is William Haddad, former crack reporter for the New York Post and son - in - law of John Hay Whitney, owner of the now defunct New York Herald Tribune.

Haddad was retained as an investigator by the late Sen. Estes Kefauver into the rigged high prices of drugs and is testifying currently in the probe of Sen. Gaylord Nelson, D-Wis.

Haddad's investigation took him to Latin America, where he uncovered confidential company documents, many with "Destroy This" written across the bottom, proving that an international cartel was deliberately keeping drug prices high.

He also conducted surveys in this country showing that drugs could be bought under their generic names for only a small fraction of the price charged for the identical drugs purchased under their trade names.

These pricing policies have kept vitally needed drugs from the sick and suffering who couldn't afford them.

When Haddad went into business for himself as a political consultant, he was hired by Miami's Mayor Robert High to help run his successful primary campaign for the Democratic gubernatorial nomination.

Suddenly, a detective appeared in town to see Dan Sullivan, head of the Miami Crime Commission. The investigator brought along excerpts from Haddad's FBI charging that he was a Communist and had operated Communist youth camps in St. Petersburg, Fla.

What the excerpts did not say was that these charges came from crank letters, and had been completely disproved.

Actually Haddad, who served as an associate director of both the peace corps and war on poverty program, held the highest clearances in the federal government. And the FBI found there had never been a Communist youth camp in Florida.

Dan Sullivan, however, passed the information to Mayor High, and the detective then called on the mayor himself. During this interview, the private eye confided that he had been hired by a New York detective agency to gather dirt on Haddad. The agency, by an interesting coincidence, had done work for the drug industry.

WHO LIED,
MEANY OR PEARSON?

After this column revealed last February that central intelligence had been pumping money into the AFL - CIO to influence foreign labor unions, President George Meany was questioned on this subject by newspapermen in Florida, where the AFL-CIO executive council was meeting.

"Do you have any knowledge at all of any AFL - CIO affiliates having received funds directly or indirectly from the CIA?" Meany was asked.

"None whatsoever," he replied.

"What about the charge made by Drew Pearson in this morning's paper that two AFL-CIO officials, Jay Lovestone and Irving Brown, have been channeling CIA money to foreign--."

"I think that's about on a par with the stuff that Drew generally writes," Meany interrupted. "Drew is a liar by choice, and you can put that in quotes. The truth is not in him, and I pay no attention to any statement he makes."

Last week, Thomas Braden, former high executive of central intelligence, revealed in detail in the Saturday Evening Post how he had channeled CIA money to both the AFL and CIO.

Walter Reuther promptly admitted he had received money from Braden.

The public can decide for itself, despite Meany's continued denials, who is the liar.

GLEEFUL EV DIRKSEN

An amazing paradox on Capitol Hill is the fact that elder statesman Sen. Ev Dirksen, the Republican leader, is still pushing for a constitutional convention to reverse the supreme court on the reapportionment of state legislatures.

Yet, at the same time, most states which have reapportioned their legislatures are delighted over the supreme court ruling and find state government more responsive and more efficient.

This is particularly so in Dirksen's home state, Illinois, where the Chicago suburbs, hitherto with little representation in the legislature as against downstate rural areas, now have a real voice. Since the suburbs are largely Republican, this should be a plus for the gnarled senior senator from Illinois.

However, he doesn't regard it that way. One explanation may by that Ev still has an ear for the mating call of the Springfield lobbyists. In the days before the Illinois legislature was reapportioned, a handful of lobbyists could control the entire legislature. All they had to do was to subsidize enough downstate rural legislators. Today it's different.

Could it be that Ev is more interested in his lucrative Peoria law firm than in the strength of the Republican party in Springfield?

Note: Never before in the 180 - year history of the United States has a constitutional convention been held. But Dirksen is gleeful over the fact that he is now within two states of getting such a meeting.

TROUBLE WITH NASSER

Secretary of State Rusk has authorized the American Embassy in Yemen to close down -- if the Yemen government does not honor the diplomatic status of our embassy personnel. Two aid officials have been arrested by the government on charges of sabotage.

Yemeni officials, influenced by the Egyptians who hold the real power in Yemen, have also inspired anti - American demonstrations and insults.

Hal Boyle

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

One of history's greatest real estate bargains was the purchase of Alaska from Russia by the United States 100 years ago. The price -- $7.2 million -- amounted to two cents an acre.

Too much sleep can leave you tired. It has been found that people who sleep nine or more hours a night have less energy than those who spend few hours in the sack.

Despite all the jokes about matrimony there is a big rush to the altar in the United States. Two-thirds of the women and more than a third of the men are married by the age of 21.

If you're powerfully thirsty, you can't fare better anywhere than Canada. Our northern neighbor - Uncle Sam's greatest customer — has about one-third of the world's supply of fresh water.

Windows broken by vandals cost the New York City school system more than a million dollars every year. The solution? A new safety glass so strong that it can stand pounding by a baseball bat without shattering.

If someone asked you to name the five most important metals in the world on a tonnage basis —and heaven only knows you can be asked anything these days —what would be your reply? The correct answer would be iron, copper, aluminum, zinc and lead, according to the National Geographic Society.

Quotable notables: "I tell you, you will serve only your God, because man is too noble to serve anyone but God.--Stefan Cardinal Wyszynski of Poland.

Although this is the most vehicle-using nation on earth, 50 per cent of Americans have some form of foot trouble, podiatrists say.

Smoke a pack of cigarettes a day? That means you take between 60,000 and 100,000 puffs a year. My, doesn't that leave you breathless?

The hiccup is one of man's oldest afflictions. In the Middle East it was pictured on ancient clay and stone tablets.

It was Will Rogers who observed, "One-third of the people in the United States promote while the other two-thirds provide."

Doc. Duncan Says

Gramp, I got a crow to pick wid you. O.K. shoot.

Them officeholders you been snipin at in the papers belongs to your church.

So what? If a man turns hipocrit and violates his oath and obligation then he deserves more damnation if he wuz raised in your town, county or state, belonged to your church, club, lodge or party.

You see, he's betrayed your confidence. You see, you wouldn't voted fur him if you'd knowed he waz that kind.

H. L. Hunt Says

IT'S OUR FLAG

Not long ago an American Flag was publicly burned in New York City during a so-called peace march. More recently, a professor at a college in Indiana burned a Flag before his students. Pictures have appeared in newspapers and on television screens showing individuals kicking or otherwise desecrating the United States Flag.

The vast majority of Americans undoubtedly are shocked and saddened, disgusted and angered by these incidents. Most will agree wholeheartedly thst such incidents must not be allowed to continue. The American Flag is the symbol of our Republic. It is deserving of great respect by all who call themselves Americans.

Our nation rightly is proud that the Constitution lays down the right of free speech and free assembly. These are among the rights characterized as inalienable by the Founders of Freedom in the United States. But these rights do not include the right of anyone to desecrate our National Banner.

At present there is, strangely enough, no national law providing punishment for the offense. That lack can be remedied. A number of Congressmen have introduced legislation to protect the Flag. Committee hearings on these bills will be held in the near future. It is to be hoped that the committee will report favorably on a measure to provide fitting punishment for those who desecrate the Stars and Stripes -- and that favorable action by the Whole Congress will follow shortly. Any American has a right to disagree with a government policy. No American has a right to trample upon or otherwise profane the Flag of the United States. HLH.

Inside Labor

By Victor Riesel

Teamsters' Junta Sends Word to Imprisoned Hoffa He's Through; New Convention Will Elect New Leaders.

Washington, D. C.: -- It's the last mile for Jimmy Hoffa. He's had his final excursion, lots of fresh air, a 1,450 mile round-trip auto ride -- and the grapevine's word from a junta of Teamsters' leaders that he is finished as a power in the Teamsters.

Back in prison, he can mend mattresses but not fences. The message was cold and absolute. Even his caretaker government in the Teamsters Brotherhood under Frank (Fitz) Fitzsimmons is finished. It will last only as an administering operation until a special convention is called. The junta is working on that. It will be called within a year.

The old order has changed. And not because "Fitz" fumbled the spread - eagle, intricate trucking negotiations. Those of us who have microscoped the new pact know that it calls for almost 100 per cent more than Hoffa won during the last go round in '64. At that time the general president got a 41.5 cent raise over three years.

Now with a cost of living increase of any size, the agreement can bring as much as 78 cents an hour more - at least by a conservative projection. Of course, most of this will be passed on to the shippers and then to we, the people.

So Fitz has delivered as the Acting General President. At his side were many of the Teamsters vice presidents--- but not the "egg - head" Harold Gibbons who, as recently as two weeks ago, was publicly defending his former chief.

There were reports that the junta told off "Fitz" during the recent high command session in Chicago. Not so. They told off Hoffa. They quietly told Fitz that they had told their regional and local people to start going through regional council leaders and local union officials -- and not to lift a phone and call national headquarters for a muscled hand and a swift call from the national President. Those days are over.

But it was Hoffa, not Fitz who was the target. The acting president truly is the junta's prisoner. They can remove him when they wish. But not yet. There's a power vacuum in the national marble palace. However, there is no need yet for an empty chair. For the moment, it was important to let Hoffa know he must stop dreaming of running the union from prison or of ever returning to it.

There are enough anti - Hoffa votes now on the General Executive Board to call a special convention. It's all spelled out in the new construction which few have bothered to read. Article 9, Section 8 states that a special convention may be called when two - thirds of the board deem it necessary. Well, they now deem it vital. The board can set the rules for the special convention -- which "shall have the power to change any provision of the Constitution except the provision dealing with the terms of office for officers . . . and the provision dealing with salaries and expenses of officers."

This simply means that the special convention can do anything regardless of what the constitution says except change the length of the terms of national officers from five years and the salaries, for example, of the president ($100,000 annually) and the secretary-treasurer ($75,000).

Thus two - thirds of the board -- nine members by a legal count now that Hoffa is in for the duration -- can revamp the entire Teamsters structure and elect new officers.

But who shall they be? Who are in the three - man junta which now is the governing force? Insiders say they are the quiet man, Einar Mohn, head of the Western Conference; Murray (Dusty) Miller of Dallas and Tom Flynn of Washington.

Insiders say that Mohn, a member of the California Board of Regents, can have the presidency if he wants it. And Tom Flynn can step into the secretary - treasuryship now occupied by the teertering octogenarian, Johnny English.

It's now a matter of the 60-year - old Mohn -- who actually ran the Teamsters under Dave Beck -- deciding whether he wants to move back to this churning capital he dislikes.

On his decision hangs national and international history and headlines. Mohn is acceptable to George Meany and the rest of the AFL - CIO's high command. So is Meany's old friend, Tom Flynn, head of the Eastern Conference. Meany has conferred with both men over the years. This means that the Teamsters' 1.8 million members could well be inside the AFL - CIO by the federation's December 1967 convention in Florida, but certainly by the 1969 biennial convention if Mohn and Flynn become the Teamsters' leadership team. That would make a powerful coalition of virtually 16 million members. What difference then to the federation if Walter Reuther pulls out.

Return of the massive prodigal would give the AFL-CIO enormous organizing strength and considerable funds for national and world - wide action.

Soon, indeed, Hoffa will be just a forgotten serial number. The rumble of new labor history will obliterate his last mile.

Miss Suzanne Bowling

Miss Suzanne Bowling to Wed David Reeves July 15

Mrs. Aladine Bowling announces the engagement and forthcoming marriage of her daughter, Suzanne, to David Reeves, son of Mr. and Mrs. Marshall Reeves of Charleston.

Miss Bowling, a 1961 graduate of Sikeston high school, obtained a bachelor of science degree in education from Memphis State University, in 1965. She is teaching first grade at Lee Hunter elementary school.

Reeves is a 1963 graduate of Charleston high school and attended Southeast Missouri State College in Cape Girardeau. He is associated in business with his father in Charleston.

Plans are being made for a July 15 wedding.

Meal Planning Helps Insure Balanced Diet

By Mrs. Mattie E. Aslin
Extension Home Economist
University Extension Center

KENNETT - The Neighborhood Service Center Aides in New Madrid, Pemiscot, and Dunklin counties have been studying meal planning, comparison of brand labels of canned fruits, meats, and fish in a series of three classes. The recommended daily dietary allowances for individuals in protein, calcium, iron, vitamin A, and ascorbic acid (vitamin C) were referred to in checking diets. Forty-eight aides and Head-Start cooks attended the sessions last week.

The aides studied the preparation of deep-yellow and dark-green vegetables. These two classes of vegetables rate high in carotenes precursors of vitamin A. This vitamin may be stored in the body. The carotenes are converted into vitamin A.

Citrus fruits, tomatoes, fresh strawberries, and cabbage are among the many foods valuable for their content of ascorbic acid or better known as vitamin C. Fresh green cabbage and bell peppers contain considerable amounts of vitamin C.

The way the food is prepared depends on the retention of all food nutrients. Serving the food immediately after preparation; whether it is a raw vegetable or cooked one will mean more retension of vitamin C. Using a small amount of water and rapid cooking of vegetables are other principles to be observed.

The dark-green leafy vegetables are notable sources of iron, and calcium. These minerals are not uniformly distributed in the different parts of the plant. Calcium in the outside green leaves of the plant is three to five times higher than in the pale inner part of lettuce. Leaf lettuce has more vitamin A value than the varieties that have pale-green heads. Carrots are a rich source of vitamin A or carotene.

The aides found in checking the No. 72 "Nutritive Values of Foods" that many of the in season summer foods as cantalope, watermelon, strawberries, and sweet potatoes yield appreciable amount of vitamin C.

Liver, unlike muscle meat, is an excellent source of vitamin C and vitamin A. The lean meats and glandular organs supply iron for hemoglobin which is often found low in the disadvantaged family's diet.

Dry beans and peas are good sources of vitamin B and fair sources of protein. When these foods are used as main dishes; it is important to also serve some animal protein in the meals in form of cheese, milk beverage or perhaps a milk dessert.

Prayer Is Response to God; Submission to Will

By GEORGE W. CORNELL
AP Religion Writer

A refugee child, placed in an American foster home, had her first experience with prayer. As the story goes, she described the family devotions as "talking to someone who isn't there."

Obviously, it seemed to her a strange procedure, and even among the religiously versed, there have been recurring questions about the ways and workings of prayer.

"Teach us to pray," the apostles asked Jesus in the beginnings of Christianity.

And believers ever since have approached the discipline of personal prayer variously —in confidence or uncertainty, in regularity or hardly at all, as an intimate compass to life, or a mere external formality.

Nowadays "prayer for many is like a foreign land," says the Rev. Dr. Robert McAfee Brown, a Presbyterian theologian. "When we go there, we go as tourists. Like most tourists, we feel uncomfortable and out of place."

Catholic philosopher Michael Novak, writing in the weekly, Commonwealth, says it is astonishing "how many Christians no longer pray," as if God no longer was available in private devotions.

Novak says that one of the troubles is that many Christians "have scarcely progressed beyond the habits of childhood" in regard to prayer.

They "think that prayer means asking for things, for good weather, to find lost objects, to obtain peace of mind, to make an important sale. The mode is 'gimme'. The implicit world view is magical."

But as he and many Christian scholars emphasize, prayer basically involves an attitude of responsiveness to God, of concentration on openness to His will, whatever it may be, which is what a person needs, even though he doesn't know it.

"Prayer is response to God," says the Rev. Dr. John B. Coburn, dean of the Episcopal Theological Seminary, Cambridge, Mass.

It is all right, he says, "to begin by asking God to help us in any way we see fit," but in genuinely receptive prayer, "we end by asking God to help us as He sees fit, and to meet our needs, not as we see them, but as He sees them."

That was the example set by the Virgin Mary at the annunciation, "Thy will be done," and by Christ before His crucifixion, "Not My will, but Thine, be done."

Ultimately, "You are using God when you pray for your own ends," writes noted Protestant theologian Reinhold Niebuhr.

Prayer, he adds, should not be for "trivial ends" but for "integrity, courage, wisdom."

Through the ages, church scholars have often pictured the totality of living, and sensitivity to it, as a continuous prayer, or effort to attune onself to full reality." Pray without ceasing," St. Paul advised.

As Martin Luther, the 16th Century Protestant reformer put it, "Faith is nothing but pure prayer."

Catholic Novak says that for the adult Christian, prayer is "fundamentally an orientation of the will" in search for reconciliation with the "real world" of dynamic change in which God's will is an unknown "X".

It is, he adds, an "attitude of radical openness" to that ever unfolding reality.

"The effect of prayer is not that it binds God to something," he adds. "God is not our servant boy, to be summoned and given orders. The effect of prayer is to change ourselves.

"It is to make us more alert to the subtle nuances of human relations, to the actual course of daily events around us, to the possibilities for creativity and brotherhood to which we might have been blind.

"The reason for praying is to become more realistic, more open, more discerning. Reality makes many demands upon us; the purpose of prayer is to open our eyes and ears to the fullness of the real world in which we live."

There are various types of prayer — adoration of God, thanksgiving, confession of wrongs, intercession for others, petito for guidance, and all of them intertwine to some extent in most prayers.

Dr. Coburn, in a book, "Prayer and Personal Religion," offers some specific suggestions for developing a mature personal prayer life. Most of the practical methods also have been commended by other Christians in history.

Among them:

Pray each day at the same time.

Have a regular place of prayer.

The posture you assume, standing, kneeling, sitting, or lying down, makes no difference, except as it aids your own concentration.

Prepare for prayer with a brief period of devotional reading.

Pray as long as you need or want to — no longer.

Pray whether you "feel like it" or not.

The Rev. Dr. Daniel D. Williams of Union Theological Seminary, says that in prayer, "God himself ventures with us into a future where His decisions take account of our actions.

"It is not a question that prayer will change God's mind or His intention. That is surely a naive view of the matter. Rather it is the discovery in prayer that the soul and God are joined in personal freedom and God has given us the dignity of decision."

Piano Pupils Present Recital

Mrs. Helen Loud Jones presented her piano pupils in a recital Sunday at the First Methodist church.

Pupils participating were Fred Baugher, Becky Barnes, Harry Campbell, Janie Campbell, La Rue Campbell, Delores Coots, Cyndy Cox, Leslie Cox, Donald Davidson, Marsha Dement, Susan Dement.

Paula Doyle, Nancy Forbis, Linda Hale, Robyn Hale, Julie Harbin, Jan Hitt, Elizabeth Horner, John Horner, Patricia Huff, Mike Jacob, Tom Jacob, Ann Launius, Dennis Sprague, Jami Ward and Russell Wissman.

Saturday the pupils had a rehearsal at the library and then went home with Mrs. Jones for a picnic lunch.

Mrs. Jones will close her class for the summer and will leave Friday for Paris, France, where she will meet her son and family and they will tour France, Spain and Portugal before returning to the states in July.

Keith Landers Marks Fifth Birthday

Keith Landers celebrated his fifth birthday at the Kiddieland nursery school Tuesday. He is the son of Mr. and Mrs. Bob Landers, 812 Agnes St.

The birthday cake was orange and topped with candles, Keith's name and age. He blew out candles while his playmates sang "Happy Birthday." Favors were balloons and candy.

Attending were his brother, Kevin, Tommy Wood, Douglas Schindelar, Karen Malone, Greg Stanberry, Russell and Paul Murphy, Cindy Martin, Cindy Lawrence, Paula and Sandra Reid.

Mickey Wagoner, Gary and Carol Clayton, Timmie Fodge, Tammy Davis, Lavonne Ann Downey, Charlita Gilbertson, Allen Berry and Chip and Dewayne Taylor.

Gentrys to Mark 60th Anniversary

CHARLESTON -- Mr. and Mrs. James R. Gentry will observe their 60th wedding anniversary Tuesday.

Both are in poor health, and ask that they not have visitors to observe the occasion.

Mr. and Mrs. Gentry were both born in Indiana -- he in 1878, and she, the former Bertha Shell, in 1883. They have fice children, Mrs. Curtis O'Neal, Harry, Sheldon, Roland, and Gerald Gentry.

Representative Basil L. Whitener of North Carolina tells of the hotel clerk who was losing his patience. "Look," he said, "I've told you a dozen times, we have no rooms. We're full."

"If President Johnson came," the man persisted, "you'd have room for him, wouldn't you?"

"Why, of course," the clerk admitted.

"Then let me have his room. He's not coming."

MRS. W. B. RAGSDALE of Charleston, seated, is the only living charter member of Chapter CV of the PEO sisterhood. Her mother, Mrs. E. P. Deal, shown in photograph Mrs. Ragsdale is holding, was also a chapter member. Mrs. Ragsdale's daughter, Mrs. Frank Bihr, standing right, and granddaughter, Miss Dorothy Bihr, are also members of the chapter. The PEO chapter celebrated its 50th anniversary May 5.

ANOTHER THREE generation PEO family in Charleston is Mrs. John Deal, seated; her daughter, Mrs. Harvey Drake, standing right, and Mrs. Deal's granddaughter, Mrs. William McNeary.

Miss Judy Garner Is Bride of Billy Brashers

FERGUSON -- Mr. and Mrs. Keith Garner of 59 North Harvey, announce the marriage of their daughter, the former Miss Judy Garner, to Army Private Billy M. Brashers, who is stationed in South Vietnam. Pvt. Brashers is the son of Mr. and Mrs. Billy Brashers Jr., of South Street, Charleston.

The wedding was solemnized April 22 at the Ferguson Baptist church.

For her wedding the bride chose a street - length white crepe sheath dress with long sleeves and wore a fingertip veil of illusion. Her bouquet was a nosegay of white roses with white satin streamers. She was given in marriage by her father.

Her maid of honor was Miss Judy Williams, a cousin of the bridgroom. Pvt. Brashers' only attendant was his brother, Terry.

The mother of the bride wore a blue two - piece dress with white accessories and a blue carnation corsage. The groom's mother wore a dark brown lace dress with a corsage of yellow carnations.

After a reception in the church basement, the newlyweds left for a four - day trip before Pvt. Brashers left for Vietnam.

The new Mrs. Brashers is employed by the law firm of Alexander and Alexander in St. Louis. A 1966 graduate of McCluer high school, she is living with her parents while her husband is stationed overseas.

Pvt. Brashers is a 1965 graduate of Charleston high school, and attended Southeast Missouri State College, Cape Girardeau for one year before enlisting in the army.

Miss Burkett Is Engaged

CHARLESTON - Mr. and Mrs. Ira Burkett announce the engagement of their daughter, Miss Brenda Kay Burkett to Harvey Lee Cooper Jr., son of Mr. and Mrs. Cooper of Pine Bluff, Ark.

Miss Burkett will be graduated from Charleston high school with the class of 1967. Cooper, a 1966 graduate of Charleston high school, is in the navy. He left Saturday for Lakehurst, N.J., for 19 weeks of training.

Plans are being made for an October wedding.

Judith Wilfong Will Marry Frank Rayburn

ADVANCE - Mr. and Mrs. Lloyd Wilfong have announced the engagement of their daughter, Miss Judith Ann Wilfong, to Frank M. Rayburn Jr., son of Mr. and Mrs. Frank M. Rayburn, Cape Girardeau.

Miss Wilfong, a 1966 graduate of Advance high school, is employed by the First Nacional Bank of Cape Girardeau.

Rayburn, a 1961 graduate of Central high school at Cape Girardeau, attended Southeast Missouri State College there for two years. He is employed by Howard's Athletic Goods Co., there.

Wedding plans are being made for July 29.

Circle Observe Spiritual Birthdays

The JOY and Lewis - Inman circles of the Woman's Missionary Society of the Tanner Street Church of God met Thursday night with Mrs. Jack Lopp.

The business meeting was conducted by the president, Mrs. Horace Byrd. Mrs. Andy Hill gave the opening prayer.

Officers gave their reports. Mrs. O. C. Lewis and Mrs. Mac McGahey, who attended the Southeast Missouri district tally in Lutesville and the state rally in St. James, reported.

The proposed budget for 1967 - 68 was presented and accepted.

Mrs. Lewis and Mrs. Merl Keefer gave the program on "Beauty in the Home" and "What Is a Home."

The highlight of the meeting was the observance of spiritual birthdays. Mrs. Gene Johnson was in charge. An offering was collected. This offering is an item in the national society budget and is given by members as a response to God in thanksgiving for their experiences in religion and other spiritual blessings.

Others present were Mrs. Bill Porter, Mrs. Bill Pruitt, Mrs. Ava Allen, Mrs. Paul Joe Witt, Mrs. Donald Lewis, Mrs. Tom Sims, Mrs. Lloyd Treece, Mrs. Kenneth Bailey and Mrs. Calera Lopp.

LOCAL BRIEFS

T/Sgt. and Mrs. Billy E. Johnson and Kim arrived last week from Gunter air force base, Ala., to spend two weeks with her mother, Mrs. Addie Champion, and his parents, Mr. and Mrs. Roy Johnson.

Miss Carol Miller

Miss Martha Bess

Miss Bess, Miss Miller Honored at College

COLUMBIA - Two Sikeston residents, Miss Martha Bess, daughter of Mr. and Mrs. William W. Bess, 202 West Wakefield, and Miss Carol Ann Miller, daughter of Mr. and Mrs. Beatty P. Miller, 706 Courtney Dr., have been named to the dean's list for outstanding academic achievement during the spring semester at Christian College, two-year college for women.

Miss Bess, a first-year student at Christian, and Miss Miller, a second-year student, were honored at the college's semi-annual honors assembly Thursday. Students must have a grade average of B or higher in all academic course work to be included on the dean's list.

In addition to being honored for her scholastic achievements, Miss Miller, editor of the college newspaper, was honored for her newspaper work. During Journalism Week at the University of Missouri, Miss Miller received awards for "best editorial" and "best editorial writer" for class D (small junior colleges) newspapers in Missouri.

Miss Miller was employed as feature editor of the Sikeston Daily Standard last summer.

Sue Coburn Plans Vows With Larry Wallace

ELGIN, Ill. -- The engagement of Constance Sue Coburn to Larry James Wallace, son of Mr. and Mrs. Lonnie Wallace of Charleston, Mo., is announced by her parents, Mr. and Mrs. R. G. Coburn. The wedding date set is June 2.

Miss Coburn, a sophomore at Lindenwood College in St. Charles, is employed as a medical records secretary. Wallace is a senior at the University of Missouri at Rolla.

The wedding will be solemnized at the Episcopal Church in Elgin.

NO FRILL TIME

Miss Suzanne Bowling

Miss Suzanne Bowling to Wed David Reeves July 15

Mrs. Aladine Bowling announces the engagement and forthcoming marriage of her daughter, Suzanne, to David Reeves, son of Mr. and Mrs. Marshall Reeves of Charleston.

Miss Bowling, a 1961 graduate of Sikeston high school, obtained a bachelor of science degree in education from Memphis State University, in 1965. She is teaching first grade at Lee Hunter elementary school.

Reeves is a 1963 graduate of Charleston high school and attended Southeast Missouri State College in Cape Girardeau. He is associated in business with his father in Charleston.

Plans are being made for a July 15 wedding.

Prayer Is Response to God; Submission to Will

By GEORGE W. CORNELL
AP Religion Writer

A refugee child, placed in an American foster home, had her first experience with prayer. As the story goes, she described the family devotions as "talking to someone who isn't there."

Obviously, it seemed to her a strange procedure, and even among the religiously versed, there have been recurring questions about the ways and workings of prayer.

"Teach us to pray," the apostles asked Jesus in the beginnings of Christianity.

And believers ever since have approached the discipline of personal prayer variously —in confidence or uncertainty, in regularity or hardly at all, as an intimate compass to life, or a mere external formality.

Nowadays "prayer for many is like a foreign land," says the Rev. Dr. Robert McAfee Brown, a Presbyterian theologian. "When we go there, we go as tourists. Like most tourists, we feel uncomfortable and out of place."

Catholic philosopher Michael Novak, writing in the weekly, Commonwealth, says it is astonishing "how many Christians no longer pray," as if God no longer was available in private devotions.

Novak says that one of the troubles is that many Christians "have scarcely progressed beyond the habits of childhood" in regard to prayer.

They "think that prayer means asking for things, for good weather, to find lost objects, to obtain peace of mind, to make an important sale. The mode is 'gimme'. The implicit world view is magical."

But as he and many Christian scholars emphasize, prayer basically involves an attitude of responsiveness to God, of concentration on openness to His will, whatever it may be, which is what a person needs, even though he doesn't know it.

"Prayer is response to God," says the Rev. Dr. John B. Coburn, dean of the Episcopal Theological Seminary, Cambridge, Mass.

It is all right, he says, "to begin by asking God to help us in any way we see fit," but in genuinely receptive prayer, "we end by asking God to help us as He sees fit, and to meet our needs, not as we see them, but as He sees them."

That was the example set by the Virgin Mary at the annunciation, "Thy will be done," and by Christ before His crucifixion, "Not My will, but Thine, be done."

Ultimately, "You are using God when you pray for your own ends," writes noted Protestant theologian Reinhold Niebuhr.

Prayer, he adds, should not be for "trivial ends" but for "integrity, courage, wisdom."

Through the ages, church scholars have often pictured the totality of living, and sensitivity to it, as a continuous prayer, or effort to attune onself to full reality." Pray without ceasing," St. Paul advised.

As Martin Luther, the 16th Century Protestant reformer put it, "Faith is nothing but pure prayer."

Catholic Novak says that for the adult Christian, prayer is "fundamentally an orientation of the will" in search for reconciliation with the "real world" of dynamic change in which God's will is an unknown "X".

It is, he adds, an "attitude of radical openness" to that ever unfolding reality.

"The effect of prayer is not that it binds God to something," he adds. "God is not our servant boy, to be summoned and given orders. The effect of prayer is to change ourselves.

"It is to make us more alert to the subtle nuances of human relations, to the actual course of daily events around us, to the possibilities for creativity and brotherhood to which we might have been blind.

"The reason for praying is to become more realistic, more open, more discerning. Reality makes many demands upon us; the purpose of prayer is to open our eyes and ears to the fullness of the real world in which we live."

There are various types of prayer — adoration of God, thanksgiving, confession of wrongs, intercession for others, petito for guidance, and all of them intertwine to some extent in most prayers.

Dr. Coburn, in a book, "Prayer and Personal Religion," offers some specific suggestions for developing a mature personal prayer life. Most of the practical methods also have been commended by other Christians in history.

Among them:

Pray each day at the same time.

Have a regular place of prayer.

The posture you assume, standing, kneeling, sitting, or lying down, makes no difference, except as it aids your own concentration.

Prepare for prayer with a brief period of devotional reading.

Pray as long as you need or want to — no longer.

Pray whether you "feel like it" or not.

The Rev. Dr. Daniel D. Williams of Union Theological Seminary, says that in prayer, "God himself ventures with us into a future where His decisions take account of our actions.

"It is not a question that prayer will change God's mind or His intention. That is surely a naive view of the matter. Rather it is the discovery in prayer that the soul and God are joined in personal freedom and God has given us the dignity of decision."

Meal Planning Helps Insure Balanced Diet

By Mrs. Mattie E. Aslin
Extension Home Economist
University Extension Center

KENNETT - The Neighborhood Service Center Aides in New Madrid, Pemiscot, and Dunklin counties have been studying meal planning, comparison of brand labels of canned fruits, meats, and fish in a series of three classes. The recommended daily dietary allowances for individuals in protein, calcium, iron, vitamin A, and ascorbic acid (vitamin C) were referred to in checking diets. Forty-eight aides and Head-Start cooks attended the sessions last week.

The aides studied the preparation of deep-yellow and dark-green vegetables. These two classes of vegetables rate high in carotenes precursors of vitamin A. This vitamin may be stored in the body. The carotenes are converted into vitamin A.

Citrus fruits, tomatoes, fresh strawberries, and cabbage are among the many foods valuable for their content of ascorbic acid or better known as vitamin C. Fresh green cabbage and bell peppers contain considerable amounts of vitamin C.

The way the food is prepared depends on the retention of all food nutrients. Serving the food immediately after preparation; whether it is a raw vegetable or cooked one will mean more retension of vitamin C. Using a small amount of water and rapid cooking of vegetables are other principles to be observed.

The dark-green leafy vegetables are notable sources of iron, and calcium. These minerals are not uniformly distributed in the different parts of the plant. Calcium in the outside green leaves of the plant is three to five times higher than in the pale inner part of lettuce. Leaf lettuce has more vitamin A value than the varieties that have pale-green heads. Carrots are a rich source of vitamin A or carotene.

The aides found in checking the No. 72 "Nutritive Values of Foods" that many of the in season summer foods as cantalope, watermelon, strawberries, and sweet potatoes yield appreciable amount of vitamin C.

Liver, unlike muscle meat, is an excellent source of vitamin C and vitamin A. The lean meats and glandular organs supply iron for hemoglobin which is often found low in the disadvantaged family's diet.

Dry beans and peas are good sources of vitamin B and fair sources of protein. When these foods are used as main dishes; it is important to also serve some animal protein in the meals in form of cheese, milk beverage or perhaps a milk dessert.

Piano Pupils Present Recital

Mrs. Helen Loud Jones presented her piano pupils in a recital Sunday at the First Methodist church.

Pupils participating were Fred Baugher, Becky Barnes, Harry Campbell, Janie Campbell, La Rue Campbell, Delores Coots, Cyndy Cox, Leslie Cox, Donald Davidson, Marsha Dement, Susan Dement.

Paula Doyle, Nancy Forbis, Linda Hale, Robyn Hale, Julie Harbin, Jan Hitt, Elizabeth Horner, John Horner, Patricia Huff, Mike Jacob, Tom Jacob, Ann Launius, Dennis Sprague, Jami Ward and Russell Wissman.

Saturday the pupils had a rehearsal at the library and then went home with Mrs. Jones for a picnic lunch.

Mrs. Jones will close her class for the summer and will leave Friday for Paris, France, where she will meet her son and family and they will tour France, Spain and Portugal before returning to the states in July.

Keith Landers Marks Fifth Birthday

Keith Landers celebrated his fifth birthday at the Kiddieland nursery school Tuesday. He is the son of Mr. and Mrs. Bob Landers, 812 Agnes St.

The birthday cake was orange and topped with candles, Keith's name and age. He blew out candles while his playmates sang "Happy Birthday." Favors were balloons and candy.

Attending were his brother, Kevin, Tommy Wood, Douglas Schindelar, Karen Malone, Greg Stanberry, Russell and Paul Murphy, Cindy Martin, Cindy Lawrence, Paula and Sandra Reid.

Mickey Wagoner, Gary and Carol Clayton, Timmie Fodge, Tammy Davis, Lavonne Ann Downey, Charlita Gilbertson, Allen Berry and Chip and Dewayne Taylor.

Gentrys to Mark 60th Anniversary

CHARLESTON -- Mr. and Mrs. James R. Gentry will observe their 60th wedding anniversary Tuesday.

Both are in poor health, and ask that they not have visitors to observe the occasion.

Mr. and Mrs. Gentry were both born in Indiana -- he in 1878, and she, the former Bertha Shell, in 1883. They have five children, Mrs. Curtis O'Neal, Harry, Sheldon, Roland, and Gerald Gentry.

Representative Basil L. Whitener of North Carolina tells of the hotel clerk who was losing his patience. "Look," he said, "I've told you a dozen times, we have no rooms. We're full."

"If President Johnson came," the man persisted, "you'd have room for him, wouldn't you?"

"Why, of course," the clerk admitted.

"Then let me have his room. He's not coming."

MRS. W. B. RAGSDALE of Charleston, seated, is the only living charter member of Chapter CV of the PEO sisterhood. Her mother, Mrs. E. P. Deal, shown in photograph Mrs. Ragsdale is holding, was also a chapter member. Mrs. Ragsdale's daughter, Mrs. Frank Bihr, standing right, and granddaughter, Miss Dorothy Bihr, are also members of the chapter. The PEO chapter celebrated its 50th anniversary May 5.

ANOTHER THREE generation PEO family in Charleston is Mrs. John Deal, seated; her daughter, Mrs. Harvey Drake, standing right, and Mrs. Deal's granddaughter, Mrs. William McNeary.

Miss Judy Garner Is Bride of Billy Brashers

FERGUSON -- Mr. and Mrs. Keith Garner of 59 North Harvey, announce the marriage of their daughter, the former Miss Judy Garner, to Army Private Billy M. Brashers, who is stationed in South Vietnam. Pvt. Brashers is the son of Mr. and Mrs. Billy Brashers Jr., of South Street, Charleston.

The wedding was solemnized April 22 at the Ferguson Baptist church.

For her wedding the bride chose a street - length white crepe sheath dress with long sleeves and wore a fingertip veil of illusion. Her bouquet was a nosegay of white roses with white satin streamers. She was given in marriage by her father.

Her maid of honor was Miss Judy Williams, a cousin of the bridgroom. Pvt. Brashers' only attendant was his brother, Terry.

The mother of the bride wore a blue two - piece dress with white accessories and a blue carnation corsage. The groom's mother wore a dark brown lace dress with a corsage of yellow carnations.

After a reception in the church basement, the newlyweds left for a four - day trip before Pvt. Brashers left for Vietnam.

The new Mrs. Brashers is employed by the law firm of Alexander and Alexander in St. Louis. A 1966 graduate of McCluer high school, she is living with her parents while her husband is stationed overseas.

Pvt. Brashers is a 1965 graduate of Charleston high school, and attended Southeast Missouri State College, Cape Girardeau for one year before enlisting in the army.

My wife has a funny way of getting even with the telephone company. She uses my car to knock down its poles.
James Sherman.

Miss Burkett Is Engaged

CHARLESTON - Mr. and Mrs. Ira Burkett announce the engagement of their daughter, Miss Brenda Kay Burkett to Harvey Lee Cooper Jr., son of Mr. and Mrs. Cooper of Pine Bluff, Ark.

Miss Burkett will be graduated from Charleston high school with the class of 1967. Cooper, a 1966 graduate of Charleston high school, is in the navy. He left Saturday for Lakehurst, N.J., for 19 weeks of training.

Plans are being made for an October wedding.

Judith Wilfong Will Marry Frank Rayburn

ADVANCE - Mr. and Mrs. Lloyd Wilfong have announced the engagement of their daughter, Miss Judith Ann Wilfong, to Frank M. Rayburn Jr., son of Mr. and Mrs. Frank M. Rayburn, Cape Girardeau.

Miss Wilfong, a 1966 graduate of Advance high school, is employed by the First National Bank of Cape Girardeau.

Rayburn, a 1961 graduate of Central high school at Cape Girardeau, attended Southeast Missouri State College there for two years. He is employed by Howard's Athletic Goods Co., there.

Wedding plans are being made for July 29.

Circle Observe Spiritual Birthdays

The JOY and Lewis - Inman circles of the Woman's Missionary Society of the Tanner Street Church of God met Thursday night with Mrs. Jack Lopp.

The business meeting was conducted by the president, Mrs. Horace Byrd. Mrs. Andy Hill gave the opening prayer.

Officers gave their reports. Mrs. O. C. Lewis and Mrs. Mac McGahey, who attended the Southeast Missouri district tally in Lutesville and the state rally in St. James, reported.

The proposed budget for 1967 - 68 was presented and accepted.

Mrs. Lewis and Mrs. Merl Keefer gave the program on "Beauty in the Home" and "What Is a Home."

The highlight of the meeting was the observance of spiritual birthdays. Mrs. Gene Johnson was in charge. An offering was collected. This offering is an item in the national society budget and is given by members as a response to God in thanksgiving for their experiences in religion and other spiritual blessings.

Others present were Mrs. Bill Porter, Mrs. Bill Pruitt, Mrs. Ava Allen, Mrs. Paul Joe Witt, Mrs. Donald Lewis, Mrs. Tom Sims, Mrs. Lloyd Treece, Mrs. Kenneth Bailey and Mrs. Calera Lopp.

LOCAL BRIEFS

T/Sgt. and Mrs. Billy E. Johnson and Kim arrived last week from Gunter air force base, Ala., to spend two weeks with her mother, Mrs. Addie Champion, and his parents, Mr. and Mrs. Roy Johnson.

Miss Carol Miller

Miss Martha Bess

Miss Bess, Miss Miller Honored at College

COLUMBIA - Two Sikeston residents, Miss Martha Bess, daughter of Mr. and Mrs. William W. Bess, 202 West Wakefield, and Miss Carol Ann Miller, daughter of Mr. and Mrs. Beatty P. Miller, 706 Courtney Dr., have been named to the dean's list for outstanding academic achievement during the spring semester at Christian College, two-year college for women.

Miss Bess, a first-year student at Christian, and Miss Miller, a second-year student, were honored at the college's semi-annual honors assembly Thursday. Students must have a grade average of B or higher in all academic course work to be included on the dean's list.

In addition to being honored for her scholastic achievements, Miss Miller, editor of the college newspaper, was honored for her newspaper work. During Journalism Week at the University of Missouri, Miss Miller received awards for "best editorial" and "best editorial writer" for class D (small junior colleges) newspapers in Missouri.

Miss Miller was employed as feature editor of the Sikeston Daily Standard last summer.

Sue Coburn Plans Vows With Larry Wallace

ELGIN, Ill. -- The engagement of Constance Sue Coburn to Larry James Wallace, son of Mr. and Mrs. Lonnie Wallace of Charleston, Mo., is announced by her parents, Mr. and Mrs. R. G. Coburn. The wedding date set is June 2.

Miss Coburn, a sophomore at Lindenwood College in St. Charles, is employed as a medical records secretary. Wallace is a senior at the University of Missouri at Rolla.

The wedding will be solemnized at the Episcopal Church in Elgin.

NO FRILL TIME

A vice-president of one of the larger advertising agencies has told merchants that when the going gets tough, cut out the direct mail, the billboards, radio and TV. These are the frills of a business while newspaper advertising is the necessity.

BIRTHS

SCHOTT

Mr. and Mrs. Leo Schott of Oran are the parents of a son born Friday in the Missouri Delta Community hospital.

MARTIN

Mr. and Mrs. Vernon Martin are the parents of a daughter born Friday in the Missouri Delta Community hospital.

THE EXECUTIVE STAFF AND EMPLOYEES OF ANCHOR TOY CORPORATION EXPRESS THEIR DEEPEST SYMPATHY TO THE FAMILY OF MR. CHARLES S. RAIZEN, FOUNDER AND CHAIRMAN OF THE BOARD, WHO PASSED AWAY ON MAY 13, 1967.

AS A TOKEN OF RESPECT, THE OFFICE AND PLANT OF THE COMPANY WILL BE CLOSED ON TUESDAY, MAY 16, 1967.

Sox Push Wins to 10

Associated Press Sports Writer

Mickey Mantle, whose 10-day ordeal has ended with a loud crash, is breathing easy again.

Eddie Stanky, whose 10-game joyride goes on without a wallop, is holding his breath.

"I'm glad it's over . . . it's a relief," Mantle said Sunday after blasting the 500th home run of his illustrious major league career to lift the New York Yankees past the Baltimore Orioles 6-5.

"I have never seen a club go this far on pitching alone," Manager Stanky said after his light-hitting Chicago White Sox ran their winning string to 10 games and swept into the American League lead with 4-2 and 3-1 victories over the California Angels.

Mantle, who hit his 499th homer on May 3 at Minnesota, struggled through seven homerless games before unloading No. 500 against Stu Miller in the seventh inning Sunday and becoming the sixth player in history to reach the half-century mark.

"It's like winning the last game of a World Series," said the 17-year New York veteran, whose drive into the right field seats at Yankee Stadium admitted him to the exclusive circle that also includes Babe Ruth, Willie Mays, Jimmy Foxx, Ted Williams and Mel Ott.

Reminded by newsmen that the next milestone is Ott's career mark of 511 homers, Mantle shook his head. "511?" he snorted. "You mean you guys are going to start that now?"

"My next goal is 11," Stanky was saying in Chicago after Gary Peters completed the White Sox' sweep by tossing the eighth one-hitter in the majors this spring.

The double victory, coupled with Boston's 8-5, 13-9 doubleheader sweep over Detroit, sent the White Sox into first place — 1½ games ahead of the Tigers.

Elsewhere in the American League, Kansas City topped Minnesota 4-2 and Cleveland edged Washington 2-1 in a rain-curtailed five-inning game.

Mantle's homer gave New York a 6-4 lead after Joe Pepitone's two-run pinch-hit blast in the sixth wiped out a 4-3 deficit.

The Orioles closed the gap in the eighth when Mantle, still dazed by the roaring ovation given him by 18,872 Stadium fans, dropped a throw at first base and then fired wildly past the plate, enabling Frank Robinson to score.

"I was in a fog," he said. "It sure would have been pretty tough to hit the homer, then make an error that lost the game."

Peters stymied the Angels after yielding a second-inning homer by ex-teammate Bill Skowron. It was the left-hander's fourth straight victory after an opening loss.

Tommy John and reliever Bob Locker combined for a five-hitter in the first game and Ken Berry's third hit — a two-run single in the seventh — gave the White Sox their winning margin.

The Chicago pitching staff has given up only 13 runs during the 10-game streak.

"There have been times when the pitchers carry you for four or five games," Stanky said. "But then the team will come up with some hitting to keep the streak alive. It's been all pitching for us."

Rico Petrocelli, who drove in five runs, and Carl Yastrzemski each rapped two homers in leading the Red Sox to their sweep over Detroit.

The two clubs set an American League record of 28 extra base hits in the doubleheader, with Boston accounting for 16. Willie Horton hit two homers in the nightcap for Detroit, which had won seven in a row.

Kansas City struck for four runs in the first inning — two on Mike Hershberger's double — and took their third straight from the Twins behind the strong pitching of Chuck Dobson and Jack Aker.

Cleveland's Sonny Siebert pitched a two-hitter, setting the Senators down in order until the fifth, when Frank Howard homered and Dick Nen beat out an infield single. Joe Azcue homered for the Indians, who swept the three-game set.

By the Associated Press

BATTING - Mickey Mantle, Yankees, hit 500th lifetime home run as New York edged Orioles 6-5.

PITCHING - Gary Peters, White Sox, pitched one-hitter in Chicago's 3-1 victory over Los Angeles in second game of doubleheader.

MARIO ANDRETTI, of Nazareth, Pa., driving a Brawner - Ford, qualified for the Indianapolis 500-Mile Race with a tremendous 10-mile run of 168.982 miles an hour. A record crowd of 200,000 persons saw rookie speedway driver Ralph Liguori (above), of Tampa, Fla., lose control of his car, hit a wall, knocking off a wheel, and walk away unhurt.

Reds Ride Teen-Ager's 1-0 Shutout to Twinbill Sweep

By HAL BOCK

Life gets easier all the time for young Gary Nolan, who was battling high school hitters in Oroville, Calif. a year ago.

Now, all he has to worry about are Willie Mays, Roberto Clemente and the rest of the National League.

"I was hit harder in high school than I have been so far this year," grinned Nolan after his five-hitter had blanked Philadelphia 1-0 and given Cincinnati a sweep of Sunday's doubleheader.

The Reds won the opener 2-1 on Vada Pinson's eighth-inning homer and the four-hit pitching of Jim Maloney and Ted Abernathy.

Nolan is the precocious 18-year-old right-hander who came to the Cincinnati camp as a non-roster player and won a regular job. He is 3-1 with a 2.12 earned run average and the poise of a man twice his age.

"I don't get nervous because when I came to the Reds I felt I could pitch big league ball," Nolan said.

"I love what I've seen of him," said Dave Bristol, the Reds' manager. "No kicking, no tugging, no pulling. He just goes to work and puts the ball over with something on it."

Nolan had plenty on it against the Phillies. He struck out eight and now has fanned 48 in 46 2-3 innings. The shutout was his first in organized ball.

The youngster's confidence may come from the fact that he was the Reds' first choice in the free agent draft last June. A $65,000 bonus never hurt anybody's confidence.

Nolan was 7-3 with 163 strikeouts in 104 innings at Sioux Falls of the Northern League after signing last year. He was still on the Sioux Falls roster this spring but not for long.

In other National League games Sunday, San Francisco swept a doubleheader from Houston 11-6 and 4-3, Chicago split with Los Angeles, losing 2-1 in 10 innings before winning 6-3 in 11, New York dropped St. Louis 3-1, and Pittsburgh whipped Atlanta 5-2.

Consecutive first inning doubles by Pete Rose and Tony Perez gave Nolan the only run he needed against the Phillies in the second game.

Maloney worked into the ninth of the opener but had to leave when his right shoulder became sore. Abernathy got the last two outs.

The Giants unloaded 16 hits in the first game against the Astros with Jim Hart driving in four runs, three of them on a homer. Hart, Tito Fuentes and Norm Siebern had three hits apiece in the attack.

Ollie Brown's two-out, two-run homer in the ninth inning gave the Giants the second game. Houston rookie Don Wilson was leading 3-0 on a two-hitter in the eighth inning before San Francisco knocked him out with a two-run rally. Then Brown's first pitch shot off Claude Raymond won it in the ninth.

Willie Davis delivered a run-scoring single with two out in the 10th inning of the opener, lifting the Dodgers past the Cubs. Don Drysdale, 2-3, who drove in the first Los Angeles run with an eighth-inning single, was the winner.

Army-bound Ken Holtzman copped his fourth straight in the second game and ignited the three-run rally that won it in the 11th with a single. Ron Fairly cracked a two-run homer for the Dodgers.

The Mets ended Bob Gibson's nine-game winning streak against them as Jack Fisher beat the Cardinals. Jerry Buchek, traded by St. Louis to New York just before the season started, homered in the fourth, starting the three-run rally that won it for the Mets.

Roberto Clemente smashed a single, double and triple, scored twice and drove in another run as the Pirates downed the Braves. Bill Mazeroski drove in Clemente twice with singles and Donn Clendenon homered for Pittsburgh.

Final Big 8 Grid Drills Sparkle

By THE ASSOCIATED PRESS

It was an outstanding final day of Big Eight spring football for veterans like end John Zook of Kansas, halfback Les Webster of Iowa State and quarterbacks Bob Warmack of Oklahoma and Bill Nossek of Kansas State.

At least three freshmen emerged with excellent performances which may put them high in the picture next fall in their sophomore seasons. They were end Larry Boyce of Kansas, quarterback Bob Cutburth of Oklahoma State and cornerback Pat Hutchens of Kansas.

Webster rushed for 127 yards on 27 carries, including touchdowns on dazzling 49 and 14-yard runs, leading the Reds to a 52-10 victory.

Warmack's 23-yard touchdown pass to wingback Eddie Hinton on the game's final play gave the Whites a 19-16 victory at Oklahoma. Hinton outscrambled three men for the ball. Warmack hit 12 of 18 for 178.

Nossek, tutored by Len Dawson of the Kansas City Chiefs, hit 20 of 26 passes for 311 yards but his Purple team had a battle before beating the Whites 28-24 before 5,000 at Manhattan.

Zook had seven solo tackles and eight assists, Hutchens eight solo and four assists to lead the Kansas defense, which outscored the Jayhawk offense under coach Pepper Rodgers' scoring system in three 20-minute games at Kansas.

The 186-pound Boyce, who didn't start at defensive end for the Whites, was voted the game's best defensive player. Nossek won the honor on offense.

Cutburth, a 6-door-1, 200-pounder, threw 44 and 56-yard TD bombs, scored a TD from the 5, kicked two extra points and ran for a two-pointer in leading the Orange team past the favored Whites, 22-8, before 4,000 at Stillwater.

OSU coach Phil Cutchin, watching from the pressbox, allowed that Cutburth's performance made him a fall contender at quarterback.

At Kansas, quarterback Bob Douglass hit 15 of 29 passes for 235 yards, his back-up man Jim Ettinger 12 of 19 for 135 and halfback Thermus Butler ripped 108 on 14 trips, one a skillful 70-yard TD.

Split end John Jackson got loose for a 67-yard TD from Douglass.

The offense won the first game 24-22, the defense the second 27-15 and the third was a 16-16 tie. So it was 1-1-1 in games but the defense led 65-55 in total points.

"I'm a big play man," Rodgers said, "but I also enjoyed the defense stopping them just short of the winning point on the final play."

Vince Gibson, K-State coach, liked his squad's over-all play.

"I think we showed the fans we can execute a passing game," Gibson said. "And I was pleased with the defense."

Star Cager, Sister Die in Auto Mishap

MADISONVILLE, Ky. (AP) — Dwight Smith, 21, Western Kentucky University basketball star, and his sister, Sheryl Kay Smith, 18, were killed Sunday afternoon when their car hit rain-slicked roads near here and plunged into a water-filled ditch.

Smith's brother Greg, another key player on the Western team, was injured, treated in a hospital, and released.

Hopkins County Deputy Coroner Harold Bandy said the car submerged in water, and speculated that both may have drowned before they could escape.

The three were returning to Western Kentucky University after a Mothers Day visit to their Princeton, Ky., home. The two brothers were guests of honor at a banquet Saturday night sponsored by a Methodist church.

Smith was a senior, had been drafted by both the American and National Basketball associations, and was to have graduated this year.

The two made up one of Kentucky's best known brother combinations in college basketba..

They were top players on the Western team which won the Ohio Valley Conference title and went to the NCAA tournament the last two years.

Smith ranked ninth among all-time scoring leaders at Western and seventh among three-year players.

In three varsity season at Western, Smith averaged 14.6 points and 10.9 rebounds. Basketball Coach Johnnie Oldham constantly referred to him as the greatest rebounding guard in the nation.

Sheryl Kay was a freshman at Western. Greg is a junior.

Knudson Nips Nicklaus and Beard for $20,000 Purse

NEW ORLEANS (AP)— George Knudson, like Frank Beard, will always have fond memories of the 15th hole at Lakewood County Club.

Knudson, an ex-caddy from Canada, used a shot "I didn't know I had in my bag" Sunday at 15 and went on to capture the $20,000 first-prize money in the $100,000 Greater New Orleans Open Golf Tourney.

He beat Jack Nicklaus by a shot, keeping the Ohio strongboy from his first official victory on the PGA national tour this year and whetting Nicklaus' appetite for this week's Colonial National Invitational in Fort Worth, Tex.

Nicklaus made no excuses, save for a wry comment about landing in a bunker "where it looked like about 30 people had been walking in it."

'Well, on to next week," he said as he picked up his $12,000 check for second place.

Knudson, 29, was the only player in this year's tourney to get a birdie on the 530 yard par 5 hole. Beard, who finished third this year, won the tourney last year with an eagle on the same hole.

Nicklaus hit what "I thought was a good putt" from three feet on the same hole for a birdie, "but it hit the bottom of the hole and came out."

Nicklaus and Knudson began the final round over the wind-swept course, with its 7,020-yards playing short because of sun-baked fairways, tied for the lead. Beard was two shots back.

Knudson wound up with a 70, two under par, for a 72-hole score of 277. Nicklaus' final round was 70. So was Beard's.

Bob Charles, Billy Casper, Tommy Bolt, Gardiner Dickinson and South African rookie Cobie LeGrange all deadlocked for fourth earning $3,820 each.

Casper and LeGrange had closing round 67s.

Casper won the All America Gold Cup and the $5,000 cash for first that goes with it. The award goes to the golfer with the lowest combined scores for this tourney, the Masters, PGA and U.S. Open.

Arnold Palmer had a 10-stroke lead in the competition for the cup coming into this tourney, but decided to skip New Orleans and spurned the extra dough.

Deering Turns in Top Area Showing in State Meet

COLUMBIA - Deering's Delta C-7 Chargers turned in southeast Missouri's strongest showing in class M and S state high school track and field competition Friday and Saturday at Memorial stadium.

Winners of the class M district crown the previous weekend at Cape Girardeau, the Deering squad collected 11 points for a sixth place finish in the class M state meet.

Dexter and Southland each scored two points to round out Southeast Missouri scoring in class M competition. Advance scored one-half point for the district's only dent in the class S scoring column.

Principia took the class M championship with 23 points to oust defending champion Brentwood, which copped runnerup honors with 18. John Burroughs of St. Louis was third with 15, Cameron fourth with 13 1/2, Jasper fifth with 12 and Delta sixth with 11. Lockwood notched the class S crown with 21 points and a two-point margin over Fair Grove.

Roosevelt Thomas placed second in both the broad jump and 180-yard low hurdles to lead the Deering team's scoring. Alonzo Hurt placed third in the high jump for the Chargers' remaining three points. Andy Taylor put Dexter into the scoring column with a fourth place finish in the low hurdles. Stan Vaughn posted Southland's points with a fourth in the 440-yard dash. Steve Daniel tied for fith in the high jump to pick up Advance's half point.

The class L state meet is scheduled Saturday on the same field.

Son Captures Racing Record From Father

DARLINGTON, S.C. (AP) - Lee Petty's NASCAR record of 54 victories in a career was surpassed in the Rebel 400 stock car race at Darlington Saturday, but Petty doesn't appear concerned about the situation.

The important thing, from the retired Petty's viewpoint, is that another Petty - son Richard - snapped the old mark.

Richard piloted his 1967 Plymouth to victory No. 55 despite a six - car crackup shortly after the green racing flag was waved, and also despite a hard - charging David Pearson in a new Holman - Moody Ford.

Petty, from Randleman, N.C., averaged 125.671 miles per hour for the one-lap triumph although there were five caution flags for a total of 31 laps. The Randleman Rocket led 266 of the 291 lap race over the mile and three - eights banked track.

Since retiring from race driving in 1961, the elder Petty has turned to producing topnotch cars for his son, as attested by the fact that Richard has gotten the checkered flag more times than any other NASCAR driver in history.

Sox Push Wins to 10

Associated Press Sports Writer

Mickey Mantle, whose 10-day ordeal has ended with a loud crash, is breathing easy again.

Eddie Stanky, whose 10-game joyride goes on without a wallop, is holding his breath.

"I'm glad it's over . . . it's a relief," Mantle said Sunday after blasting the 500th home run of his illustrious major league career to lift the New York Yankees past the Baltimore Orioles 6-5.

"I have never seen a club go this far on pitching alone," Manager Stanky said after his light-hitting Chicago White Sox ran their winning string to 10 games and swept into the American League lead with 4-2 and 3-1 victories over the California Angels.

Mantle, who hit his 499th homer on May 3 at Minnesota, struggled through seven homerless games before unloading No. 500 against Stu Miller in the seventh inning Sunday and becoming the sixth player in history to reach the half - century mark.

"It's like winning the last game of a World Series," said the 17-year New York veteran, whose drive into the right field seats at Yankee Stadium admitted him to the exclusive circle that also includes Babe Ruth, Willie Mays, Jimmy Foxx, Ted Williams and Mel Ott.

Reminded by newsmen that the next milestone is Ott's career mark of 511 homers, Mantle shook his head. "511?" he snorted. "You mean you guys are going to start that now?"

"My next goal is 11," Stanky was saying in Chicago after Gary Peters completed the White Sox' sweep by tossing the eighth one-hitter in the majors this spring.

The double victory, coupled with Boston's 8-5, 13-9 doubleheader sweep over Detroit, sent the White Sox into first place — 1½ games ahead of the Tigers.

Elsewhere in the American League, Kansas City topped Minnesota 4-2 and Cleveland edged Washington 2-1 in a rain-curtailed five-inning game.

Mantle's homer gave New York a 6-4 lead after Joe Pepitone's two-run pinch-hit blast in the sixth wiped out a 4-3 deficit.

The Orioles closed the gap in the eighth when Mantle, still dazed by the roaring ovation given him by 18,872 Stadium fans, dropped a throw at first base and then fired wildly past the plate, enabling Frank Robinson to score.

"I was in a fog," he said. "It sure would have been pretty tough to hit the homer, then make an error that lost the game."

Peters stymied the Angels after yielding a second-inning homer by ex-teammate Bill Skowron. It was the left-hander's fourth straight victory after an opening loss.

Tommy John and reliever Bob Locker combined for a five-hitter in the first game and Ken Berry's third hit — a two-run single in the seventh — gave the White Sox their winning margin.

The Chicago pitching staff has given up only 13 runs during the 10-game streak.

"There have been times when the pitchers carry you for four or five games," Stanky said. "But then the team will come up with some hitting to keep the streak alive. It's been all pitching for us."

Rico Petrocelli, who drove in five runs, and Carl Yastrzemski each rapped two homers in leading the Red Sox to their sweep over Detroit.

The two clubs set an American League record of 28 extra base hits in the doubleheader, with Boston accounting for 16. Willie Horton hit two homers in the nightcap for Detroit, which had won seven in a row.

Kansas City struck for four runs in the first inning — two on Mike Hershberger's double — and took their third straight from the Twins behind the strong pitching of Chuck Dobson and Jack Aker.

Cleveland's Sonny Siebert pitched a two-hitter, setting the Senators down in order until the fifth, when Frank Howard homered and Dick Nen beat out an infield single. Joe Azcue homered for the Indians, who swept the three - game set.

MARIO ANDRETTI, of Nazareth, Pa., driving a Brawner - Ford, qualified for the Indianapolis 500-Mile Race with a tremendous 10-mile run of 168.982 miles an hour. A record crowd of 200,000 persons saw rookie speedway driver Ralph Liguori (above), of Tampa, Fla., lose control of his car, hit a wall, knocking off a wheel, and walk away unhurt.

Reds Ride Teen-Ager's 1-0 Shutout to Twinbill Sweep

By HAL BOCK

Life gets easier all the time for young Gary Nolan, who was battling high school hitters in Oroville, Calif. a year ago.

Now, all he has to worry about are Willie Mays, Roberto Clemente and the rest of the National League.

"I was hit harder in high school than I have been so far this year," grinned Nolan after his five-hitter had blanked Philadelphia 1-0 and given Cincinnati a sweep of Sunday's doubleheader.

The Reds won the opener 2-1 on Vada Pinson's eighth-inning homer and the four-hit pitching of Jim Maloney and Ted Abernathy.

Nolan is the precocious 18-year-old right-hander who came to the Cincinnati camp as a non-roster player and won a regular job. He is 3-1 with a 2.12 earned run average and the poise of a man twice his age.

"I don't get nervous because when I came to the Reds I felt I could pitch big league ball," Nolan said.

"I love what I've seen of him," said Dave Bristol, the Reds' manager. "No kicking, no tugging, no pulling. He just goes to work and puts the ball over with something on it."

Nolan had plenty on it against the Phillies. He struck out eight and now has fanned 48 in 46 2-3 innings. The shutout was his first in organized ball.

The youngster's confidence may come from the fact that he was the Reds' first choice in the free agent draft last June. A $65,000 bonus never hurt anybody's confidence.

Nolan was 7-3 with 163 strikeouts in 104 innings at Sioux Falls of the Northern League after signing last year. He was still on the Sioux Falls roster this spring but not for long.

In other National League games Sunday, San Francisco swept a doubleheader from Houston 11 - 6 and 4-3, Chicago split with Los Angeles, losing 2-1 in 10 innings before winning 6-3 in 11, New York dropped St. Louis 3-1, and Pittsburgh whipped Atlanta 5-2.

Consecutive first inning doubles by Pete Rose and Tony Perez gave Nolan the only run he needed against the Phillies in the second game.

Maloney worked into the ninth of the opener but had to leave when his right shoulder became sore. Abernathy got the last two outs.

The Giants unloaded 16 hits in the first game against the Astros with Jim Hart driving in four runs, three of them on a homer. Hart, Tito Fuentes and Norm Siebern had three hits apiece in the attack.

Ollie Brown's two-out, two-run homer in the ninth inning gave the Giants the second game. Houston rookie Don Wilson was leading 3-0 on a two-hitter in the eighth inning before San Francisco knocked him out with a two-run rally. Then Brown's first pitch shot off Claude Raymond won it in the ninth.

Willie Davis delivered a run-scoring single with two out in the 10th inning of the opener, lifting the Dodgers past the Cubs. Don Drysdale, 2-3, who drove in the first Los Angeles run with an eighth-inning single, was the winner.

Army-bound Ken Holtzman copped his fourth straight in the second game and ignited the three-run rally that won it in the 11th with a single. Ron Fairly cracked a two-run homer for the Dodgers.

The Mets ended Bob Gibson's nine-game winning streak against them as Jack Fisher beat the Cardinals. Jerry Buchek, traded by St. Louis to New York just before the season started, homered in the fourth, starting the three-run rally that won it for the Mets.

Roberto Clemente smashed a single, double and triple, scored twice and drove in another run as the Pirates downed the Braves. Bill Mazeroski drove in Clemente twice with singles and Donn Clendenon homered for Pittsburgh.

Final Big 8 Grid Drills Sparkle

By THE ASSOCIATED PRESS

It was an outstanding final day of Big Eight spring football for veterans like end John Zook of Kansas, halfback Les Webster of Iowa State and quarterbacks Bob Warmack of Oklahoma and Bill Nossek of Kansas State.

At least three freshmen emerged with excellent performances which may put them high in the picture next fall in their sophomore seasons. They were end Larry Boyce of K-State, quarterback Bob Cutburth of Oklahoma State and cornerback Pat Hutchens of Kansas.

Webster rushed for 127 yards on 27 carries, including touchdowns on dazzling 49 and 14-yard runs, leading the Reds to a 52-10 victory.

Warmack's 23-yard touchdown pass to wingback Eddie Hinton on the game's final play gave the Whites a 19-16 victory at Oklahoma. Hinton outscrambled three men for the ball. Warmack hit 12 of 18 for 178.

Nossek, tutored by Len Dawson of the Kansas City Chiefs, hit 20 of 26 passes for 311 yards but his Purple team had a battle before beating the Whites 28-24 before 5,000 at Manhattan.

Zook had seven solo tackles and eight assists, Hutchens eight solo and four assists to lead the Kansas defense, which outscored the Jayhawk offense under coach Pepper Rodgers' scoring system in three 20-minute games at Kansas.

The 186-pound Boyce, who didn't start at defensive end for the Whites, was voted the game's best defensive player. Nossek won the honor on offense.

Cutburth, a 6-door-1, 200-pounder, threw 44 and 56-yard TD bombs, scored a TD from the 5, kicked two extra points and ran for a two-pointer in leading the Orange team past the favored Whites, 22-8, before 4,000 at Stillwater.

OSU coach Phil Cutchin, watching from the pressbox, allowed that Cutburth's performance made him a fall contender at quarterback.

At Kansas, quarterback Bob Douglass hit 15 of 29 passes for 235 yards, his back-up man Jim Ettinger 12 of 19 for 135 and halfback Thermus Butler ripped 108 on 14 trips, one a skillful 70-yard TD.

Split end John Jackson got loose for a 67-yard TD from Douglass.

The offense won the first game 24-22, the defense the second 27-15 and the third was a 16-16 tie. So it was 1-1-1 in games but the defense led 65-55 in total points.

"I'm a big play man," Rodgers said, "but I also enjoyed the defense stopping them just short of the winning point on the final play."

Vince Gibson, K-State coach, liked his squad's over-all play.

"I think we showed the fans we can execute a passing game," Gibson said. "And I was pleased with the defense."

STARS

By the Associated Press

BATTING - Mickey Mantle, Yankees, hit 500th lifetime home run as New York edged Orioles 6-5.

PITCHING - Gary Peters, White Sox, pitched one-hitter in Chicago's 3-1 victory over Los Angeles in second game of doubleheader.

Star Cager, Sister Die in Auto Mishap

MADISONVILLE, Ky. (AP) — Dwight Smith, 21, Western Kentucky University basketball star, and his sister, Sheryl Kay Smith, 18, were killed Sunday afternoon when their car hit rain-slicked roads near here and plunged into a water-filled ditch.

Smith's brother Greg, another key player on the Western team, was injured, treated in a hospital, and released.

Hopkins County Deputy Coroner Harold Bandy said the car submerged in water, and speculated that both may have drowned before they could escape.

The three were returning to Western Kentucky University after a Mothers Day visit to their Princeton, Ky., home. The two brothers were guests of honor at a banquet Saturday night sponsored by a Methodist church.

Smith was a senior, had been drafted by both the American and National Basketball associations, and was to have graduated this year.

The two made up one of Kentucky's best known brother combinations in college basketba..

They were top players on the Western team which won the Ohio Valley Conference title and went to the NCAA tournament the last two years.

Smith ranked ninth among all-time scoring leaders at Western and seventh among three-year players.

In three varsity season at Western, Smith averaged 14.6 points and 10.9 rebounds. Basketball Coach Johnnie Oldham constantly referred to him as the greatest rebounding guard in the nation.

Sheryl Kay was a freshman at Western. Greg is a junior.

Knudson Nips Nicklaus and Beard for $20,000 Purse

NEW ORLEANS (AP)— George Knudson, like Frank Beard, will always have fond memories of the 15th hole at Lakewood County Club.

Knudson, an ex-caddy from Canada, used a shot "I didn't know I had in my bag" Sunday at 15 and went on to capture the $20,000 first-prize money in the $100,000 Greater New Orleans Open Golf Tourney.

He beat Jack Nicklaus by a shot, keeping the Ohio strongboy from his first official victory on the PGA national tour this year and whetting Nicklaus' appetite for this week's Colonial National Invitational in Fort Worth, Tex.

Nicklaus made no excuses, save for a wry comment about landing in a bunker "where it looked like about 30 people had been walking in it."

"Well, on to next week," he said as he picked up his $12,000 check for second place.

Knudson, 29, was the only player in this year's tourney to get a birdie on the 530 yard par 5 hole. Beard, who finished third this year, won the tourney last year with an eagle on the same hole.

Nicklaus hit what "I thought was a good putt" from three feet on the same hole for a birdie, "but it hit the bottom of the hole and came out."

Nicklaus and Knudson began the final round over the wind-swept course, with its 7,020-yards playing short because of sun-baked fairways, tied for the lead. Beard was two shots back.

Knudson wound up with a 70, two under par, for a 72-hole score of 277. Nicklaus' final round was 70. So was Beard's.

Bob Charles, Billy Casper, Tommy Bolt, Gardiner Dickinson and South African rookie Cobie LeGrange all deadlocked for fourth earning $3,820 each.

Casper and LeGrange had closing round 67s.

Casper won the All America Gold Cup and the $5,000 cash for first that goes with it. The award goes to the golfer with the lowest combined scores for this tourney, the Masters, PGA and U.S. Open.

Arnold Palmer had a 10-stroke lead in the competition for the cup coming into this tourney, but decided to skip New Orleans and spurned the extra dough.

Deering Turns in Top Area Showing in State Meet

COLUMBIA - Deering's Delta C-7 Chargers turned in southeast Missouri's strongest showing in class M and S state high school track and field competition Friday and Saturday at Memorial stadium.

Winners of the class M district crown the previous weekend at Cape Girardeau, the Deering squad collected 11 points for a sixth place finish in the class M state meet.

Dexter and Southland each scored two points to round out Southeast Missouri scoring in class M competition. Advance scored one-half point for the district's only dent in the class S scoring column.

Principia took the class M championship with 23 points to oust defending champion Brentwood, which copped runnerup honors with 18. John Burroughs of St. Louis was third with 15, Cameron fourth with 13 1/2, Jasper fifth with 12 and Delta sixth with 11. Lockwood notched the class S crown with 21 points and a two-point margin over Fair Grove.

Roosevelt Thomas placed second in both the broad jump and 180-yard low hurdles to lead the Deering team's scoring. Alonzo Hurt placed third in the high jump for the Chargers' remaining three points. Andy Taylor put Dexter into the scoring column with a fourth place finish in the low hurdles. Stan Vaughn posted Southland's points with a fourth in the 440-yard dash. Steve Daniel tied for fith in the high jump to pick up Advance's half point.

The class L state meet is scheduled Saturday on the same field.

WEEKEND FIGHTS

Son Captures Racing Record From Father

DARLINGTON, S.C. (AP) - Lee Petty's NASCAR record of 54 victories in a career was surpassed in the Rebel 400 stock car race at Darlington Saturday, but Petty doesn't appear concerned about the situation.

The important thing, from the retired Petty's viewpoint, is that another Petty - son Richard - snapped the old mark.

Richard piloted his 1967 Plymouth to victory No. 55 despite a six - car crackup shortly after the green racing flag was waved, and also despite a hard - charging David Pearson in a new Holman - Moody Ford.

Petty, from Randleman, N.C., averaged 125.671 miles per hour for the one-lap triumph although there were five caution flags for a total of 31 laps. The Randleman Rocket led 266 of the 291 lap race over the mile and three - eights banked track.

Since retiring from race driving in 1961, the elder Petty has turned to producing topnotch cars for his son, as attested by the fact that Richard has gotten the checkered flag more times than any other NASCAR driver in history.

PUBLIC NOTICES

THE CITY OF SIKESTON, MISSOURI
Resolution

A resolution declaring the necessity for the construction of 1 1/2" hotmix asphaltic pavement on 6" soil cement base with concrete curb and gutter on Lee Street from Jaycee Street east approximately 700 feet, 28 feet wide, in the City of Sikeston, Missouri; stating the nature of the improvement; the estimated cost and providing that payment for all of the improvement shall be made by special tax bills levied and assessed against the abutting property. Be it resolved by the Council of the City of Sikeston, State of Missouri, as follows: SECTION 1: That the Council of the City of Sikeston, Missouri, deems and declares the construction of said Street necessary to the welfare and improvement of the City of Sikeston. SECTION 2: That the nature and scope of the improvement shall consist of furnishing all cost, including labor, materials and transportation necessary for the complete construction of the improvement. SECTION 3: That the estimated cost of the improvement is $4.50 per lineal foot of abutting property, to be charged against the lots and tracts of land abutting the improvement. SECTION 4: That pavement for all of the improvement shall be made by special tax bills evidencing special assessments against the abutting property in the manner specified by the statutes of the State of Missouri and the ordinances of the City of Sikeston, Missouri, because in the opinion of the City Council the General Revenue fund of the City of Sikeston is not in a condition to warrant an expenditure therefrom to pay for the improvement. SECTION 5: That any work performed on construction of the improvement shall be in compliance with the provisions of the prevailing wage laws of the State of Missouri, such prevailing wage rates having been established by the Industrial Commission of Missouri. SECTION 6: That the City Clerk is hereby authorized and directed to furnish a copy of this Resolution to a daily newspaper of general circulation in the City of Sikeston, so that it shall be published for several consecutive insertions. Read the first, second and third times and passed and approved this 1st day of May, 1967. Approved: Kendall Sikes Mayor; Attest: John W. Vaughn, City Clerk.

NOTICE OF SPECIAL ELECTION

WHEREAS, by ordinance duly enacted by the City of Sikeston, Missouri, and approved by the Mayor of said city on the 11th day of May, 1967, a franchise was granted to Associated Natural Gas Company, a corporation, to construct, maintain and operate a natural gas distribution system in the City of Sikeston, Missouri, subject to the approval of the majority of the qualified voters residing in the corporate limits of said City; and,

WHEREAS, the Mayor of said city was authorized and directed to issue a call and proclamation of such special election, to be held on the 13th day of June, 1967:

IT IS THEREFORE PROCLAIMED AND NOTICE IS HEREBY GIVEN to the voters of the City of Sikeston, Missouri, that a special election will be held in said City of Sikeston, Missouri, on the 13th day of June, 1967, for the approval of or disapproval of said franchise to Associated Natural Gas Company, a corporation, its successors and assigns, by Ordinance No. 3222, which Ordinance was duly enacted by the City Council of the City of Sikeston, Missouri, and approved by the Mayor of said City, on the 11th day of May, 1967, and which Ordinance is, in words and figures, as follows:

ORDINANCE NO. 3222

"AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF SIKESTON, MISSOURI, GRANTING TO THE ASSOCIATED NATURAL GAS COMPANY, A CORPORATION, ITS SUCCESSORS AND ASSIGNS, THE RIGHT AND PRIVILEGE AND FRANCHISE TO LAY GAS MAINS ALONG, UNDER AND THROUGH THE STREETS, AVENUES, ALLEYS, ROADS, AND HIGHWAYS AND OTHER PUBLIC PLACES OF THE CITY, FOR THE PURPOSE OF DISTRIBUTING AND SELLING GAS TO THE INHABITANTS OF SAID CITY AND TO OTHERS, AND ALSO THE RIGHT TO LAY PIPELINES IN, TO, THROUGH AND UNDER THE STREETS, ALLEYS, AVENUES, ROADS, HIGHWAYS AND OTHER PUBLIC PLACES AND GROUNDS OF THE CITY FOR THE PURPOSE OF CONVEYING GAS THROUGH AND IN SAID CITY FOR DISTRIBUTION AND SALE OF GAS TO THE INHABITANTS OF SAID CITY, AND TO OTHERS, FOR DOMESTIC, COMMERCIAL AND INDUSTRIAL PURPOSES, SUBJECT TO THE ITEMS HEREINAFTER PROVIDED."

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF SIKESTON, MISSOURI, AS FOLLOWS:

Section 1: That the City of Sikeston, Missouri, subject to the terms, conditions and stipulations mentioned in this Ordinance, hereby grants a franchise to Associated Natural Gas Company, a corporation organized and existing pursuant to the laws of the State of Delaware, Grantee, and to its successors, lessees, and assigns the right to lay, construct, equip, operate, repair and maintain a system of gas mains, pipes, conduits, and feeders for the purpose of supplying and distributing natural and/or artificial gas for light, fuel, power, and heat and for any other purpose, to the residents or inhabitants of the said City, and further, the right to lay, construct, operate and maintain a system of works and comprising buildings, machinery, gas mains, pipelines, pipe conduits, manholes, underground conduits, appurtenances and appliances of every kind and character necessary and proper in the conduct of said gas business within the corporate limits of the City as they now exist, or may hereafter be extended, for the purpose of distributing and selling gas to said City and to the residents or inhabitants thereof, and to others, and for the purpose of conveying, conducting or distributing gas from such system to any point beyond said City Limits.

Section 2: The Grantee herein is expressly given the right and permit to use the streets, avenues, roads, highways, alleys, sidewalks and other public places, as now laid out, or hereafter to be established, for the purpose of laying gas mains, pipelines, conduits and feeders, and the necessary attachments, fixtures, connections, buildings, structures and appurtenances for the purpose of conveying or conducting gas from any point within the said City or to any point beyond the City Limits of the said City or to any point, through and beyond the City Limits of said City, and to operate and maintain a system of pipelines, pipes, conduits, feeders and the necessary attachments, connections, buildings, structures, fixtures and appurtenances for the distribution of gas within said City to serve the said City and the residents and inhabitants thereof, and others; provided, however, that where alleys are accessible for laying mains and pipes, the City shall have the right to require that the mains and pipes shall be laid in the alleys instead of the streets, and plans for laying mains must be submitted to the City Manager or specially, appointed representatives before final designation is made.

Section 3: In the opening and refilling of all openings made by the Grantee, it shall relay the pavement and do all other work necessary to complete restoration of the streets, sidewalks or grounds to the condition equally as good as when disturbed.

Section 4: No fees or charges of any kind shall be imposed upon the Grantee or upon any successors, or upon any consumer of gas for the breaking or opening of any highway, street, road, avenue, alley, or other public places, or for the laying of any main, service pipe or other connections therein.

Nothing in this franchise shall be construed in such manner as to in any manner abridge the right of the City to pass and enforce the necessary police regulations for the purpose of protecting the citizens of said City and their property and the property of the Grantee.

Grantee shall at all times keep and display the necessary danger signals and proper guards around all excavations and obstructions, and shall as soon as practicable restore all openings on the highway, road, street, avenue, alley and other public places to condition equally as good as before said openings or obstructions were made.

Section 5: The Grantee shall do no injury to any highway, road, street, avenue, alley, lane, bridge, stream or water course, park or public place, nor in any manner disturb or interfere unnecessarily with electric lines, nor with any public or private sewer or drainage system, or water lines, now or hereafter laid or constructed by said City or by any authorized person or corporation, but no electric conduits or sewer or water pipes shall be so laid as to interfere unnecessarily with any gas main or pipes which shall have been laid prior to the time of laying such electric conduits, sewer or water pipes. The Grantee shall fully indemnify and save harmless the City from any and all claims for damages for which said City shall or might be made or become liable by reason of the granting of this franchise, or any negligence or carelessness on the part of said Grantee, or because of any act or omission of the Grantee in the construction and operation of its system of mains and pipes.

Section 6: The Grantee shall supply gas under the terms and conditions herein specified to all applicants not in arrears for any bills for gas, service, pipes, appliances, or other things, owning or occupying premises on or abutting the streets, avenues, or other public places in which such gas mains or conduits are laid.

The Grantee shall have the right to require a written agreement with all applicants for natural gas. The rate or rates to be charged for gas, the minimum monthly bill, the meter connection, moving or other charge, the amount of the immediate deposit, the terms and conditions under which gas is to be served the individual applicant, and other things shall be determined by such agreement. Such agreements are to conform with the state laws and regulations governing same.

The Grantee shall have the right to make and enforce as a part of the conditions under which it will supply gas for heat, power, light, fuel or other purposes as herein provided, all needful rules and regulations not inconsistent with law and the provisions of this franchise.

The rates charged and the Rules and Regulations under which service is to be supplied, for domestic, commercial and industrial consumption of gas shall be reasonable and as may be approved by the Public Service Commission of Missouri or the Commission or Regulatory Body then having jurisdiction over the rates of Grantee.

Section 7: The Grantee shall make, own and maintain all necessary connections with its mains, lay pipe to curb line, or to point on or near property line where no curb line has been determined, and may at its option install a service cock and box. Grantee will also designate location of, set and own the meter, but all other piping, connections and appliances for the purpose of utilizing gas shall be furnished and installed by the house owner, or consumer, at his risk and expenses.

Section 8: The Grantee shall furnish promptly to the proper authorities any and all information which may be requested by them in regard to the size, location or depths of any of the pipes, mains, conduits or service pipes, in any form whatsoever and any other information in regard to its occupation of roads, highways, streets, avenues or public grounds of said City, which they may demand. Whenever the word "Grantee" occurs in this Ordinance, it shall mean and it shall be understood to be the ASSOCIATED NATURAL GAS COMPANY, its successors, lessees, or assigns, and whenever the words "authorities" or "proper authorities" occur in this franchise they shall mean and shall be understood to mean the authorized officer or officers, committee or board representing the City of Sikeston, Missouri, or Grantor.

Section 9: All rights, privileges and authority granted by this Ordinance shall, upon its acceptance by Grantee in the manner hereinafter provided, be and remain in full force and effect for and during the term of ten years from and after its passage and approval; provided, this Franchise and all rights and privileges herein provided shall be extended for two (2) successive periods of five (5) years each, unless the municipality by notice given to the Company and by Ordinance duly enacted and approved at least six (6) months before the end of such term of ten (10) years, or before the end of the first extended term of five (5) years, as the case may be, shall declare such termination effective.

Section 10: Grantee shall file its written acceptance of this franchise Ordinance within sixty (60) days after its passage, and thereafter shall make proper application with the necessary and proper regulatory bodies for the necessary and proper permits to operate said gas system. Grantee shall, within twelve (12) months after procuring all of the necessary certificates of convenience and necessity and all other proper permits, both from the State of Missouri and the Federal Government, begin actual construction of laying gas lines for the distribution of gas in said City. All delays, however, occasioned by strikes, weather, riots, floods, war and acts of God shall be excepted from the performance period herein.

The City Council of Grantor may from time to time extend the periods provided in this Section.

Section 11: Grantee shall pay, and in consideration of the granting of this franchise agrees to pay, to the City as a franchise tax and compensation for the rights and privileges enjoyed hereunder, a sum equal to five (5%) per cent of its gross annual revenue from the sale of natural gas in said municipality, excluding any revenue derived from service to the municipality or any revenue from industrial consumers.

It is understood and agreed that the computations of the per cent of the revenue as above provided shall be computed on the basis of the revenue from January 1, through December 31, of each year prior to the year in which the payment shall be made.

The Company shall pay the City on or before the tenth day of each month the amount of the payments arrived at in the manner herein provided at the rate of 1/12 of such annual amount.

Such payments shall be in lieu of all other franchise, licenses or occupation taxes which may be levied or attempted to be levied by said City for said gas business. Upon request of the City, Grantee shall make available for examination by duly authorized representatives the necessary records to determine the payments made hereunder.

Section 12: Said Grantee shall have the full right and power to assign to any other person or persons, co-partnership, firm or corporation, any and all rights conferred upon it by the terms of this Ordinance, after it has installed, erected and built a gas distribution system; provided, that a mortgage or trust deed or judicial sales made thereunder or under tax sales or the transfer of this franchise to a subsidiary, shall not be deemed an assignment within the meaning of this Section. Any assignee of the rights of the Grantee herein, by accepting such assignment, shall thereby become subject to all of the terms, conditions and provisions of this Ordinance; and in the event of any assignment by said Grantee of the rights hereby conferred upon it, such assignment shall be in writing and a duly authenticated copy thereof shall be filed in the Office of the Clerk of said City of Sikeston, Missouri.

Section 13: The Grantee shall maintain sufficient, suitable and adequate pressure of gas in its mains, where the service line to consumer attaches to the Grantee's main or pipeline in a street or alley adjacent to such consumer's property line.

Section 14: If any Section, Paragraph, Subdivision, Clause, Phrase or Provision of this Ordinance shall be adjudged invalid or unconstitutional, the same shall not affect the validity of this Ordinance as a whole, or any part or provisions, other than the part so decided to be invalid or unconstitutional. All Ordinances or parts of Ordinances in conflict with any provision of this Ordinance are hereby repealed.

Section 15: The Grantor shall enact all needful Ordinances, rules and regulations for the protection of the property of the Grantee for the purpose of preserving and securing the Grantee all the rights, privileges, immunities and benefits granted herein.

Read three times and passed the 11th day of May, 1967.

APPROVED: Harry E. Dudley
Acting Mayor

ATTEST: John M. Vaughn
City Clerk

The ballot to be used in said election shall be as follows:

Seven Wonders of The World

THE TEMPLE OF ARTEMIS AT EPHESUS

Few actual construction details have come down to us about the Artemision -- the Temple of Artemis (Diana) at Ephesus in Asia Minor -- but it is known that the most imposing of the edifices built to her was the fifth one on the same site. It was begun after its predecessor had been destroyed in 356 B.C. by a spitefully set fire, and was completed by the end of that century with the help of Alexander the Great -- who legend says was born that very October night of the fire in 356.

The great Greek sculptor Praxiteles is believed to have created the new 220-ft-wide temple's main altar. The building's porticoed columns were 60 feet high -- all of dazzling white marble elaborately adorned with gold. The interior of the shrine was filled with art treasures.

Since other Greek temples had colonnades just as high and were of equal or greater area, it has been suggested that the Ephesian temple had some distinct element of grandiosity no longer known to us -- perhaps a lofty sculptured parapet of some imposing podium.

After a prosperous history, the Goths destroyed both the temple and Ephesus itself in 262 A. D. Although the city revived, and the cult of Artemis continued in spite of the spread of Christianity, neither ever recovered its former splendor.

Later on the Artemision, plundered and ruined after serving as a quary for local builders, was covered deep with mud by the local river or one of its tributaries. For a thousand years the exact location of the former Fourth Wonder of the World remained unknown -- until uncovered by British excavations in 1869.

PUBLIC NOTICES

THE CITY OF SIKESTON, MISSOURI
Resolution

A resolution declaring the necessity for the construction of 1 1/2" hotmix asphaltic pavement on 6" soil cement base with concrete curb and gutter on Lee Street from Jaycee Street east approximately 700 feet, 28 feet wide, in the City of Sikeston, Missouri; stating the nature of the improvement; the estimated cost and providing that payment for all of the improvement shall be made by special tax bills levied and assessed against the abutting property. Be it resolved by the Council of the City of Sikeston, State of Missouri, as follows: SECTION 1: That the Council of the City of Sikeston, Missouri, deems and declares the construction of said Street necessary to the welfare and improvement of the City of Sikeston. SECTION 2: That the nature and scope of the improvement shall consist of furnishing all cost, including labor, materials and transportation necessary for the complete construction of the improvement. SECTION 3: That the estimated cost of the improvement is $4.50 per lineal foot of abutting property, to be charged against the lots and tracts of land abutting the improvement. SECTION 4: That pavement for all of the improvement shall be made by special tax bills evidencing special assessments against the abutting property in the manner specified by the statutes of the State of Missouri and the ordinances of the City of Sikeston, Missouri, because in the opinion of the City Council the General Revenue fund of the City of Sikeston is not in a condition to warrant an expenditure therefrom to pay for the improvement. SECTION 5: That any work performed on construction of the improvement shall be in compliance with the provisions of the prevailing wage laws of the State of Missouri, such prevailing wage rates having been established by the Industrial Commission of Missouri. SECTION 6: That the City Clerk is hereby authorized and directed to furnish a copy of this Resolution to a daily newspaper of general circulation in the City of Sikeston, so that it shall be published for several consecutive insertions. Read the first, second and third times and passed and approved this 1st day of May, 1967. Approved: Kendall Sikes Mayor; Attest: John W. Vaughn, City Clerk.

THE CITY OF SIKESTON
MISSOURI
Resolution

A resolution declaring the necessity for the construction of 2" hotmix asphaltic surface on 7" soil cement base, 24 feet wide, on Ingram Road from Ables Road north to existing pavement in accordance with plans and specifications in the City of Sikeston, Missouri; stating the nature of the improvement; the estimated cost and providing that payment for all of the improvement shall be made by special tax bills levied and assessed against the abutting property. Be it resolved by the Council of the City of Sikeston, State of Missouri, as follows: SECTION 1: That the Council of the City of Sikeston, Missouri, deems and declares the construction of said Street necessary to the welfare and improvement of the City of Sikeston. SECTION 2: That the nature and scope of the improvement shall consist of furnishing all cost, including labor, materials and transportation necessary for the complete construction of the improvement. SECTION 3: That the estimated cost of the improvement is $2.75 per lineal foot of abutting property, to be charged against the lots and tracts of land abutting the improvement. SECTION 4: That payment for all of the improvement shall be made by special tax bills evidencing special assessments against the abutting property in the manner specified by the statutes of the State of Missouri and the ordinances of the City of Sikeston, Missouri, because in the opinion of the City Council the General Revenue fund of the City of Sikeston is not in a condition to warrant an expenditure therefrom to pay for the improvement. SECTION 5: That any work performed on construction of the improvement shall be in compliance with the provisions of the prevailing wage laws of the State of Missouri, such prevailing wage rates having been established by the Industrial Commission of Missouri. NOTICE OF SPECIAL ELECTION

WHEREAS, by ordinance duly enacted by the City of Sikeston, Missouri, and approved by the Mayor of said city on the 11th day of May, 1967, a franchise was granted to Associated Natural Gas Company, a corporation, to construct, maintain and operate a natural gas distribution system in the City of Sikeston, Missouri, subject to the approval of the majority of the qualified voters residing in the corporate limits of said City; and,

WHEREAS, the Mayor of said city was authorized and directed to issue a call and proclamation of such special election, to be held on the 13th day of June, 1967;

IT IS THEREFORE PROCLAIMED AND NOTICE IS HEREBY GIVEN to the voters of the City of Sikeston, Missouri, that a special election will be held in said City of Sikeston, Missouri, on the 13th day of June, 1967, for the approval of or disapproval of said franchise to Associated Natural Gas Company, a corporation, its successors and assigns, by Ordinance No. 3222, which Ordinance was duly enacted by the City Council of the City of Sikeston, Missouri, and approved by the Mayor of said City, on the 11th day of May, 1967, and which Ordinance is, in words and figures, as follows:

ORDINANCE NO. 3222

"AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF SIKESTON, MISSOURI, GRANTING TO THE ASSOCIATED NATURAL GAS COMPANY, A CORPORATION, ITS SUCCESSORS AND ASSIGNS, THE RIGHT AND PRIVILEGE AND FRANCHISE TO LAY GAS MAINS ALONG, UNDER AND THROUGH THE STREETS, AVENUES, ALLEYS, ROADS, AND HIGHWAYS AND OTHER PUBLIC PLACES OF THE CITY, FOR THE PURPOSE OF DISTRIBUTING AND SELLING GAS TO THE INHABITANTS OF SAID CITY AND TO OTHERS, AND ALSO THE RIGHT TO LAY PIPELINES IN, TO, THROUGH AND UNDER THE STREETS, ALLEYS, AVENUES, ROADS, HIGHWAYS AND OTHER PUBLIC PLACES AND GROUNDS OF THE CITY FOR THE PURPOSE OF CONVEYING GAS THROUGH AND IN SAID CITY FOR DISTRIBUTION AND SALE OF GAS TO THE INHABITANTS OF SAID CITY, AND TO OTHERS, FOR DOMESTIC, COMMERCIAL AND INDUSTRIAL PURPOSES, SUBJECT TO THE ITEMS HEREINAFTER PROVIDED."

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF SIKESTON, MISSOURI, AS FOLLOWS:

Section 1: That the City of Sikeston, Missouri, subject to the terms, conditions and stipulations mentioned in this Ordinance, hereby grants a franchise to Associated Natural Gas Company, a corporation organized and existing pursuant to the laws of the State of Delaware, Grantee, and to its successors, lessees, and assigns the right to lay, construct, equip, operate, repair and maintain a system of gas mains, pipes, conduits, and feeders for the purpose of supplying and distributing natural and/or artificial gas for light, fuel, power, and heat and for any other purpose, to the residents or inhabitants of the said City, and further, the right to lay, construct, operate and maintain a system of works and comprising buildings, machinery, gas mains, pipelines, pipe conduits, manholes, underground conduits, appurtenances and appliances of every kind and character necessary and proper in the conduct of said gas business within the corporate limits of the City as they now exist, or may hereafter be extended, for the purpose of distributing and selling gas to said City and to the residents or inhabitants thereof, and to others, and for the purpose of conveying, conducting or distributing gas from such system to any point beyond said City Limits.

Section 2: The Grantee herein is expressly given the right and permit to use the streets, avenues, roads, highways, alleys, sidewalks and other public places, as now laid out, or hereafter to be established, for the purpose of laying gas mains, pipelines, conduits and feeders, and the necessary attachments, fixtures, connections, buildings, structures and appurtenances for the purpose of conveying or conducting gas from any point within the said City or to any point beyond the City Limits of the said City or to any point, through and beyond the City Limits of said City, and to operate and maintain a system of pipelines, pipes, conduits, feeders and the necessary attachments, connections, buildings, structures, fixtures and appurtenances for the distribution of gas within said City to serve the said City and the residents and inhabitants thereof, and others; provided, however, that where alleys are accessible for laying mains and pipes, the City shall have the right to require that the mains and pipes shall be laid in the alleys instead of the streets, and plans for laying mains must be submitted to the City Manager or specially, appointed representatives before final designation is made.

Section 3: In the opening and refilling of all openings made by the Grantee, it shall relay the pavement and do all other work necessary to complete restoration of the streets, sidewalks or grounds to the condition equally as good as when disturbed.

Section 4: No fees or charges of any kind shall be imposed upon the Grantee or upon any successors, or upon any consumer of gas for the breaking or opening of any highway, street, road, avenue, alley, or other public places, or for the laying of any main, service pipe or other connections therein.

Nothing in this franchise shall be construed in such manner as to in any manner abridge the right of the City to pass and enforce the necessary police regulations for the purpose of protecting the citizens of said City and their property and the property of the Grantee.

Grantee shall at all times keep and display the necessary danger signals and proper guards around all excavations and obstructions, and shall as soon as practicable restore all openings on the highway, road, street, avenue, alley and other public places to condition equally as good as before said openings or obstructions were made.

Section 5: The Grantee shall do no injury to any highway, road, street, avenue, alley, lane, bridge, stream or water course, park or public place, nor in any manner disturb or interfere unnecessarily with electric lines, nor with any public or private sewer or drainage system, or water lines, now or hereafter laid or constructed by said City or by any authorized person or corporation, but no electric conduits or sewer or water pipes shall be so laid as to interfere unnecessarily with any gas main or pipes which shall have been laid prior to the time of laying such electric conduits, sewer or water pipes. The Grantee shall fully indemnify and save harmless the City from any and all claims for damages for which said City shall or might be made or become liable by reason of the granting of this franchise, or any negligence or carelessness on the part of said Grantee, or because of any act or omission of the Grantee in the construction and operation of its system of mains and pipes.

Section 6: The Grantee shall supply gas under the terms and conditions herein specified to all applicants not in arrears for any bills for gas, service, pipes, appliances, or other things, owning or occupying premises on or abutting the streets, avenues, or other public places in which such gas mains or conduits are laid.

The Grantee shall have the right to require a written agreement with all applicants for natural gas. The rate or rates to be charged for gas, the minimum monthly bill, the meter connection, moving or other charge, the amount of the immediate deposit, the terms and conditions under which gas is to be served the individual applicant, and other things shall be determined by such agreement. Such agreements are to conform with the state laws and regulations governing same.

The Grantee shall have the right to make and enforce as a part of the conditions under which it will supply gas for heat, power, light, fuel or other purposes as herein provided, all needful rules and regulations not inconsistent with law and the provisions of this franchise.

The rates charged and the Rules and Regulations under which service is to be supplied, for domestic, commercial and industrial consumption of gas shall be reasonable and as may be approved by the Public Service Commission of Missouri or the Commission or Regulatory Body then having jurisdiction over the rates of Grantee.

Section 7: The Grantee shall make, own and maintain all necessary connections with its mains, lay pipe to curb line, or to point on or near property line where no curb line has been determined, and may at its option install a service cock and box. Grantee will also designate location of, set and own the meter, but all other piping, connections and appliances for the purpose of utilizing gas shall be furnished and installed by the house owner, or consumer, at his risk and expenses.

Section 8: The Grantee shall furnish promptly to the proper authorities any and all information which may be requested by them in regard to the size, location or depths of any of the pipes, mains, conduits or service pipes, in any form whatsoever and any other information in regard to its occupation of roads, highways, streets, avenues or public grounds of said City, which they may demand. Whenever the word "Grantee" occurs in this Ordinance, it shall mean and it shall be understood to be the ASSOCIATED NATURAL GAS COMPANY, its successors, lessees, or assigns, and whenever the words "authorities" or "proper authorities" occur in this franchise they shall mean and shall be understood to mean the authorized officer or officers, committee or board representing the City of Sikeston, Missouri, or Grantor.

Section 9: All rights, privileges and authority granted by this Ordinance shall, upon its acceptance by Grantee in the manner hereinafter provided, be and remain in full force and effect for and during the term of ten years from and after its passage and approval; provided, this Franchise and all rights and privileges herein provided shall be extended for two (2) successive periods of five (5) years each, unless the municipality by notice given to the Company and by Ordinance duly enacted and approved at least six (6) months before the end of such term of ten (10) years, or before the end of the first extended term of five (5) years, as the case may be, shall declare such termination effective.

Section 10: Grantee shall file its written acceptance of this franchise Ordinance within sixty (60) days after its passage, and thereafter shall make proper application with the necessary and proper regulatory bodies for the necessary and proper permits to operate said gas system. Grantee shall, within twelve (12) months after procuring all of the necessary certificates of convenience and necessity and all other proper permits, both from the State of Missouri and the Federal Government, begin actual construction of laying gas lines for the distribution of gas in said City. All delays, however, occasioned by strikes, weather, riots, floods, war and acts of God shall be excepted from the performance period herein.

The City Council of Grantor may from time to time extend the periods provided in this Section.

Section 11: Grantee shall pay, and in consideration of the granting of this franchise agrees to pay, to the City as a franchise tax and compensation for the rights and privileges enjoyed hereunder, a sum equal to five (5%) per cent of its gross annual revenue from the sale of natural gas in said municipality, excluding any revenue derived from service to the municipality or any revenue from industrial consumers.

It is understood and agreed that the computations of the per cent of the revenue as above provided shall be computed on the basis of the revenue from January 1, through December 31, of each year prior to the year in which the payment shall be made.

The Company shall pay the City on or before the tenth day of each month the amount of the payments arrived at in the manner herein provided at the rate of 1/12 of such annual amount.

Such payments shall be in lieu of all other franchise, licenses or occupation taxes which may be levied or attempted to be levied by said City for said gas business. Upon request of the City, Grantee shall make available for examination by duly authorized representatives the necessary records to determine the payments made hereunder.

Section 12: Said Grantee shall have the full right and power to assign to any other person or persons, co-partnership, firm or corporation, any and all rights conferred upon it by the terms of this Ordinance, after it has installed, erected and built a gas distribution system; provided, that a mortgage or trust deed or judicial sales made thereunder or under tax sales or the transfer of this franchise to a subsidiary, shall not be deemed an assignment within the meaning of this Section. Any assignee of the rights of the Grantee herein, by accepting such assignment, shall thereby become subject to all of the terms, conditions and provisions of this Ordinance; and in the event of any assignment by said Grantee of the rights hereby conferred upon it, such assignment shall be in writing and a duly authenticated copy thereof shall be filed in the Office of the Clerk of said City of Sikeston, Missouri.

Section 13: The Grantee shall maintain sufficient, suitable and adequate pressure of gas in its mains, where the service line to consumer attaches to the Grantee's main or pipeline in a street or alley adjacent to such consumer's property line.

Section 14: If any Section, Paragraph, Subdivision, Clause, Phrase or Provision of this Ordinance shall be adjudged invalid or unconstitutional, the same shall not affect the validity of this Ordinance as a whole, or any part or provisions, other than the part so decided to be invalid or unconstitutional. All Ordinances or parts of Ordinances in conflict with any provision of this Ordinance are hereby repealed.

Section 15: The Grantor shall enact all needful Ordinances, rules and regulations for the protection of the property of the Grantee for the purpose of preserving and securing the Grantee all the rights, privileges, immunities and benefits granted herein.

Read three times and passed the 11th day of May, 1967.

AN ESTIMATED 250,000 marchers participated in a parade in New York City in a "Support Our Boys in Vietnam" demonstration. A vast majority of the marchers, made up of labor unions, veterans' organizations, Masons and Medal of Honor winners, carried American flags in support of our 442,000 American service men in Vietnam.

Muny Opera 1967 Season

ST. LOUIS, MO. -- The 1967 Municipal Opera season - the forty-ninth in the outdoor theater's history of colorful and lively summertime musical entertainment - will open June 5 and will include ten spectacular productions plus a unique special attraction, the Royal Ballet of London.

Glittering casts have been assembled for each of the regular ten productions, chosen from the brightest stars of Broadway, Hollywood, and television. Lavish scenery, stunning costumes, brilliant singing and dancing by Municipal Opera's own choruses, and a full 50-piece orchestra will again be highlights of all productions.

Of the ten shows in the regular repertory, four have never before been seen at Municipal Opera, and three of these are brand new to the St. Louis area. The four newcomers are: "Funny Girl," the musical biography of Ziegfeld star Fanny Brice, with song hits "People" and "Don't Rain on My Parade." "Funny Girl" came to St. Louis last season as part of a national tour. "On a Clear Day You Can See Forever," the melodic tale of psychiatry and reincarnation by Alan Jay Lerner (author of "My Fair Lady") and Burton Lane (composer of "Finian's Rainbow").

"It's a Bird . . . It's a Plane . . . It's Superman," the comic strip come to life about the Man of Steel and his unending fight against evil.

"Do I Hear a Waltz?" Richard Rodgers' moving romance about an American secretary's moment of love and happiness while she is a tourist in Venice.

Favorites from previous seasons in the repertory include:

"West Side Story," Leonard Bernstein's haunting drama of star-crossed young lovers in the concrete jungles of New York.

"Wish You Were Here," a light - hearted story of summer flirtations and romances at a Catskills Mountains summer resort.

"The New Moon," Sigmund Romberg's classic operetta that tells of romance and intrigue in French New Orleans in the 1790's.

"The Unsinkable Molly Brown," the rollicking tale of an Irish tomboy who goes West and joins international society after her husband strikes it rich in a silver mine.

"Gypsy," the musical biography of Gypsy Rose Lee and her ambitious mother, who was determined to make her daughter the biggest star of burlesque.

"The King and I," Rodgers' and Hammerstein's masterpiece about the prim English schoolteacher who goes to Siam to instruct the dozens of children of the all - powerful king.

Among the stars who will be featured in the Municipal Opera season are Anna Maria Alberghetti, in "West Side Story"; James Darren, Arlene Fontana, Lou Wills, and Karin Wolfe, in "Wish You Were Here"; Dorothy Collins, Enzo Stuarti, and Monique Van Vooren, in "Do I Hear a Waltz?"; Bob Holiday, Charles Nelson Reilly, Karen Morrow, and Richard France, in "Superman"; Bruce Yarnell, Margot Moser, and William Lewis, in "The New Moon."

Also Kaye Stevens and Yarnell in "The Unsinkable Molly Brown"; Marilyn Michaels, Danny Carrol, Molly Picon, and Norwood Smith, in "Funny Girl"; Van Johnson and Linda Lavin, in "On a Clear Day"; Jane Morgan and Jessica Walter, in "Gypsy"; and Ann Blyth, Pernell Roberts, and Jean Sanders, in "The King and I."

By special arrangement with Impresario S. Hurok and the British government, the Royal Ballet of London will extend its brief North American tour to appear at Municipal Opera from August 1 through 6. The company - the most famous dance organization in the world - has never before performed on an outdoor theater stage.

The company of 175 will fly to St. Louis directly from Vancouver, Canada to present a repertory of three full - length ballets: "Swan Lake," on August 1 and 2; "Giselle," on August 3 and 4; and "Romeo and Juliet," on August 5 and 6.

The dates for the remainder of the Municipal Opera season are: June 5 - 18 (14 nights), "West Side Story"; June 19-25, "Wish You Were Here"; June 26 - July 2, "Do I Hear a Waltz?"; June 3- 9 "Superman"; July 10-16, "The New Moon"; July 17 - 23, "The Unsinkable Molly Brown"; July 24 - 30, "Funny Girl"; August 7 - 13, "On a Clear Day You Can see Forever"; August 14 - 20, "Gypsy"; and August 21- September 3, "The King and I."

State Fair Grounds Put In Shape

SEDALIA -- Several projects are now under way to recondition and repair facilities at the Missouri State fair grounds for the 1967 fair, Wilbert Askew, secretary, said today. Fair dates this year are August 19-27.

The old grandstand, built in 1906, is now being razed to make way for new seating facilities that will seat about 13,000 persons. Temporary seating arrangements have been made for this year and concessions formerly housed in the grandstand will be relocated. The new grandstand is scheduled to be completed in time for the 1968 fair.

Askew noted that the one-mile dirt race track, considered one of the best in the country, is being completely overhauled. "We're reconditioning the track with new subsoils and dirt. It's the first time in ten years that the track has been completely overhauled," Askew said.

Work on the race track also includes alterations to the southeast corner which for years has been a "safety hazard" to race drivers, Askew noted. He explained that the steep incline on the inside curve will be filled, terraced and new grass will be planted to make a safer track for drivers.

Other chores underway include those of a housekeeping nature. Grass in many areas of the fair grounds has been cut and plants are being pruned as well as a general clean-up of the grounds and buildings.

The dairy barn is being completely repainted inside with white walls and ceilings and red, white and blue ceiling beams. Three additional painters have begun work on this project, according to Askew.

The swine pavilion judging arena is being partially rebuilt because of dry rot, Askew said. The building is being refurnished with new wood beams in many areas to strengthen the over - all structure, he said.

With workers buzzing and the summer months fast approaching, Askew is confident that this year's fair will be the best one yet.

The Inner Circle

By Brigadier Christine E. McMillan (R)

Deep in the heart of "Darkest Africa," David Livingstone wrote in his diary: "I read that Jesus came and said, 'Lo, I am with you alway.' It is the word of a gentleman, and that's an end to it. I will not cross the river furtively by night as I had intended. . ." No furtive crossing for him, he could do all things.

You and I have known others like Livingstone whose absolute faith in Christ has transcended doubt, fear and weakness. Staking their lives upon His word, the word of a gentleman, as Livingstone said, they live hour by hour in a deep, inner awareness of His presence.

Why is this strengthening, enabling experience known to some Christians and not to others? Is there an inner circle, a select community in which Christ is present and available and from which some are, for some reason, excluded?

It is true that in a very real sense there exists an aristocracy of the spirit, an inner circle of the friends of Jesus, but this is by no means a closed circle, nor is its membership limited.

The invitation to its fellowship becomes ours at conversion. Whether we are able to accept the invitation depends on us. For we cannot live in His presence nor share His love and the communion of His spirit if we do no know Him.

This failure to grow in knowledge of Him and in grace of spirit comes sometimes because we have not been fully instructed by those to whom our spiritual care is committed. Perhaps they have overstressed the importance of doing rather than being, forgetting that we must be still in order to know.

So we become extremely active in the service of the Kingdom, teaching in the Sunday-school, singing in the choir, joining fellowships and circles, playing in the band.

The trouble is that all this activity should be but the fruit of a dedicated spirit, making its work an offering to God because of gratitude and love. In other words, work for work's sake brings no spiritual rewards nor growth.

Others live in the delusion that the full, rich flowering of the spirit's life in Christ comes direct from God as a gift, which they must only accept to enjoy. Again and again they kneel before the altar to receive a blessing -- a blessing that will give them at once, and for all time, grace and contingency of life. No wonder they are disappointed.

They forget that grace and strength has only been promised for the hour of need, and then in unlimited abundance-- "As thy day so shall thy strength be." What is asked of us is a total commitment of the whole being to Christ forever. What follows is His acceptance of that commitment and our day by day cultivation of the presence of Christ by submitting our lives to His guidance.

In each life it is of vital importance that a part of every day be set apart for quiet, uninterrupted communion with Him. It is helpful to take each day a different aspect of Christ's life, thinking one day of Him as the Good Shepherd, and of all that His love and care mean. Kneeling before Him you may thank Him for the fact that He sought and found you, and gave His life for you. Another time you might think of Him as the Bread of Life, the Water of Life, the Light of the World; you may remember His humility, His tenderness, His compassion.

Then your heart will be still before Him, for you will find that you have no words with which to express your love and gratitude. You will see no vision nor hear any voice, but in the stillness and peace will take the plade of worry, doubt and fear. You will rise from your knees and go back into the life of every day knowing that He is with you, as He said.

Women's Health

By Elizabeth Stewart
Women's Medical News Service

ROCK 'N ROLL CAN DEAFEN

The noise level at teen-age rock 'n roll establishments is high enough to cause temporary, and possibly permanent, ear damage.

This observation was made at the recent annual meeting of the California Medical Association by Drs. Charles Lebo and John Garrett of the Presbyterian Medical Center and University of California Medical School in San Francisco.

With a sound engineer, the two physicians made acoustical recordings at two San Francisco rock 'n roll discotheques. They found that the sound level of the music ranged between 90 and 105 decibels, with peaks up to 120 decibels, equivalent to the noise of a jet engine. California industries must provide protection for employees if the noise level is above 85 decibels.

Teen - agers stay in these places for about four hours, long enough to produce temporary hearing losses, the physicians said. They cautioned that "repetitive exposure to such noise levels is likely to produce progressive, cumulative and permanent inner ear damage."

Dr. Garrett said he wore no ear protection and was unable to hear his watch tick for three hours after his exposure to a long period of rock 'n roll.

ABORTION CUT SHARPLY

One of the happy consequences of establishing a successful family planning clinic is that the plague of illegal abortions drops sharply. This observation was made by Drs. Donald P. Swartz, director of obstetrics and gynecology at New York's Hospital and Samuel M. Wishik, professor of maternal and child health and associate dean of the Grade School of Public Health at the University of Pittsburgh.

Dr. Swartz reported that illegal abortions have dropped by a whopping 50 per cent in his hospital in the four years since a family planning clinic was established in 1962. Dr. Wishik confirmed that reports from various sections of this country and abroad show there is a steady drop in abortion if contraceptives are readily available.

When women are given a choice of contraceptives, and when cost is no barrier, close to 60 percent of them select the pill, Dr. Swartz said. Next in popularity in his hospital is the intrauterine device (IUD). chosen by 30 percent.

The physicians made these observations at a recent meeting of the American College of Obstetricians and Gynecologists.

SKIN CARE GUIDE FOR LADY FAIR

Is it true that permanent waving is not successful during pregnancy? Is elecgrolysis for the removal of unwanted hair safe? Can white lipstick cause harm?

These and a variety of other questions pertaining to skin and hair care and to cosmetics are answered in an authoritative, simply written guide, THE LOOK YOU LIKE, prepared by the American Medical Association's Committee on Cutaneous Health and Cosmetics.

It can be purchased in the U. S. for $1.70 from the American Medical Association, 535 N. Dearborn Street, Chicago, Ill. 60610. It would be a splendid little gift for teenagers and for women tired of guessing about skin creams, hair dyes, acne and the like. P. S. The answer to the first question is 'no,' to the second, yes if done by a trained person, and to the third, 'no.'

Homeward bound, my neighbor was telling me about the harrowing day he had had. "What you need is a tranquilizer," I suggested.

"I had one," he replied. "But now she's president of the PTA."

Mrs. Harold Moore

YOUTH EMPLOYMENT

Would you hire a boy or girl of high-school age for part-time work during the summer months?

Employment during the summer can help these high school people help themselves and allow them to supplement the income of their families.

Even though the job you have may require only a few hours work, the extra money can help these students meet their school expenses next September when the new school term begins.

The Neighborhood Service Center will endeavor to be a liaison between citizens who have a job to be done and a willing high school student.

Persons interested in employing a high school boy or girl for part-time work call your local Neighborhood Service Center in New Madrid County.

High School Students wishing to work during the summer, please contact your local Neighborhood Service Center and sign up.

AN ESTIMATED 250,000 marchers participated in a parade in New York City in a "Support Our Boys in Vietnam" demonstration. A vast majority of the marchers, made up of labor unions, veterans' organizations, Masons and Medal of Honor winners, carried American flags in support of our 442,000 American service men in Vietnam.

Muny Opera 1967 Season

ST. LOUIS, MO. -- The 1967 Municipal Opera season - the forty-ninth in the outdoor theater's history of colorful and lively summertime musical entertainment - will open June 5 and will include ten spectacular productions plus a unique special attraction, the Royal Ballet of London.

Glittering casts have been assembled for each of the regular ten productions, chosen from the brightest stars of Broadway, Hollywood, and television. Lavish scenery, stunning costumes, brilliant singing and dancing by Municipal Opera's own choruses, and a full 50-piece orchestra will again be highlights of all productions.

Of the ten shows in the regular repertory, four have never before been seen at Municipal Opera, and three of these are brand new to the St. Louis area. The four newcomers are:

"Funny Girl," the musical biography of Ziegfeld star Fanny Brice, with song hits "People" and "Don't Rain on My Parade." "Funny Girl" came to St. Louis last season as part of a national tour.

"On a Clear Day You Can See Forever," the melodic tale of psychiatry and reincarnation by Alan Jay Lerner (author of "My Fair Lady") and Burton Lane (composer of "Finian's Rainbow").

"It's a Bird . . . It's a Plane . . . It's Superman," the comic strip come to life about the Man of Steel and his unending fight against evil.

"Do I Hear a Waltz?" Richard Rodgers' moving romance about an American secretary's moment of love and happiness while she is a tourist in Venice.

Favorites from previous seasons in the repertory include:

"West Side Story," Leonard Bernstein's haunting drama of star-crossed young lovers in the concrete jungles of New York.

"Wish You Were Here," a light - hearted story of summer flirtations and romances at a Catskills Mountains summer resort.

"The New Moon," Sigmund Romberg's classic operetta that tells of romance and intrigue in French New Orleans in the 1790's.

"The Unsinkable Molly Brown," the rollicking tale of an Irish tomboy who goes West and joins international society after her husband strikes it rich in a silver mine.

"Gypsy," the musical biography of Gypsy Rose Lee and her ambitious mother, who was determined to make her daughter the biggest star of burlesque.

"The King and I," Rodgers' and Hammerstein's masterpiece about the prim English schoolteacher who goes to Siam to instruct the dozens of children of the all - powerful king.

Among the stars who will be featured in the Municipal Opera season are Anna Maria Alberghetti, in "West Side Story"; James Darren, Arlene Fontana, Lou Wills, and Karin Wolfe, in "Wish You Were Here"; Dorothy Collins, Enzo Stuarti, and Monique Van Vooren, in "Do I Hear a Waltz?"; Bob Holiday, Charles Nelson Reilly, Karen Morrow, and Richard France, in "Superman"; Bruce Yarnell, Margot Moser, and William Lewis, in "The New Moon."

Also Kaye Stevens and Yarnell in "The Unsinkable Molly Brown"; Marilyn Michaels, Danny Carrol, Molly Picon, and Norwood Smith, in "Funny Girl"; Van Johnson and Linda Lavin, in "On a Clear Day"; Jane Morgan and Jessica Walter, in "Gypsy"; and Ann Blyth, Pernell Roberts, and Jean Sanders, in "The King and I."

By special arrangement with impresario S. Hurok and the British government, the Royal Ballet of London will extend its brief North American tour to appear at Municipal Opera from August 1 through 6. The company - the most famous dance organization in the world - has never before performed on an outdoor theater stage.

The company of 175 will fly to St. Louis directly from Vancouver, Canada to present a repertory of three full - length ballets: "Swan Lake," on August 1 and 2; "Giselle," on August 3 and 4; and "Romeo and Juliet," on August 5 and 6.

The dates for the remainder of the Municipal Opera season are: June 5 - 18 (14 nights), "West Side Story"; June 19-25, "Wish You Were Here"; June 26 - July 2, "Do I Hear a Waltz?"; June 3- 9 "Superman"; July 10-16, "The New Moon"; July 17 - 23, "The Unsinkable Molly Brown"; July 24 - 30, "Funny Girl"; August 7 - 13, "On a Clear Day You Can see Forever"; August 14 - 20, "Gypsy"; and August 21- September 3, "The King and I."

State Fair Grounds Put In Shape

SEDALIA -- Several projects are now under way to recondition and repair facilities at the Missouri State fair grounds for the 1967 fair, Wilbert Askew, secretary, said today. Fair dates this year are August 19-27.

The old grandstand, built in 1906, is now being razed to make way for new seating facilities that will seat about 13,000 persons. Temporary seating arrangements have been made for this year and concessions formerly housed in the grandstand will be relocated. The new grandstand is scheduled to be completed in time for the 1968 fair.

Askew noted that the one-mile dirt race track, considered one of the best in the country, is being completely overhauled. "We're reconditioning the track with new subsoils and dirt. It's the first time in ten years that the track has been completely overhauled," Askew said.

Work on the race track also includes alterations to the southeast corner which for years has been a "safety hazard" to race drivers, Askew noted. He explained that the steep incline on the inside curve will be filled, terraced and new grass will be planted to make a safer track for drivers.

Other chores underway include those of a housekeeping nature. Grass in many areas of the fair grounds has been cut and plants are being pruned as well as a general clean-up of the grounds and buildings.

The dairy barn is being completely repainted inside with white walls and ceilings and red, white and blue ceiling beams. Three additional painters have begun work on this project, according to Askew.

The swine pavilion judging arena is being partially rebuilt because of dry rot, Askew said. The building is being refurnished with new wood beams in many areas to strengthen the over - all structure, he said.

With workers buzzing and the summer months fast approaching, Askew is confident that this year's fair will be the best one yet.

The Inner Circle

By Brigadier Christine E. McMillan (R)

Deep in the heart of "Darkest Africa," David Livingstone wrote in his diary: "I read that Jesus came and said, 'Lo, I am with you alway.' It is the word of a gentleman, and that's an end to it. I will not cross the river furtively by night as I had intended. . ." No furtive crossing for him, he could do all things.

You and I have known others like Livingstone whose absolute faith in Christ has transcended doubt, fear and weakness. Staking their lives upon His word, the word of a gentleman, as Livingstone said, they live hour by hour in a deep, inner awareness of His presence.

Why is this strengthening, enabling experience known to some Christians and not to others? Is there an inner circle, a select community in which Christ is present and available and from which some are, for some reason, excluded?

It is true that in a very real sense there exists an aristocracy of the spirit, an inner circle of the friends of Jesus, but this is by no means a closed circle, nor is its membership limited.

The invitation to its fellowship becomes ours at conversion. Whether we are able to accept the invitation depends on us. For we cannot live in His presence nor share His love and the communion of His spirit if we do no know Him.

This failure to grow in knowledge of Him and in grace of spirit comes sometimes because we have not been fully instructed by those to whom our spiritual care is committed. Perhaps they have overstressed the importance of doing rather than being, forgetting that we must be still in order to know.

So we become extremely active in the service of the Kingdom, teaching in the Sunday-school, singing in the choir, joining fellowships and circles, playing in the band.

The trouble is that all this activity should be but the fruit of a dedicated spirit, making its work an offering to God because of gratitude and love. In other words, work for work's sake brings no spiritual rewards nor growth.

Others live in the delusion that the full, rich flowering of the spirit's life in Christ comes direct from God as a gift, which they must only accept to enjoy. Again and again they kneel before the altar to receive a blessing -- a blessing that will give them at once, and for all time, grace and contingency of life. No wonder they are disappointed.

They forget that grace and strength has only been promised for the hour of need, and then in unlimited abundance-- "As thy day so shall thy strength be." What is asked of us is a total commitment of the whole being to Christ forever. What follows is His acceptance of that commitment and our day by day cultivation of the presence of Christ by submitting our lives to His guidance.

In each life it is of vital importance that a part of every day be set apart for quiet, uninterrupted communion with Him. It is helpful to take each day a different aspect of Christ's life, thinking one day of Him as the Good Shepherd, and of all that His love and care mean. Kneeling before Him you may thank Him for the fact that He sought and found you, and gave His life for you. Another time you might think of Him as the Bread of Life, the Water of Life, the Light of the World; you may remember His humility, His tenderness, His compassion.

Then your heart will be still before Him, for you will find that you have no words with which to express your love and gratitude. You will see no vision nor hear any voice, but in the stillness and peace will take the plade of worry, doubt and fear. You will rise from your knees and go back into the life of every day knowing that He is with you, as He said.

Women's Health

By Elizabeth Stewart
Women's Medical News Service

ROCK 'N ROLL CAN DEAFEN

The noise level at teen-age rock 'n roll establishments is high enough to cause temporary, and possibly permanent, ear damage.

This observation was made at the recent annual meeting of the California Medical Association by Drs. Charles Lebo and John Garrett of the Presbyterian Medical Center and University of California Medical School in San Francisco.

With a sound engineer, the two physicians made acoustical recordings at two San Francisco rock 'n roll discotheques. They found that the sound level of the music ranged between 90 and 105 decibels, with peaks up to 120 decibels, equivalent to the noise of a jet engine. California industries must provide protection for employees if the noise level is above 85 decibels.

Teen - agers stay in these places for about four hours, long enough to produce temporary hearing losses, the physicians said. They cautioned that "repetitive exposure to such noise levels is likely to produce progressive, cumulative and permanent inner ear damage."

Dr. Garrett said he wore no ear protection and was unable to hear his watch tick for three hours after his exposure to a long period of rock 'n roll.

ABORTION CUT SHARPLY

One of the happy consequences of establishing a successful family planning clinic is that the plague of illegal abortions drops sharply. This observation was made by Drs. Donald P. Swartz, director of obstetrics and gynecology at New York's Hospital and Samuel M. Wishik, professor of maternal and child health and associate dean of the Grade School of Public Health at the University of Pittsburgh.

Dr. Swartz reported that illegal abortions have dropped by a whopping 50 per cent in his hospital in the four years since a family planning clinic was established in 1962. Dr. Wishik confirmed that reports from various sections of this country and abroad show there is a steady drop in abortion if contraceptives are readily available.

When women are given a choice of contraceptives, and when cost is no barrier, close to 60 percent of them select the pill, Dr. Swartz said. Next in popularity in his hospital is the intrauterine device (IUD). chosen by 30 percent.

The physicians made these observations at a recent meeting of the American College of Obstetricians and Gynecologists.

SKIN CARE GUIDE FOR LADY FAIR

Is it true that permanent waving is not successful during pregnancy? Is elecgrolysis for the removal of unwanted hair safe? Can white lipstick cause harm?

These and a variety of other questions pertaining to skin and hair care and to cosmetics are answered in an authoritative, simply written guide, THE LOOK YOU LIKE, prepared by the American Medical Association's Committee on Cutaneous Health and Cosmetics.

It can be purchased in the U. S. for $1.70 from the American Medical Association, 535 N. Dearborn Street, Chicago, Ill. 60610. It would be a splendid little gift for teenagers and for women tired of guessing about skin creams, hair dyes, acne and the like. P. S. The answer to the first question is 'no,' to the second, yes if done by a trained person, and to the third, 'no.'

Homeward bound, my neighbor was telling me about the harrowing day he had had. "What you need is a tranquilizer," I suggested.

"I had one," he replied. "But now she's president of the PTA."

Mrs. Harold Moore

YOUTH EMPLOYMENT

Would you hire a boy or girl of high-school age for part-time work during the summer months?

Employment during the summer can help these high school people help themselves and allow them to supplement the income of their families.

Even though the job you have may require only a few hours work, the extra money can help these students meet their school expenses next September when the new school term begins.

The Neighborhood Service Center will endeavor to be a liaison between citizens who have a job to be done and a willing high school student.

Persons interested in employing a high school boy or girl for part-time work call your local Neighborhood Service Center in New Madrid County.

High School Students wishing to work during the summer, please contact your local Neighborhood Service Center and sign up.

IF YOU WERE THE JUDGE

By Jack Strass L. L. D.

THE CASE OF THE PUNISHING DRAFT BOARD

A group of students converted their college yell into an anti-Vietnam war whoop. Missing many opportunities to keep quiet, they paraded up and down streets loudly protesting the morality and propriety of the government's involvment in the Asian conflict. They were so vehement in their protests, in fact, that the harried dean of the college couldn't have had his hands fuller if he had been milking a cow. What's more, they disrupted the entire community.

The result? The local draft board took action. It revoked all student deferments and reclassified the male protestors 1-A.

"By carrying on in such an outrageous manner," they were told, "you're injuring the nation and the war effort. With a preferred classification, you should have preferred to keep quiet."

"If Patrick Henry kept quiet," retorted a student, "we might still be in the hands of the Red Coats. As American citizens, it's not only our right, but it's our duty to protest when the government's policy is unjust and wrong."

Intent upon regaining their 1-S classification, the students took the revocation to court.

IF YOU WERE THE JUDGE, would you back-up the action of the draft board?

This is how the judge ruled: No! The judge held that the Universal Military Training & Service Act does not empower local draft boards to punish registrants for engaging in anti-Vietnam war protests. Their right to protest, noted the judge, is their privilege under the First Amendment.

(Based upon a 1967 U.S. Court of Appeals Decision)

TODAYS LEGAL POINTER:

If you feel compelled to sign a contract without prior review by your attorney, insert the notation by your signature "Subject to the approval of my attorney." While the notation may afford you some protection, all agreements should be reviewed by your attorney before you sign them no matter how insignificant you may consider them.

Miss Mary Gray, daughter of Mr. and Mrs. John Gray, will leave June 1 for Memphis, Tenn., where she has enrolled in the Baptist Memorial Hospital in that city for nurses training.

Mr. and Mrs. G. Moore Greer have sold their home, 505 North Ranney, to Dr. and Mrs. E. J. Nienstedt. Mr. and Mrs. Greer expect to build something temporary on the Greer Estate, west of Sikeston on Highway 60, and will reside in same until a permanent home will be built.

Malone Theatre, tomorrow, "Razor's Edge" with Tyrone Power and Gene Tierney. Rex Theatre, "Lady on a Train" with Deanna Durbin and Ralph Bellamy.

Hospital notes. Mr. and Mrs. Vernon Puckett of New Madrid are parents of a son born Tuesday.

Mr. and Mrs. R. L. Jackson of Morehouse are parents of a daughter born Wednesday.

ANN LANDERS

Answers Your Questions

Dear Ann Landers: I know you are originally from Sioux City, Iowa. Will you please prevent another Sioux City girl from doing something which is utterly ridiculous? I do not know the young lady personally but I am enclosing a clipping from the Dubuque Telegraph-Herald.

The girl I am worried about is Miss Iowa. As you can see from the clipping, Miss Iowa plans to be married to a young man who is studying for the ministry. Now the next part is what worries me. She said, and I quote: "Singing is my major talent. My fiance and I are going to sing 'Because' before the ceremony, we will sing 'The Wedding Prayer' during the ceremony and 'The Lord's Prayer' after we are pronounced man and wife -- before we kiss."

Maybe Miss Iowa didn't read those letters in your column from the goofs who sang at their own weddings. I hate to see this lovely girl do something dumb. Please tell her not to. -- A SISTER IOWAN.

Dear Sister Iowan: The girl did not write me, and I would not be so presumptuous as to tell her anything.

What I said about people singing at their own weddings still goes, but this is a matter of personal opinion. If Miss Iowa wants to call hogs at her wedding -- and if she can get a clergyman who will allow it -- it's perfectly all right with me.

Dear Ann Landers: About the letter from Irving's wife -- the woman who complained because her husband drops by his mother's house every morning on his way to work, and telephones her every night before he goes to sleep: Please tell her she should be thankful it is only his mother.

My husband has had another woman on the side for four years. I always used to get up and fix him a nice breakfast. When he started to see this woman he told me I should stay in bed and sleep. I suspected something was going on and I was right. He calls her every night from the downstairs phone after he thinks I have fallen asleep. The poor sap must believe I am deaf, dumb and blind.

I am not asking for advice. The mother of five children doesn't have any choice, but it might help women who are married to mama's boys to know that a mama's boy is rarely a cheater. They have a lot to be thankful for. -- SECOND BEST

Dear Best: You are right -- a mama's boy is rarely a cheater, and while no one gets the opportunity to choose his particular brand of trouble, your letter might be a comfort to Irving's wife and to others who share her problem. Thanks for writing.

Dear Ann Landers: Recently someone wrote and asked why an eight-year-old boy who has everything a youngster could ask for would go into the purse of a woman visitor and steal $5. Now I'd like to ask another question. Why would a 57-year-old woman who is a respected member of the community, and a church worker at that, write dirty words on the walls of public restrooms with her lipstick?

I was shocked when I caught her doing this and I put the question to her. She replied, "I do it for fun."

Will you please explain to me what kind of fun is this, Ann Landers? I am baffled. -- R.A.P.

Dear R.A.P.: Few things produce a better clue to a person's mental health than what they consider "fun." This woman is out of her tree.

Want to say "no" to drinking without your buddies putting you down? Get cued in. Write for "Booze and You -- For Teen-Agers Only," by Ann Landers. Send 35 cents in coin and a long, self-addressed, stamped envelope with your request.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper, enclosing a self-addressed, stamped envelope.

The Prayer

From The Upper Room

Peter was still thinking deeply about the vision when the Spirit said to him, "Three men are here looking for you. Get up and go downstairs. Go with them without any misgiving, for I myself have sent them." (Acts 10:19-21, Phillips)

PRAYER: O heavenly, Father, teach us to be sensitive to the Spirit's leading today. Help us to do Thy will in all things. We pray in the name of Christ, who died upon the cross to open the doors of heaven for sinners everywhere. Amen.

Five Bullets Kill Man

SPRINGFIELD, AP - Richard Rieland, 32, died Friday night of bullet wounds suffered the night before near a tavern west of Springfield.

County prosecutor Jack Yocum said the assault and intent to kill charge filed Friday against Rex Boykin, 39, would be changed to homicide.

Yocum also said an inquest into the death would be held early next week.

Rieland was struck by five bullets from a .22 caliber revolver.

When I stopped for gas at a country service station in Maine, an out-of-state car pulled up in front of me. Four or five kids piled out and raced for the rest rooms, hooting and shouting. A man got out, told the attendant to "fill 'er up," and then stood quietly contemplating the scenery. His wife remained in the back seat. The attendant nodded in the direction of a slack rear tire, and said, "She looks a little low."

Still taking in the view, the man sighed. "Yeah, I know," he said. "But she'll perk up as soon as we unload the kids at her mother's."

Paul H. Greeley, Jr.

"YOU CAN'T LOSE WITH U.S. SAVINGS BONDS," says Mrs. Ramona Deitemeyer, Mrs. America 1956. "They are truly the seeds for an ample tomorrow. Bonds have paid for 17 years' college for our children; they can help you, too." Now regular Bond buyers can also buy higher-paying Freedom Shares through Payroll Savings or Bond-A-Month Plans.

SURROUNDED BY OFFICERS of the new Scottish Rite class, Edwin Mueller, center, Webster Groves, chairman of the candidates committee, who joined Scotish Rite in 1914 before most were born, reminisces with the men. From left, William F. Handy, Jr., University City, president; W. Earl Andrews, New Madrid, vice - president; William E. Gutebier, Bellefontaine Neighbors, secretary; the Rev. George A. Hammon, pastor of the First Baptist Church of Festus - Crystal City, orator, and Billy L. Brigance, Kennett, treasurer, seated on sofa arm.

Largest Scottish Rite Since 1924 Enrolled

ST. LOUIS -- The largest Scottish Rite class since 1924, approximately 500 men, was enrolled in the organization in ceremonies at Scottish Rite cathedral.

Officials of the rite stated that it was not only the largest class in 43 years, but was one of the youngest classes in point of individual ages. Membership is now at a new peak in the St. Louis Valley of 15,000 with a total of 26,000 for the state.

It was also announced that for the first time the Scottish Rite will hold another membership reunion in June.

J. Thomas Crunk, Kennett, set a new record by enrolling 57 new members followed by Virgil H. P. Baldwin, Marston, who placed 20 applications, and Irving Jaffee, St. Louis, 10.

Walter C. Ploeser, deputy in Missouri for the supreme council, congratulated the membership of the rite "for this truly outstanding success in bringing fine new men into the Scottish Rite.

"This is in addition to being one of the largest classes, one of the most representative classes in recent years," he added.

The class elected the following officers:

President, William F. Handy, Jr., University City; vice president, W. Earl Andrews, New Madrid; secretary; William E. Gutebier, Bellefontaine Neighbors; treasurer, Billy L. Brigance, Kennett, and orator, the Rev. George A. Hammon, Crystal City.

To join Scottish Rite a man must be a Master Mason of the Ancient Free and Accepted Order of Freemasonry. There are 117,000 members in Missouri.

Scottish Rite, which had its birth in the European Enlightenment of the 18th Century, was first organized in the United States at Charleston, South Carolina, as one of the related Bodies of Freemasonry.

In addition to adhering to the principles of Freemasonry, Scottish Rite is dedicated to the preservation of the American Constitution, patriotism, law and order, support of the American system of free public schools, and separation of church and state.

Letters to the Editor

Dear Editor:

I witnessed the most beautiful sight in Sikeston the other morning. I took my two children, Angelia and Jimmy, to school. I sat in my car and watched the children play. I saw a boy raise the American flag. Another boy took a whistle and blew it, and all the children on the playground stopped what they were doing and put their hands over their hearts.

My heart was blessed all day. I just thought of all the hustle and bustle in the world, and I thanked God for people like Mr. Mays and all the fine teachers at Airport School for taking time to teach my children and other children to respect the flag. It will be something that they will never forget throughout their lives.

Thanks,
Mrs. James C. Crowson

TO THE EDITOR:

How do you like knowing that as a private citizen, your vote doesn't really count in the election of the President? Unless you live in one of the 11 states that have the big political machines and consequently control the majority of the electoral votes, your vote doesn't count. The areas most affected are the small towns and suburbs. And these are the very citizens we, as a great Republic, cannot afford to lose for they are the backbone of our nation. The Electoral College system needs to be reformed. The direct vote plan would abolish it; the Congressional District plan would preserve it and our integrity as a great Republican. The time is "now" for this reform measure; 1968 may be too late. One of our most important basic freedoms must be preserved.

Miss Hillis Honored with Bridal Shower

MOREHOUSE -- Miss Sue Hillis, who will become the bride of Dwayne Mills, June 2, was honored with a bridal shower, May 5, by the Kings Daughters class at the First Baptist church.

The color theme was carried out in the bride's colors of white and blue. The gift table was decorated in blue with white wedding bells; the refreshment table was centered with a bride doll. Punch and cake were served by Mrs. Judy Hux and Miss Patti Taylor.

Attending or sending gifts were: Dale Sexton, Kenneth Sexton, Viva Sexton, Mrs. Bertha Savage, Mrs. Doris Jackson and Regina, Mrs. Opal Harris, Mrs. Judi Hux, Mrs. B. G. Hillis, Mrs. Evelyn Taylor and Judy and Patti, Mrs. Bernice Bryant and Susie, Mrs. Martha Clark, Mrs. Niva Breeden and Jane, Mr. and Mrs. Joe Donnor.

Mrs. Jean Westerfield, Mrs. Emma Bohannon and Donna, Mrs. Bernita Marshall, Mrs. Wanda Dill, Mrs. Elzie Smith of Dexter, Mrs. Arvella McFarling, Mrs. Jim Sexton, the Rev. and Mrs. Glen Bohannon, Vela Cummins, J.E. Ray, Mrs. Ed Orr and Barbara.

Mrs. N. G. Crumpecker, Mr. and Mrs. Ray Marshall, Sr., Mrs. Georgia Henning, Vennie Daniel, Mrs. Margaret Hewitt, Mrs. Tinnon and Sheila, Mrs. Mildred Todd, Mrs. Eva Laminact, Norm, Jean and Bret Sanders of Poplar Bluff.

Mrs. Austin Manes, Mr. and Mrs. Eddie Hillis of Cape Girardeau, Nell Owens, Maxine Hale, Mr. and Mrs. A.V. Mills and Mr. and Mrs. Kenneth Mills, all of Vanduser, Mr. and Mrs. Wade McArthur and Mr. and Ernest Oliver of Adkins, Ark., G. G. Hills, Mrs. L. I. Denton of East Prairie, Miss Jane Tinnon, Mrs. Reba Tinnon and Miss Linda Bohannon.

A Youth For Christ meeting was held at Benton, May 6. Attending from Morehouse were: Donna Bohannon, Regina Jackson, Janie Breeden, Linda Neal, Sharon Breeden, Peggy Orr, Sandy Twitty, Carlene Winkle, Danny Sutton, Steve Westerfield, and Kelly Westerfield. The adult leaders were Mr. and Mrs. Bill Westefield and Mrs. Lloyd Jackson.

DU QUOIN FAIR SHOW FEATURES INTERNATIONAL TALENT

Although the Eddy Arnold Show, billed as the Du Quoin State Fair's nightly attraction Aug. 28 through Sept. 3, stars that all-American entertainer, Eddy's guest star list features brilliant acts familiar to several continents.

Arnold, who has become a popular personality in even the more sophisticated clubs here and abroad, likes plenty of variety among his career colleagues, having hobnobbed professionally with such internationals as The Rolling Stones and Petula Clark.

On the special Du Quoin show, one of the top international groups appearing with him is The Tokyo Happy Coats, five Japanese sisters who dress in the traditional Nipponese "happy coat" costumes. They not only sing and dance everything from the "monkey" to rhumba but also parlay rock'n roll to Latin and Jazz rhythms on a multitude of instruments.

Roger Ray, one of the most popular comedians ever to appear at Du Quoin, will be back for his third time, winging in over international waters from the Continent and London's Palladium. Presently, Bob Hope, Rosemary Clooney and George Kirby are the only other top-flight single acts who have been offered return engagement contracts in the Fair's 44-year history.

Another internationally famous act on the Eddy Arnold Show is The Agostinos, hailed from Milano to Montreal as one of the greatest comedy - acrobatic teams ever to match boy and girl, and from Broadway come Hal Sands' dancing Manhattan Rockets after a year's absence from Du Quoin's enormous grandstand theatre.

Also featured is the man the stars call entertainment business' greatest "showbacker," Lou Breese, who will appear with his famous recording orchestra.

For ticket information, write or call Du Quoin State Fair ticket office, Du Quoin, Ill. Ticket windows are now open Mon. through Friday from 9 a.m. until 5 p.m.

Armed Forces

FT. EUSTIS, Va. (AHTNC) -- Private Johnnie R. Lane, 24, son of Mr. and Mrs. Leo Lane, Route 1, Parma, Mo., completed an airframe repair course at the Army Transportation School, Ft. Eustis, Va., May 9.

During the eight - week course, he was trained in the maintenance and repair of sheet metal surfaces and plastic sections of Army aircraft.

His wife, Norma, lives at 1251 Burwood, La Habra, Calif.

FT. WOLTERS, TEX. (AHTNC) -- Second Lieutenant Glen J. Stine, 29, son of Richard L. Stine, Route 1, Lilbourn, Mo., completed a 16 - week helicopter pilot course at the Army Primary Helicopter School, Ft. Wolters, Tex., April 28.

During the course, he was trained to fly Army helicopters and learned to use them in tactical maneuvers.

He will next undergo advanced flight training at the Army Aviation School, Ft. Rucker, Ala.

His wife, Jo, lives at 2005 E. Main, Gatesville, Tex.

I was helping my husband survey some remote mining claims adjacent to Colorado's White River National Forest. There we became quite fond of a grizzled herder who tended a flock of sheep, and we often shared his coffee. One day we tried to sound out our nomadic friend's opinions on things political, but he clearly was not concerned. In such a setting, his attitude was understandable. "I guess even the Great Society can't touch us up here," I said contentedly.

"Well, now, I ain't too sure about that, ma'am," drawled the herder. "Only yesterday I seen some tracks down by the crick."

IF YOU WERE THE JUDGE

By Jack Strass L. L. D.

THE CASE OF THE PUNISHING DRAFT BOARD

A group of students converted their college yell into an anti-Vietnam war whoop. Missing many opportunities to keep quiet, they paraded up and down streets loudly protesting the morality and propriety of the government's involvment in the Asian conflict. They were so vehement in their protests, in fact, that the harried dean of the college couldn't have had his hands fuller if he had been milking a cow. What's more, they disrupted the entire community.

The result? The local draft board took action. It revoked all student deferments and reclassified the male protestors 1-A.

"By carrying on in such an outrageous manner," they were told, "you're injuring the nation and the war effort. With a preferred classification, you should have preferred to keep quiet."

"If Patrick Henry kept quiet," retorted a student, "we might still be in the hands of the Red Coats. As American citizens, it's not only our right, but it's our duty to protest when the government's policy is unjust and wrong."

Intent upon regaining their 1-S classification, the students took the revocation to court.

IF YOU WERE THE JUDGE, would you back-up the action of the draft board?

This is how the judge ruled: No! The judge held that the Universal Military Training & Service Act does not empower local draft boards to punish registrants for engaging in anti-Vietnam war protests. Their right to protest, noted the judge, is their privilege under the First Amendment.

(Based upon a 1967 U.S. Court of Appeals Decision)

Largest Scottish Rite Since 1924 Enrolled

ST. LOUIS -- The largest Scottish Rite class since 1924, approximately 500 men, was enrolled in the organization in ceremonies at Scottish Rite cathedral.

Officials of the rite stated that it was not only the largest class in 43 years, but was one of the youngest classes in point of individual ages. Membership is now at a new peak in the St. Louis Valley of 15,000 with a total of 26,000 for the state.

It was also announced that for the first time the Scottish Rite will hold another membership reunion in June.

J. Thomas Crunk, Kennett, set a new record by enrolling 57 new members followed by Virgil H. P. Baldwin, Marston, who placed 20 applications, and Irving Jaffee, St. Louis, 10.

Walter C. Ploeser, deputy in Missouri for the supreme council, congratulated the membership of the rite "for this truly outstanding success in bringing fine new men into the Scottish Rite.

"This is in addition to being one of the largest classes, one of the most representative classes in recent years," he added.

The class elected the following officers:

President, William F. Handy, Jr., University City; vice president, W. Earl Andrews, New Madrid; secretary; William E. Guiebier, Bellefontaine Neighbors; treasurer, Billy L. Brigance, Kennett, and orator, the Rev. George A. Hammon, Crystal City.

To join Scottish Rite a man must be a Master Mason of the Ancient Free and Accepted Order of Freemasonry. There are 117,000 members in Missouri.

Scottish Rite, which had its birth in the European Enlightenment of the 18th Century, was first organized in the United States at Charleston, South Carolina, as one of the related Bodies of Freemasonry.

In addition to adhering to the principles of Freemasonry, Scottish Rite is dedicated to the preservation of the American Constitution, patriotism, law and order, support of the American system of free public schools, and separation of church and state.

Letters to the Editor

Dear Editor:

I witnessed the most beautiful sight in Sikeston the other morning. I took my two children, Angelia and Jimmy, to school. I sat in my car and watched the children play. I saw a boy raise the American flag. Another boy took a whistle and blew it, and all the children on the playground stopped what they were doing and put their hands over their hearts.

My heart was blessed all day. I just thought of all the hustle and bustle in the world, and I thanked God for people like Mr. Mays and all the fine teachers at Airport School for taking time to teach my children and other children to respect the flag. It will be something that they will never forget throughout their lives.

Thanks,
Mrs. James C. Crowson

TO THE EDITOR:

How do you like knowing that as a private citizen, your vote doesn't really count in the election of the President? Unless you live in one of the 11 states that have the big political machines and consequently control the majority of the electoral votes, your vote doesn't count. The areas most affected are the small towns and suburbs. And these are the very citizens we, as a great Republic, cannot afford to lose for they are the backbone of our nation. The Electoral College system needs to be reformed. The direct vote plan would abolish it; the Congressional District plan would preserve it and our integrity as a great Republican. The time is "now" for this reform measure; 1968 may be too late. One of our most important basic freedoms must be preserved.

Miss Hillis Honored with Bridal Shower

MOREHOUSE -- Miss Sue Hillis, who will become the bride of Dwayne Mills, June 2, was honored with a bridal shower, May 5, by the Kings Daughters class at the First Baptist church.

The color theme was carried out in the bride's colors of white and blue. The gift table was decorated in blue with white wedding bells; the refreshment table was centered with a bride doll. Punch and cake were served by Mrs. Judy Hux and Miss Patti Taylor.

Attending or sending gifts were: Dale Sexton, Kenneth Sexton, Viva Sexton, Mrs. Bertha Savage, Mrs. Doris Jackson and Regina, Mrs. Opal Harris, Mrs. Judi Hux, Mrs. B. G. Hillis, Mrs. Evelyn Taylor and Judy and Patti, Mrs. Bernice Bryant and Susie, Mrs. Martha Clark, Mrs. Niva Breeden and Jane, Mr. and Mrs. Joe Donnor.

Mrs. Jean Westerfield, Mrs. Emma Bohannon and Donna, Mrs. Bernita Marshall, Mrs. Wanda Dill, Mrs. Elzie Smith of Dexter, Mrs. Arvella McFarling, Mrs. Jim Sexton, the Rev. and Mrs. Glen Bohannon, Vela Cummins, J.E. Ray, Mrs. Ed Orr and Barbara.

Mrs. N. G. Crumpecker, Mr. and Mrs. Ray Marshall, Sr., Mrs. Georgia Henning, Vennie Daniel, Mrs. Margaret Hewitt, Mrs. Tinnon and Sheila, Mrs. Mildred Todd, Mrs. Eva Laminact, Norm, Jean and Bret Sanders of Poplar Bluff.

Mrs. Austin Manes, Mr. and Mrs. Eddie Hillis of Cape Girardeau, Nell Owens, Maxine Hale, Mr. and Mrs. A.V. Mills and Mr. and Mrs. Kenneth Mills, all of Vanduser, Mr. and Mrs. Wade McArthur and Mr. and Ernest Oliver of Adkins, Ark., G. G. Hills, Mrs. L. I. Denton of East Prairie, Miss Jane Tinnon, Mrs. Reba Tinnon and Miss Linda Bohannon.

A Youth For Christ meeting was held at Benton, May 6. Attending from Morehouse were: Donna Bohannon, Regina Jackson, Janie Breeden, Linda Neal, Sharon Breeden, Peggy Orr, Sandy Twitty, Carlene Winkle, Danny Sutton, Steve Westerfield, and Kelly Westerfield. The adult leaders were Mr. and Mrs. Bill Westefield and Mrs. Lloyd Jackson.

DU QUOIN FAIR SHOW FEATURES INTERNATIONAL TALENT

Although the Eddy Arnold Show, billed as the Du Quoin State Fair's nightly attraction Aug. 28 through Sept. 3, stars that all-American entertainer, Eddy's guest star list features brilliant acts familiar to several continents.

Arnold, who has become a popular personality in even the more sophisticated clubs here and abroad, likes plenty of variety among his career colleagues, having hobnobbed professionally with such internationals as The Rolling Stones and Petula Clark.

On the special Du Quoin show, one of the top international groups appearing with him is The Tokyo Happy Coats, five Japanese sisters who dress in the traditional Nipponese "happy coat" costumes. They not only sing and dance everything from the "monkey" to rhumba but also parlay rock'n roll to Latin and Jazz rhythms on a multitude of instruments.

Roger Ray, one of the most popular comedians ever to appear at Du Quoin, will be back for his third time, winging in over international waters from the Continent and London's Palladium. Presently, Bob Hope, Rosemary Clooney and George Kirby are the only other top-flight single acts who have been offered return engagement contracts in the Fair's 44-year history.

Another internationally famous act on the Eddy Arnold Show is The Agostinos, hailed from Milano to Montreal as one of the greatest comedy - acrobatic teams ever to match boy and girl, and from Broadway come Hal Sands' dancing Manhattan Rockets after a year's absence from Du Quoin's enormous grandstand theatre.

Also featured is the man the stars call entertainment business' greatest "showbacker," Lou Breese, who will appear with his famous recording orchestra.

For ticket information, write or call Du Quoin State Fair ticket office, Du Quoin, Ill. Ticket windows are now open Mon. through Friday from 9 a.m. until 5 p.m.

Armed Forces

FT. EUSTIS, Va. (AHTNC) -- Private Johnnie R. Lane, 24, son of Mr. and Mrs. Leo Lane, Route 1, Parma, Mo., completed an airframe repair course at the Army Transportation School, Ft. Eustis, Va., May 9.

During the eight - week course, he was trained in the maintenance and repair of sheet metal surfaces and plastic sections of Army aircraft.

His wife, Norma, lives at 1251 Burwood, La Habra, Calif.

FT. WOLTERS, TEX. (AHTNC) -- Second Lieutenant Glen J. Stine, 29, son of Richard L. Stine, Route 1, Lilbourn, Mo., completed a 16 - week helicopter pilot course at the Army Primary Helicopter School, Ft. Wolters, Tex., April 28.

During the course, he was trained to fly Army helicopters and learned to use them in tactical maneuvers.

He will next undergo advanced flight training at the Army Aviation School, Ft. Rucker, Ala.

His wife, Jo, lives at 2005 E. Main, Gatesville, Tex.

I was helping my husband survey some remote mining claims adjacent to Colorado's White River National Forest. There we became quite fond of a grizzled herder who tended a flock of sheep, and we often shared his coffee. One day we tried to sound out our nomadic friend's opinions on things political, but he clearly was not concerned. In such a setting, his attitude was understandable. "I guess even the Great Society can't touch us up here," I said contentedly.

"Well, now, I ain't too sure about that, ma'am," drawled the herder. "Only yesterday I seen some tracks down by the crick."

ELECTRIC AIR CONDITIONING
Big fans may move the air and help a bit on a hot, humid day, but an electric air conditioner
- moves cool air through your home
- removes excess humidity
- filters the air to get rid of annoying pollens
- lets you rest better, relax more when it's sweltering outdoors
With an electric air conditioner, you get the correct balance of cooling dehumidification and air filtration—all so important to comfortable summer living.
Don't wait for the really hot days to get here. Visit your favorite dealer today to see about comfort-conditioning your house now with an
ELECTRIC AIR CONDITIONER!

Today In U. S. History

By THE ASSOCIATED PRESS

Today is Monday, May 15, the 135th day of 1967. There are 230 days left in the year.

Today's highlight in history:

On this date in 1940, the Netherlands formally capitulated to Nazi invaders.

On this date:

In 1571, the Tartars burned Moscow.

In 1767, the ruler of Genoa sold the island of Corsica to France.

In 1773, the Austrian statesman, Metternich, was born.

In 1862, Congress established the Department of Agriculture.

In 1918, the first regular air mail service was started —between New York, Philadelphia and Washington.

In 1943, American bombers pounded the German naval base at Emden.

Ten years ago—Britain detonated its first atomic bomb and became the world's third nuclear power.

Five years ago — President John F. Kennedy ordered 4,000 more American troops to Thailand to back up his diplomatic efforts to save the independence of neighboring Laos.

One year ago — Pope Paul said he was greatly displeased because Poland did not permit a visit by him.

The favorite costume of a Detroit mother-to-be was a green maternity blouse over green slacks. She hadn't realized how often she'd worn it until her TV-minded six-year-old, seeing her approaching, called out, "Here comes the Jolly Green Giant!"

Mark Beltaire.

Newcomer's Feat Hardly Noticed

INDIANAPOLIS, Ind. (AP) - In any other day Wally Dallenbach might have been an auto racing sensation.

It was last Saturday, the opening day of qualifications for the Memorial Day 500-mile race, and a crowd upwards of 200,000 was waiting and watching for speeds by such drivers as Mario Andretti, Parnelli Jones, Jimmy Clark - big names in the sport.

So when Dallenbach became the day's third qualifier at a speed of 163.540 miles per hour, the fastest officially for any newcomer around the ancient 21/2-mile Indianapolis Motor Speedway, his effort went almost unnoticed.

But the four-lap, 10-mile stint in his turbocharged Offenhauser earned him the outside spot in the fifth row for the May 30 event, and when he had finished he went to the garage area and telephoned his wife in East Brunswick, N.J.

"She said she was praying for me and I guess her prayers were answered," said the 30-year-old Dallenbach.

Hospital Notes

Patients Admitted to the Missouri Delta Community hospital 5-13-67:
Curtis J. Allen, Sikeston
Mary A. DePoyster, Sikeston

Cora Midgett Dies Sunday

DEXTER - Mrs. Cora Bell Midgett, 96, died at 11:30 a.m. Sunday in a Poplar Bluff nursing home where she had been a patient four years.

Born at Anna, Ill., Dec. 18, 1870, she moved to Missouri in 1899, living in Scott and Stoddard counties.

On March 26, 1888, she married Thomas A. Midgett, who died in 1905.

Surviving are two sons, Robert Midgett, Puxico, and Thomas Midgett, Poplar Bluff; two daughters, Mrs. Laura Huffman, Oxly, and Mrs. Gladys Walpoole, Houston; 25 grandchildren.

Services will be 2 p.m. Tuesday at Watkins and Sons Funeral Home with the Rev. A.C. Sullivant officiating.

Burial will be in Memorial Park cemetery at Sikeston.

reliance on the property tax and to revision of the present assessment methods."

He said state constitutions "must be amended to provide local government with adequate fiscal power." He included tax and debt limitation freedom and increased bonding powers as ways to reach that goal.

"It is unnecessarily time-consuming," the Governor said, "for a legislator from Springfield or St. Joseph to be required to spend time in determining the size of a pension to be received by a retired St. Louis policeman.

"Local public officials are also much better equipped to decide how to use parking fee revenue, what types of intergovernmental agreements to enter into, and how to expand tax monies."

Many other things now handled in the legislature "could be more efficiently and expeditously handled at the local level" he said.

Another goal mentioned by Hearnes was the creation of a State Department of Community Affairs.

"The ultimate function of this new department will be to provide a new vehicle to enable state government to work cooperatively with federal and local governments-to research, plan, and propose ways to resolve problems such as transportation, housing, renewal, poverty, crime and pollution.

"I assure you," the Governor concluded, "every effort will be made by state government to assist local government to remain a viable instrument in our political structure."

#2

Cont. from Page 1

get is fully financed.

A number of efforts are expected to be made on the Senate floor to restore cuts made by the Senate Appropriations Committee. It approved a total budget of $1,082,000,000 - about million less than the governor recommended and about $23.7 million less than the House approved.

Major cuts were made in the mental health field and in capital improvements for the University of Missouri.

Sen. Albert M. Spradling, D-Cape Girardeau, is hopeful he can get the mental health reductions restored and Sen. A. Basey Vanlandingham, D-Columbia, is primed for a fight to get back $7,650,000 for a multi-purpose auditorium at Columbia.

House committees also have scheduled hearings on a number of other important bills, including the $2.6 million state property tax repealer, annual safety inspection of motor vehicles and abolition of open range, on which a fight is expected.

Tuesday the Senate Judiciary Committee will hear proponents of a constitutional amendment that would allow parochial and private school students to ride public school buses, an issue that always produces a highly emotional battle.

Both houses planned to resume work at 2 p.m.

#3

Cont. from Page 1

souri Route 51 north to the Perry Ste. Genevieve County line.

"Right of way for both of these projects tentatively is scheduled to be obtained in the 1970 fiscal year, which covers the period from July 1, 1969, through June 30, 1970.

"Contracts for building both of these projects are scheduled tentatively to be awarded for fiscal 1971.

"Ste. Genevieve County: It also will require two projects to extend Interstate 55 completely across Ste. Genevieve County.

"The first project will extend 14.6 miles from the Ste. Genevieve - Perry County line north to Route 0, southeast of Bloomsdale. Right of way for this work is scheduled to be acquired during the 1970 fiscal year and a contract for constructing the project is planned in fiscal year 1971.

"The other project in Ste. Genevieve County is 10.3 miles long and extends from Route 0 north to the Ste. Genevieve - Jefferson County line. The department's tentative schedule calls for acquiring the right of way for this project in fiscal year 1969, which is the period from July 1, 1968, through June 30, 1969. The contract for construction is planned in fiscal year 1970.

"Jefferson County: Two projects also will be needed to complete Interstate 55 in Jefferson County.

"The first is 4.5 miles long, extending north from the Jefferson-Ste. Genevieve county line.

"The second will pick up at the north end of that project and go 4.6 miles north to U.S. Route 67 south of Festus.

"Right of way for both of these projects tentatively is scheduled to be acquired in fiscal year 1969. Construction contracts for both jobs are planned to be awarded in fiscal year 1970.

"Originally the interstate system was to be finished in 1972, but indications now are that it will be about 1975 before it is completed."

He turned to discussion of Missouri route 74:

"Missouri Route 74 presently extends from Missouri Route 25 at Dutchtown east to Interstate 55," he said. "The distance is five miles.

"Because of industrial development now occurring or planned west of the Scott City interchange, local authorities asked that consideration be given to relocating Missouri Route 74 south of its present location in order to serve the industrial area. The request was to locate the highway south of the Diversion Channel, with its eastern terminus with Interstate 55 being at the Scott City interchange.

"The state highway commission would consider this relocation. But it would be necessary that right of way for the new road be provided by local people without cost to the state. In addition, present Missouri route 74 would have to be taken over by local authorities after the new road was built.

"Local people earlier had said that the necessary right of way would be provided to the state. Now, however, there seems to be some reluctance to furnish the land for the highway.

"I know there has been some controversy over the proposed access provisions and design which the department feels are necessary for the road. But that is not the only problem at present concerning the status of the Route 74 project.

"One problem which will have to be solved before the road ever could be built centers around the furnishing of the right of way by local people at no cost to the state. The matter still is under discussion, but no agreement has been reached. Until there is agreement on this point, then nothing further can be accomplished on the project."

In discussing the long range study of Missouri highway needs Snider said that by 1985 the state would have an estimated 118,358 miles of roads, streets and highways about five per cent more than now. This would include 1,119 miles of interstate.

He said that total monetary needs for all types of thoroughfares would be $5.6 billion between now and 1985.

"This means a deficit of $3.3 billion in meeting the highway transportation needs," he said.

Snider said that the study presented a road building challenge which must be accepted to reduce death on the highways and prevent the state from being "mired down in a sea of traffic congestion."

#4

Cont. from Page 1

the outcome of the cotton crop extension agents in the area reported today. If high temperatures set in and the water drains off, in the next few days, some of the cotton crop will be salvaged and farmers will be able to plant in time for a harvest.

Even with the most favorable weather in the next few days much of the crop is expected to be damaged by the rain.

Glen Patton, University of Missouri extension agent for Mississippi county, said it will take several days of sunshine to relieve the situation. For all practical purposes it will be too late for planting more cotton, he said.

There is no way to make a complete assessment of the possibilities yet, he added. About six inches of rain fell during the weekend over the county, he said.

About two thirds of the cotton crop in Mississippi county has been planted. Corn stands are looking good except where too much water is standing, Patton said.

Bert Robbins, extension agent for New Madrid county, said today that spotted hail damage was caused in the north and west parts of the county during the weekend.

Cotton is in a critical stage, he said. The amount of water that fell is the real problem. It is backed up along the main channels and will cause serious losses in the cotton crop, if it stands very long.

Corn and wheat, which had been looking good in the county, also will be adversely affected if the water stands too long, Robbins said.

Tom Brown, Stoddard county agent, said apparently about the same amount of rainfall recorded in Sikeston fell in Stoddard county.

In addition to the critical state of cotton, the highly perishable strawberry crop probably will suffer serious loss, he said.

No estimate was available to the amount of the cotton crop now planted. A good bit remains to be planted, Brown said.

Continued from page 1

there are two others located in either the Mint, Sahara Tahoe, one of the Kings Inns or Townhouses of Fresno, San Francisco of Phoenix or the Mountain Shadows of Scottsdale.

"You'll never know the exact location of the other two bombs until 6 o'clock tomorrow morning when they explode."

The note was written sometime Sunday night, deputies theorized.

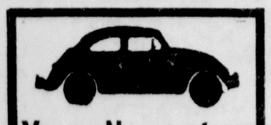

Guests — more than 2,000 in Nevada alone -- were evacuated from the establishments. No panic was reported and no other bomb was found.

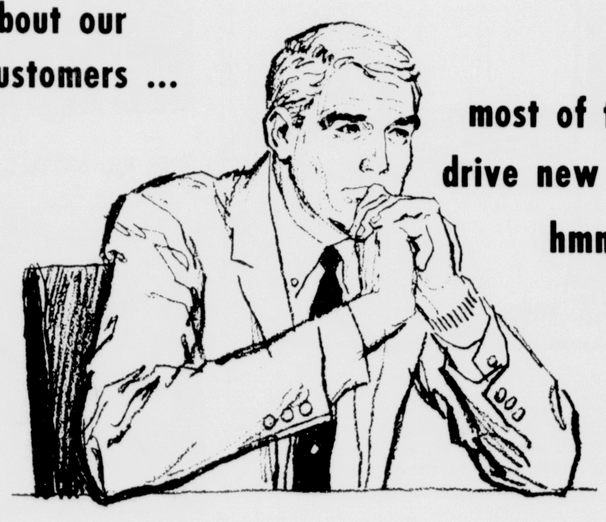

The FBI was called in to aid in the search and evacuation. Agents began an immediate investigation into the identity of the anonymous caller.

Officers said the caller telephoned a second time while the search and evacuation were under way to tell them of another note near the Sahara building.

strange thing about our customers ... most of them drive new cars hmmm...

It's really not hard to understand. We have consistently low bank rates; prompt credit approval. And our repayment plans are individualized. That means you have a choice of schedules for paying us back . . .we'll go along with your budget.
Besides, First National has a certain flair about making a loan. We figure that even when you're borrowing money, instead of putting it in a savings plan or checking account, you're still doing us a favor. Because we can't prosper unless we serve you. . .not just satisfactorily, but spectacularly. So we go overboard on being hospitable; warm; courteous.
AUTO LOANS
Join our list of strange auto-loan customers. You can usually tell them by the smiles on their faces. . .and the great cars they drive.

Newcomer's Feat Hardly Noticed

INDIANAPOLIS, Ind. (AP) - On any other day Wally Dallenbach might have been an auto racing sensation.

It was last Saturday, the opening day of qualifications for the Memorial Day 500-mile race, and a crowd upwards of 200,000 was waiting and watching for speeds by such drivers as Mario Andretti, Parnelli Jones, Jimmy Clark - big names in the sport.

So when Dallenbach became the day's third qualifier at a speed of 163.540 miles per hour, the fastest officially for any newcomer around the ancient 21/2-mile Indianapolis Motor Speedway, his effort went almost unnoticed.

But the four-lap, 10-mile stint in his turbocharged Offenhauser earned him the outside spot in the fifth row for the May 30 event, and when he had finished he went to the garage area and telephoned his wife in East Brunswick, N.J.

"She said she was praying for me and I guess her prayers were answered," said the 30-year-old Dallenbach.

Many other things now handled in the legislature "could be more efficiently and expeditously handled at the local level" he said.

Another goal mentioned by Hearnes was the creation of a State Department of Community Affairs.

"The ultimate function of this new department will be to provide a new vehicle to enable state government to work cooperatively with federal and local governments to research, plan, and propose ways to resolve problems such as transportation, housing, renewal, poverty, crime and pollution.

"I assure you," the Governor concluded, "every effort will be made by state government to assist local government to remain a viable instrument in our political structure."

get is fully financed.

A number of efforts are expected to be made on the Senate floor to restore cuts made by the Senate Appropriations Committee. It approved a total budget of $1,082,000,000 - about million less than the governor recommended and about $23.7 million less than the House approved.

Major cuts were made in the mental health field and in capital improvements for the University of Missouri.

Sen. Albert M. Spradling, D-Cape Girardeau, is hopeful he can get the mental health reductions restored and Sen. A. Basey Vanlandingham, D-Columbia, is primed for a fight to get back $7,650,000 for a multipurpose auditorium at Columbia.

House committees also have scheduled hearings on a number of other important bills, including the $2.6 million state property tax repealer, annual safety inspection of motor vehicles and abolition of open range, on which a fight is expected.

Tuesday the Senate Judiciary Committee will hear proponents of a constitutional amendment that would allow parochial and private school students to ride public school buses, an issue that always produces a highly emotional battle.

Both houses planned to resume work at 2 p.m.

souri Route 51 north to the Perry Ste. Genevieve County line.

"Right of way for both of these projects tentatively is scheduled to be obtained in the 1970 fiscal year, which covers the period from July 1, 1969, through June 30, 1970.

"Contracts for building both of these projects are scheduled tentatively to be awarded for fiscal 1971.

"Ste. Genevieve County: It also will require two projects to extend Interstate 55 completely across Ste. Genevieve County.

"The first project will extend 14.6 miles from the Ste. Genevieve - Perry County line north to Route 0, southeast of Bloomsdale. Right of way for this work is scheduled to be acquired during the 1970 fiscal year and a contract for constructing the project is planned in fiscal year 1971.

"The other project in Ste. Genevieve County is 10.3 miles long and extends from Route 0 north to the Ste. Genevieve - Jefferson County line. The department's tentative schedule calls for acquiring the right of way for this project in fiscal year 1969, which is the period from July 1, 1968, through June 30, 1969. The contract for construction is planned in fiscal year 1970.

"Jefferson County: Two projects also will be needed to complete Interstate 55 in Jefferson County.

"The first is 4.5 miles long, extending north from the Jefferson-Ste. Genevieve county line.

"The second will pick up at the north end of that project and go 4.6 miles north to U.S. Route 67 south of Festus.

"Right of way for both of these projects tentatively is scheduled to be acquired in fiscal year 1969. Construction contracts for both jobs are planned to be awarded in fiscal year 1970.

"Originally the interstate system was to be finished in 1972, but indications now are that it will be about 1975 before it is completed."

He turned to discussion of Missouri route 74:

"Missouri Route 74 presently extends from Missouri Route 25 at Dutchtown east to Interstate 55," he said. "The distance is five miles.

"Because of industrial development now occurring or planned west of the Scott City interchange, local authorities asked that consideration be given to relocating Missouri Route 74 south of its present location in order to serve the industrial area. The request was to locate the highway south of the Diversion Channel, with its eastern terminus with Interstate 55 being at the Scott City interchange.

"The state highway commission would consider this relocation. But it would be necessary that right of way for the new road be provided by local people without cost to the state. In addition, present Missouri route 74 would have to be taken over by local authorities after the new road was built.

"Local people earlier had said that the necessary right of way would be provided to the state. Now, however, there seems to be some reluctance to furnish the land for the highway.

"I know there has been some controversy over the proposed access provisions and design which the department feels are necessary for the road. But that is not the only problem at present concerning the status of the Route 74 project.

"One problem which will have to be solved before the road ever could be built centers around the furnishing of the right of way by local people at no cost to the state. The matter still is under discussion, but no agreement has been reached. Until there is agreement on this point, then nothing further can be accomplished on the project."

In discussing the long range study of Missouri highway needs Snider said that by 1985 the state would have an estimated 118,358 miles of roads, streets and highways about five per cent more than now. This would include 1,119 miles of interstate.

He said that total monetary needs for all types of thoroughfares would be $5.6 billion between now and 1985.

"This means a deficit of $3.3 billion in meeting the highway transportation needs," he said.

Snider said that the study presented a road building challenge which must be accepted to reduce death on the highways and prevent the state from being "mired down in a sea of traffic congestion."

the outcome of the cotton crop extension agents in the area reported today. If high temperatures set in and the water drains off, in the next few days, some of the cotton crop will be salvaged and farmers will be able to plant in time for a harvest.

Even with the most favorable weather in the next few days much of the crop is expected to be damaged by the rain.

Glen Patton, University of Missouri extension agent for Mississippi county, said it will take several days of sunshine to relieve the situation. For all practical purposes it will be too late for planting more cotton, he said.

There is no way to make a complete assessment of the possibilities yet, he added. About six inches of rain fell during the weekend over the county, he said.

About two thirds of the cotton crop in Mississippi county has been planted. Corn stands are looking good except where too much water is standing, Patton said.

Bert Robbins, extension agent for New Madrid county, said today that spotted hail damage was caused in the north and west parts of the county during the weekend.

Cotton is in a critical stage, he said. The amount of water that fell is the real problem. It is backed up along the main channels and will cause serious losses in the cotton crop, if it stands very long.

Corn and wheat, which had been looking good in the county, also will be adversely affected if the water stands too long, Robbins said.

Tom Brown, Stoddard county agent, said apparently about the same amount of rainfall recorded in Sikeston fell in Stoddard county.

In addition to the critical state of cotton, the highly perishable strawberry crop probably will suffer serious loss, he said.

No estimate was available to the amount of the cotton crop now planted. A good bit remains to be planted, Brown said.

there are two others located in either the Mint, Sahara Tahoe, one of the Kings Inns or Townhouses of Fresno, San Francisco of Phoenix or the Mountain Shadows of Scottsdale.

"You'll never know the exact location of the other two bombs until 6 o'clock tomorrow morning when they explode."

The note was written sometime Sunday night, deputies theorized.

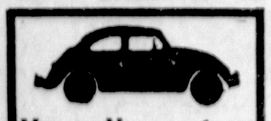

Guests — more than 2,000 in Nevada alone -- were evacuated from the establishments. No panic was reported and no other bomb was found.

The FBI was called in to aid in the search and evacuation. Agents began an immediate investigation into the identity of the anonymous caller.

Officers said the caller telephoned a second time while the search and evacuation were under way to tell them of another note near the Sahara building.

strange thing about our customers ... most of them drive new cars hmmm...

It's really not hard to understand. We have consistently low bank rates; prompt credit approval. And our repayment plans are individualized. That means you have a choice of schedules for paying us back . . .we'll go along with your budget.
Besides, First National has a certain flair about making a loan. We figure that even when you're borrowing money, instead of putting it in a savings plan or checking account, you're still doing us a favor. Because we can't prosper unless we serve you. . .not just satisfactorily, but spectacularly. So we go overboard on being hospitable; warm; courteous.
AUTO LOANS
Join our list of strange auto-loan customers. You can usually tell them by the smiles on their faces. . .and the great cars they drive.
